

**THE STATE OF NEVADA****PERMIT TO APPROPRIATE WATER**

Name of Permittee: BROKEN ARROW HORSE & CATTLE COMPANY, LLC
Source: UNDERGROUND
Basin: CARSON DESERT
Manner of Use: COMMERCIAL
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST
Priority Date: 11/20/2015

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, for diversion rate only, is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

The total combined duty of water under Permits 83158 and 85674 shall not exceed 25 acre-feet annually.

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. In no instance shall the seal on this well be less than 100 feet below ground level.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

This permit is issued for diversion rate only. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.15 cubic feet per second or 25.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

April 18, 2018

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

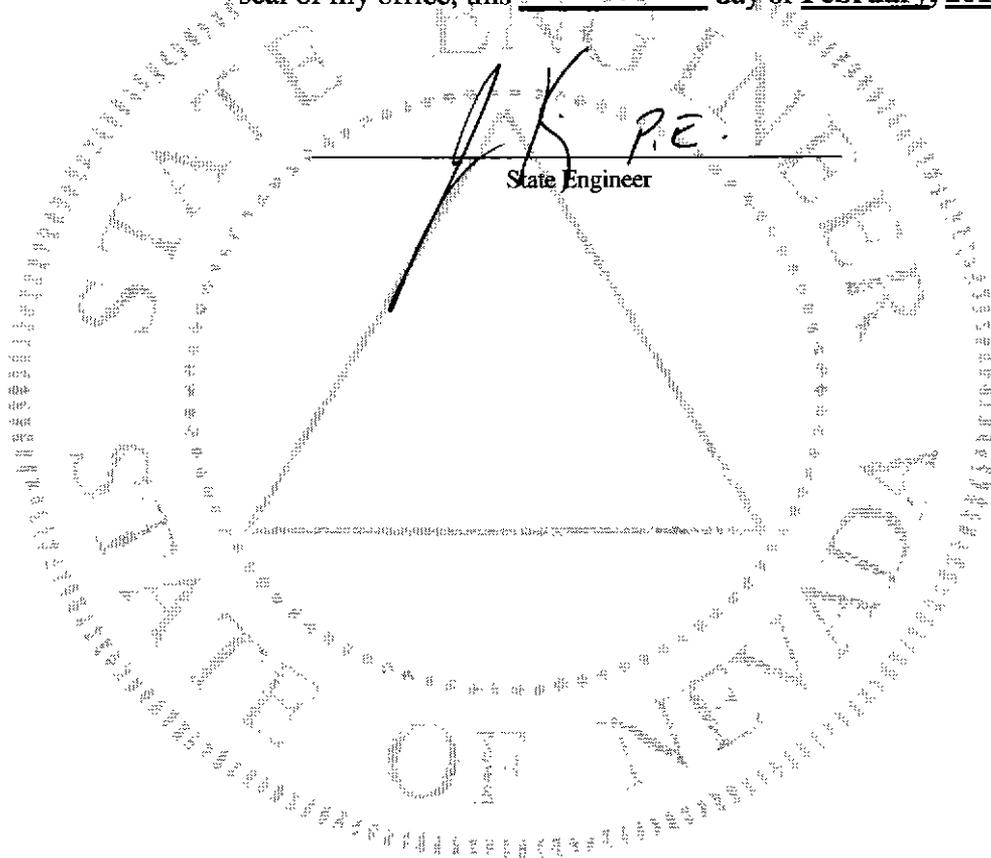

April 18, 2021

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 14th day of February, 2017

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

THIS SPACE FOR OFFICE USE ONLY	
Date of Filing in State Engineer's Office	<u>NOV 20 2015</u>
Returned to applicant for correction	_____
Corrected Application filed	Map filed <u>NOV 20 2015</u>

The applicant Broken Arrow Horse & Cattle Company, LLC
Post Office Box 1475 of Fallon
Street Address or P.O. Box City or Town
Nevada 89407 hereby make(s) application for permission to appropriate the
State and ZIP Code

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Nevada; 2011

1. The source of water is an underground source
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.15 cubic feet per second (Diversion Rate Only)
One second foot equals 448.83 gallons per minute.
 - (a) If stored in a reservoir give the number of acre-feet _____
3. The water is to be used for Commercial Purposes
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
 - (a) Irrigation, state number of acres to be irrigated _____
 - (b) Stockwater, state number and kind of animals _____
 - (c) Other use (describe fully in No. 12) _____
 - (d) Power:
 - (1) Horsepower developed _____
 - (2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

within the NW1/4 SW1/4 Section 35, T.20N., R.29E., M.D.M. or at a point from which the NW corner of said Section 35 bears North 16°59'58" West, a distance of 2,814.03 feet. Refer to map filed in support of this application.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

within the S1/2 N1/2 N1/2, S1/2 N 1/2, N1/2 S1/2 of Section 35, T.20N., R.29E., MDM. Refer to Churchill County Assessor Parcel Numbers 009-411-43, 009-411-45, 009-411-46, and 009-411-76. Refer to map filed in support of this application.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing drilled and cased well equipped with pimp, motor, totalizing meter and pipeline to existing water delivery system.

9. Estimated cost of works: \$100,000

10. Estimated time required to construct works: Two (2) Years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The water under this application is proposed to be utilized for an animal feed lot, including but not limited to water for animals, wash down facilities, dust abatement, office buildings, and other associated needs. The total combined duty of Permit Nos. 80235, 83158, and this application shall not exceed 45 acre-feet annually. Works have been developed under Temporary Permit No. 84920-T.
