**Period of Use:** JANUARY 1ST THROUGH DECEMBER 31ST  
**Priority Date:** 04/19/1960

\*\*\*\*\*

#### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 82969, is issued subject to the terms and conditions imposed in said Permit 82969 and with the understanding that no other rights on the source will be affected by the change proposed herein. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2 inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This permit is issued pursuant to the interstate allocation found in Section 204(b) of Public Law 101-618 and affirmed through the implementation of the Truckee River Operating Agreement. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.01036 cubic feet per second or 0.56 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

September 30 2017

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

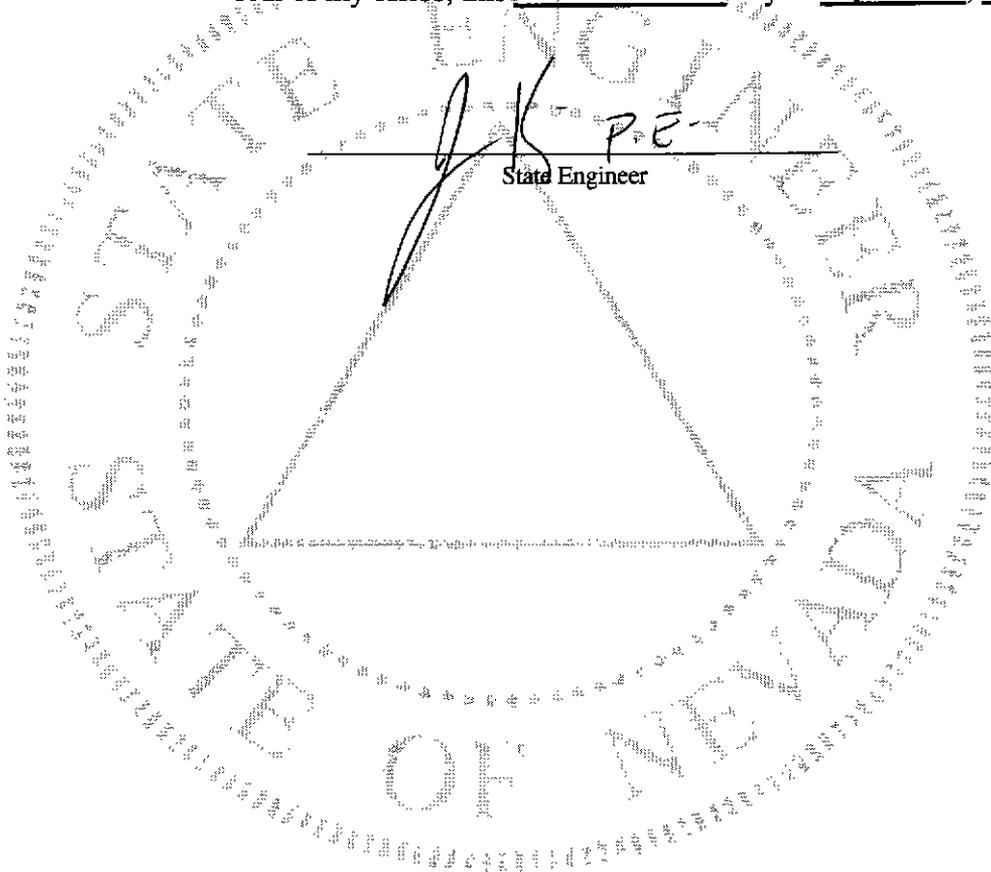

September 30 2019

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30<sup>th</sup> day of September, 2016

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

A portion of the S1/2 of Lot 3, Section 15, T.14N., R.18E., M.D.M., being Douglas County Assessor's Parcel Nos. 1418-15-701-009 and 1418-15-701-010. Refer to the map supporting this Application.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

A portion of the S1/2 of Lot 3, Section 15, T.14N., R.18E., M.D.M., being Douglas County Assessor's Parcel Nos. 1418-15-701-005, 1418-15-701-006, 1418-15-701-007, 1418-15-701-008, 1418-15-701-009 and 1418-15-701-010. Refer to the map supporting Permit No. 82969.

9. Proposed use will be from January 1 to December 31 of each year.  
Month and Day Month and Day

10. Existing use permitted from January 1 to December 31 of each year.  
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing drilled and cased well with an electric motor, submersible pump, meter and distribution system.

12. Estimated cost of works \$1000.00.

13. Estimated time required to construct works Well is existing. 1 year to install meter and complete works.  
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This water would serve a home and guest house, landscaping and related on site uses.
