

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY
JUN 08 2016

Date of filing in State Engineer's Office _____

Returned to applicant for correction _____

Corrected application filed _____ Map filed June 15, 2012 Under 81967

The applicant Pequop Conservancy, LLC

P.O. Box 7335 of Reno
Street Address or P.O. Box City or Town

Nevada, 89510, hereby make(s) application for permission to change the
State and Zip Code

- Point of diversion Place of use Manner of use of a portion

of water heretofore appropriated under (Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree)

Permit No. 78260

- The source of water is Underground
Name of stream, lake, underground, spring or other sources.
- The amount of water to be changed 0.033 cfs 16.00 acre-feet annually
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
- The water to be used for Irrigation
Irrigation, power, mining, commercial, etc. If for stock state number and kind of animals. Must limit to one major use.
- The water heretofore used for Irrigation
If for stock state number and kind of animals.
- The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)
NE1/4 NE1/4 of Section 27, T.37 N., R.64 E., M.D.B. & M., at a point from which the Northeast corner of said Section 27 bears N 56° 02' 44" E, 341.82 feet. Please use the map filed in support of Permit 81970 to illustrate the proposed point of diversion under this application.
- The existing point of diversion is located within (If point of diversion is not changed, do not answer)
SW1/4 SW1/4 of Section 4, T.36 N., R.64 E., M.D.B. & M., at a point from which the Southwest corner of Section 9, T.36 N., R.64 E., M.D.B. & M., bears S 06° 00' 00" W, 5438.00 feet. Please use the map filed in support of Permit 78260 to illustrate the existing point of diversion under this application.

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)
All of Section 27, T.37 N., R.64 E., M.D.B. & M.
4.00 acres to be irrigated.
Please use the map filed in support of Permit 81970 to illustrate the proposed place of use under this application.
8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)
The S1/2 SW1/4 of Section 4 and the NW1/4 of Section 9, all in T.36 N., R.64 E., M.D.B. & M.
4.00 acres to be removed from irrigation.
Please use the map filed in support of Permit 78260 to illustrate the existing place of use under this application.
9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day
10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day
11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes or drilled well, pump, and motor, etc.)
Drilled well, pump, pipelines and sprinkler system
12. Estimated cost of works \$10,000
13. Estimated time required to construct works 3 years
If well completed, describe well.
14. Estimated time required to complete the application of water to beneficial use 5 years
15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary):(Failure to provide a detailed description may cause a delay in processing)
Permit 78260 was originally issued for the irrigation of 40.00 acres. Permit 84973 changed the point of diversion and place of use of 36 acres originally permitted under 78260 to the well under Permit 81970 due to the fact that there is no power available at the point of diversion under Permit 78260 and the applicant had determined that it would be more convenient and cost effective to irrigate the 36 acres changed by Permit 84973 from a well where power was available. This left 4 acres to be irrigated from the well under Permit 78260 which the applicant intended to irrigate utilizing solar power. He has now decided that the irrigation of such a small amount of acreage, being 4 acres, from the well under Permit 78260 is not practical nor cost effective. This application changes the remaining acreage allowed under Permit 78260 to the well permitted under Permit 81970. The waters under this application, the waters under the application changing the remaining portion of Permit 78419 being filed herewith and the waters under Permits 81970, 84973 and 84974 are to be co-mingled at a total duty of 1920.0 acre feet for the irrigation of 480.0 acres within the proposed and permitted place of use. The existing well at the point of diversion under Permit 78260 will be utilized for stockwater purposes as permitted under Permit 38991, Certificate 11892.
