

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee: WASHOE COUNTY
Source: STREAM (TRUCKEE RIVER)
Basin: TRUCKEE MEADOWS
Manner of Use: WILDLIFE
Period of Use: AS DECREED
Priority Date: AS DECREED

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the place and manner of use of a portion of the waters of the Truckee River as heretofore granted under Claims 603, 606/606A and 607, Truckee River Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

The issuance of this permit fully abrogates 5.68 acre-feet per season associated with 1.42 acres under Claims 603 and 606/606A being described as the existing place of use under this permit. The issuance of this permit is for the consumptive use portion only from those above claims, being 2.50 acre-feet per acre of the base right. The remaining portion of the base right will remain in the river for use by other decreed right holders. The reduced duty of Claim 607 allows for the full duty of 1 acre-foot per acre to be utilized under this permit.

This permit is subject to the continuing jurisdiction of the Federal Water Master and the State Engineer.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0355 cubic feet per second or 4.55 acre-feet as decreed.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: Filed Under 82371 on April 25, 2014

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: March 30 2021

Map in support of proof of beneficial use shall be filed on or before: N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of March, 2016

J. King P.E.
State Engineer
