STATE ENGINEER'S OFFICE

1. The source of water is an underground source
Name of stream, lake, underground, spring or other sources.
2. The amount of water to be changed a pro-rata share of the diversion rate and 119.2 acre-feet annually
Second feet, acre-feet. One second foot equals 448.83 gallons per minute.
3. The water to be used for Irrigation and Domestic Purposes
Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use
4. The water heretofore used for Irrigation and Domestic Purposes
If for stock, state number and kind of animals.
5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
In the SW1/4 SE1/4 Section 26, T. 21 N., R. 63 E., M.D.B.&M. or at a point from which the south quarter corner of said Section 26 bears S. 04° 41' 09" W., 1224.09 feet dist. (Well S4) Refer to map filed in support of Permit No. 22374.
6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
NE1/4 SE1/4 Sec. 1, T.20N., R.63E., M.D.B.&M. or at a point from which the E1/4 corner of said Section 1 bears N. 87° 36' 32" E., a distance of 1,276.43 feet. Refer to map filed in support of Permit No. 36159, Certificate 12216.

10-179
WP

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

29.80 acres to be irrigated within portions of the S1/2 SE1/4 Section 26 and portions of E1/2 Section 35, T.21N, R.63E, M. D.M. Refer to map filed in support of this application. Reference is made to White Pine County APNs 008-480-14, -21, -22, -23, -24 & -25. The exact location to be determined upon Proof of Beneficial Use filing.

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

13.15 acres in the NE1/4 SE1/4, 11.38 acres in the SE1/4 SE1/4, in Section 1, T.20N., R.63E., M.D.M.; 8.96 acres in Lot 6, 6.24 acres in Lot 7, in Section 6, T.20N., R.64E., M.D.M., for a total of 39.73 acres to be removed from irrigation. Refer to map filed in support of this application.

9. Proposed use will be from January 1st to December 31st of each year.
Month and Day Month and Day

10. Existing use permitted from January 1st to December 31st of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Drilled well, equipped with a motor, pump, totalizing meter, and pipeline to irrigation distribution system.

12. Estimated cost of works Approximately \$200,000

13. Estimated time required to construct works Two (2) Years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Five (5) Years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Refer to Attachment "A" for additional information. Permit No. 36159 was certificated for a duty of 3.0 acre-feet per acre, which required this volume to be converted to a 4.0 acre-feet per acre duty.

16. Miscellaneous remarks:

Refer to Permit Nos. 47250 and 47251 for additional information; these water rights have been cancelled, but were initially approved for irrigation for a total of 320 acres.

Attachment "A"**Item No. 15 – Provide a detailed Description of the project and its water usage (use attachments if necessary):**

Applicant proposes to move 306.88 acres of water rights to recently acquired property to support two 115 acre pivots and 76.88 acres of wheel line irrigation at a duty of 4.0 acre-feet per acre. A portion of the acreage needed is proposed to be stripped from the applicants North Farm under Permit Nos. 23895, Cert. 8022; 23898, Cert. 8025; 23899, Cert. 8005; 24182, Cert. 8029; 26288, Cert. 8353; 84613, 84614, and 84615 (Jonathan and Jennifer Grady and The Craig and Kacie Nelson Trust, each as to an 1/2 interest), to allow for more efficient irrigation. Additional portions from the Soeder Farm under Portions of Permit Nos. 22373, Cert. 7714, 36159, Cert. 12216 (owned by Jonathan and Jennifer Grady) are also being proposed to facilitate this irrigation project.

Temporary Application Nos. 85991-T, 85992-T, and 85993-T were approved to allow for irrigation of one 115 acre center pivot. Applicant wishes to install a second 115 acre center pivot and use the balance of water to irrigate via wheel lines on the private parcels that connect the farm. The water delivery system between Well S3 and Well S4 is proposed to be tied together to help manage flows to operate pivots and wheel lines effectively. Additional production wells are not anticipated above the two proposed points of diversion under these applications.

The total combined duty of these applications is 1,227.52 acre-feet for the irrigation of 306.88 acres within the proposed place of use. Permit No. 36159, Cert. 12216, was certificated at a duty of 3.0 acre-feet per acre. The applicant proposes to change the duty to allow for irrigation at 4.0 acre-feet per acre, as a result, additional acreage was stripped to allow for the increased duty. Permit Nos. 24182, Cert. 8029, 84613, and 84614 were issued commingled with permits at the North Farm; changes to these applications are being filed to allow for additional diversion rate at their respective proposed points of diversion, and do not intended to allow for additional acreage or volume within the proposed place of use. For additional information, refer to Permit Nos. 23897, Cert. 8021, and 24818, Cert. 8028.

For water rights previously approved for irrigation within the proposed place of use, reference Permit Nos. 22374, 22370, 24254, 36611, 47250, 47251, and 57182. These applications have since been cancelled for failure to comply with terms under the permit, but were issued to allow of irrigation of 320 acres under White Pine County Assessor's Parcel Nos. 008-480-14, 008-480-21, 008-480-22, 008-480-23, 008-480-24, and 008-480-25.
