

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee: NEVADA DEPARTMENT OF CONSERVATION
AND NATURAL RESOURCES,
DIVISION OF STATE PARKS

Source: UNDERGROUND

Basin: CARSON DESERT

Manner of Use: QUASI-MUNICIPAL

Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST

Priority Date: 01/06/2016

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

The total combined duty of water under Permit 30300, Certificate 10022; Permit 30301, Certificate 10023; Permit 30302, Certificate 10024 and Permit 85776 shall not exceed 14.12 acre-feet annually.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.05 cubic feet per second or 4.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 30 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

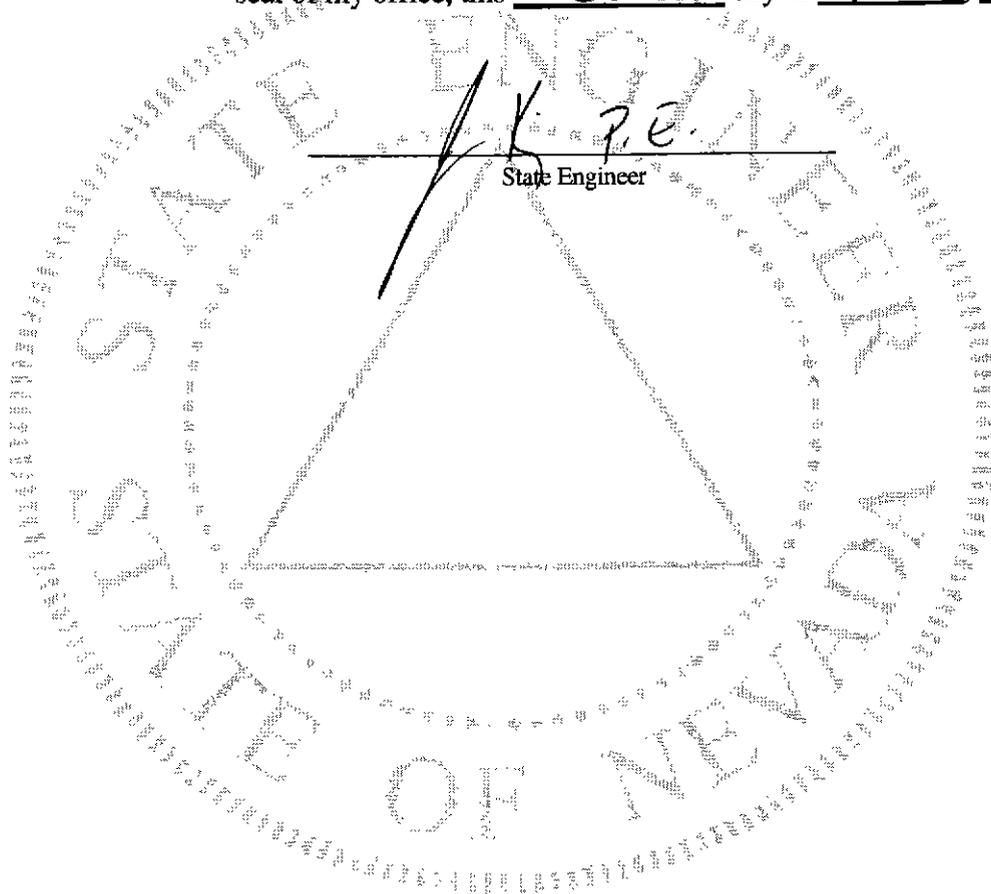

September 30 2019

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of September, 2016

[Handwritten Signature]

State Engineer

hereby make(s) application for permission to appropriate the

public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

RECEIVED
 2016 JAN -6 PM 2:19
 STATE ENGINEERS OFFICE

1. The source of water is underground

Name of the stream, lake, underground, spring or other sources.

2. The amount of water applied for is 0.05 cfs not to exceed 4 acre-feet per year

One second foot equals 448.83 gallons per minute.

(a) If stored in a reservoir give the number of acre-feet _____

3. The water is to be used for Quasi-Municipal

Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kind of animals _____

(c) Other use (describe fully in No. 12) _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

8-101
C4

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the NE 1/4 of the SE 1/4 of Section 33, T.19N., R26E., MDB&M; at a point from which the SE corner of said Section 33, T.19N., R26E., MDB&M bears S 7° 38' 01" E a distance of 2542.93 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

portions of the SE 1/4 and the SW 1/4 of Section 33 and the SE 1/4 of Section 32, T.19N., R26E., MDB&M; and a portion of the NE 1/4 of Section 4, T.18N., R26E., MDB&M

7. Use will begin about January 1st and end about December 31st of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A drilled well with a 100 foot deep sanitary seal and a total anticipated depth of 200 to 500 feet; necessary piping and appurtenances

9. Estimated cost of works: \$100,000

10. Estimated time required to construct works: one year
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: three years

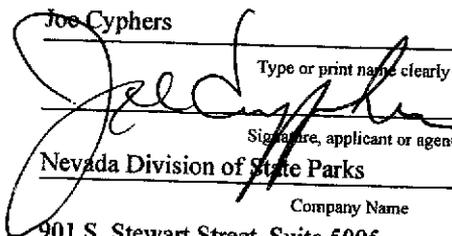

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

A well shall be drilled and tested for water quality. Water shall be piped to existing park residences (5) and the existing park office/shop. Connection to the existing public water system may be made. Water treatment and diaphragm storage tanks may be installed. Connection to the existing Park public water system may be made.
