THIS SPACE FOR OFFICE USE ONLY
Date of filing in State Engineer's Office MAR 03 2016
Returned to applicant for correction
Corrected application filed Map filed

The applicant CC CONSTRUCTION OF NEVADA, LLC
5850 W. Desert Inn Road of Las Vegas
Nevada 89146 hereby make(s) application for permission to change the

- Point of diversion
Place of use
Manner of use
of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

No existing rights are known to exist.

RECEIVED
2016 MAR -3 AM 10:56
STATE ENGINEERS OFFICE

- 1. The source of water is underground
2. The amount of water to be changed 1.0 second feet
3. The water to be used for construction
4. The water heretofore used for no record of use exists
5. The water is to be diverted at the following point
6. The existing point of diversion is located within

El Dorado Valley
10-167
CI

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

The proposed place of use is: portions of sections 16, 17, 19, 20, 21, 29 & 30 of township 24 south, range 63 east, Boulder City, Clark County, Nevada, being the lease property as shown as instrument no. 201203050001218. Clark County, Nevada records, being 1.562 acres.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

unknown

RECEIVED
2016 MAR -3 AM 10:57
STATE ENGINEERS OFFICE

9. Proposed use will be from April 1st to March 31st of each year.
Month and Day Month and Day

10. Existing use permitted from unknown to _____ of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Water will be pumped with a submersible electric motor and pump, piped through an unburied 4" HDPE pipe, approximately 1,000' +/-, to an existing lined storage pond with a capacity of one million gallons.

12. Estimated cost of works \$15,000.00 (see item 13 below)

13. Estimated time required to construct works well is complete as per well log #9305

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use one year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

CC Construction has entered into a contract, at the Boulder Solar Project, LLC, to perform several work items listed herein but not limited to the following: all clearing and grubbing, access road construction and maintenance, site preparation (including cut & fill dirt work to engineered grades) for the solar arrays, site drainage, and dust control as necessary to comply with Clark County and Boulder City requirements. The following documents are attached: Overall site plan for the solar field, existing well head location, photo of existing well head, well log number 9305, well log details on file and the map required to accompany this application.

16. Miscellaneous remarks:

CC Construction has been working on-site since December of 2015. To preform as required by their contract, they have had to endure a "round the clock" trucking program to bring adequate water to the site. The amount of water being brought in is marginal at best. Summer is rapidly approaching with low humidity and high desert winds and trucking is no longer viable.
