5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

within the SE1/4 of the SE1/4 of Section 27, T.34N., R.57E., M.D.M., or at a point from which the East quarter corner of said Section 27 bears North 05°54'11" East a distance of 2,444.65 feet. Refer to map filed in support of this application.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

within the SE1/4 of the SE1/4 of Section 27, T.34N., R.57E., M.D.M. Refer to map filed in support of this application.

7. Use will begin about January 1 and end about December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Drilled well with solar pump, underground storage tank to prevent vandalism and troughs to provide water to cattle.

9. Estimated cost of works: \$10,000.00

10. Estimated time required to construct works: Two (2) Years
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The well will provide water for 200 head of cattle grazing on the Sandhill South grazing allotment (05458). All improvements will be located on private land. Applicant is working with the BLM to adjust the seasonal period of use in this allotment to allow for winter grazing. The manner of use for this application includes annual use to allow for that proposed adjustment. Applicant estimates 40 gallons per day per head of cattle over six month grazing period.

13. Miscellaneous remarks:

Applicant filed temporary appropriation to water livestock under a declaration of drought to meet requirements of NRCS funding opportunities. This application will replace Temporary Application 86031-T once approved.
