**APPROVAL OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the place of use and manner of use of a portion of the waters of the Newlands Reclamation Project rights in the Truckee and Carson River final decrees and a portion of Permit 47839 which changed the place of use of a portion of the Newlands Reclamation Project rights in the Truckee and Carson River final decrees is issued subject to the terms and conditions imposed in said decrees and with the understanding that no other rights on the source will be affected by the change proposed herein.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire November 15, 2016, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

This temporary permit is expressly contingent on the payment of the operation and maintenance charges that are properly assessed and come due in the same manner as if the water were still appurtenant to the agricultural land from which it is transferred, pursuant to NRS 533.370, subsection 1 (b).

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)
