7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled and cased well equipped with pump, motor, totalizing meter and distribution system to stockwater troughs.

9. Estimated cost of works: \$50,000

10. Estimated time required to construct works: Two (2) Years
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five(5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The Application seeks to appropriate water to support approximately 60 head of cattle maintained under various grazing permits. Stockwater troughs within the proposed place of use are anticipated to be installed to provide water to cattle from this source. A stockwater affidavit is being prepared by the applicant and is expected to be filed in support of this Application within the next few weeks.
