Source: UNDERGROUND  
Basin: CARSON DESERT  
Manner of Use: STOCKWATERING  
Period of Use: JANUARY 1ST THROUGH DECEMBER 31ST  
Priority Date: 07/25/2016

\*\*\*\*\*

### APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis by February 15th of each year.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use and in compliance with State Engineer's Order 1116.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, not to exceed 0.05 cubic feet per second and 4.48 acre-feet annually, or sufficient to water 200 head of cattle.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

January 30 2018

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

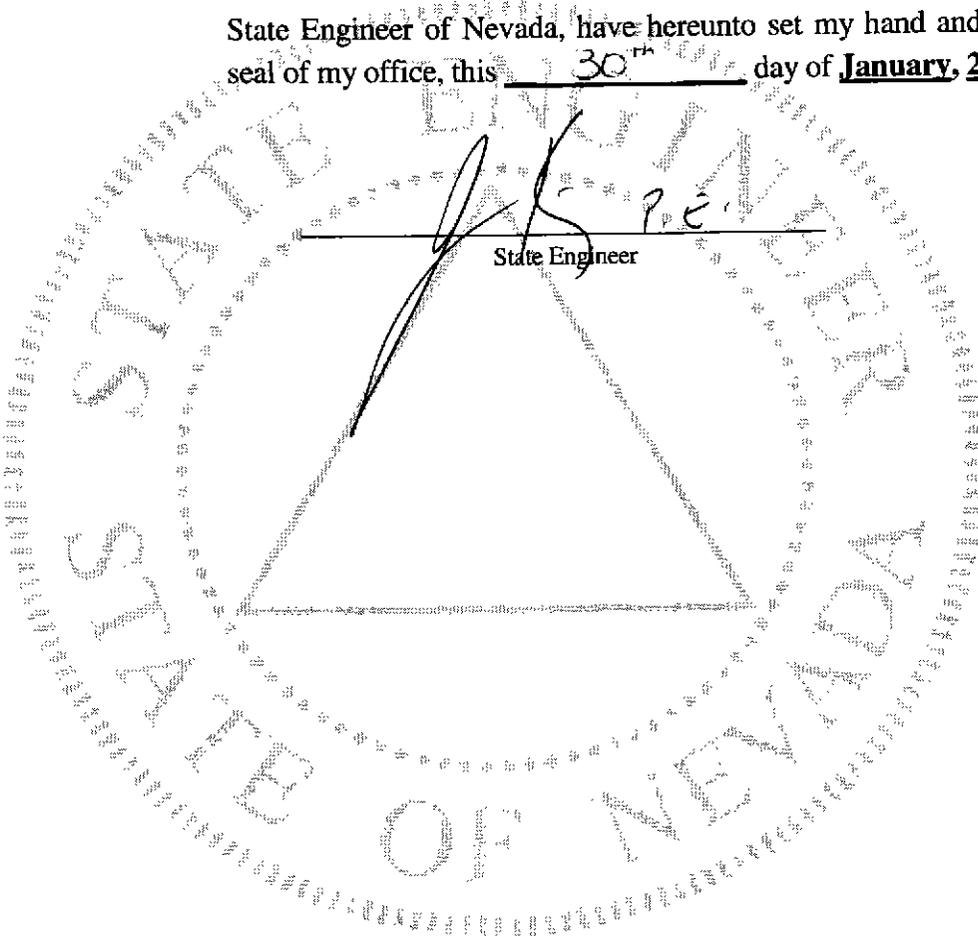

January 30 2020

Map in support of proof of beneficial use shall be filed on or before:

N/A

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30<sup>th</sup> day of January, 2017

 2016 JUL 25 PM 2:50  
 STATE ENGINEER'S OFFICE

1. The source of water is underground  
Name of the stream, lake, underground, spring or other sources.
2. The amount of water applied for is 0.05 cfs., not to exceed 4,000 gallons per day  
One second foot equals 448.83 gallons per minute.
  - (a) If stored in a reservoir give the number of acre-feet \_\_\_\_\_
3. The water is to be used for Stockwater  
Irrigation, power, mining, commercial, domestic or other use. Must be limited to one major use.
4. If use is for:
  - (a) Irrigation, state number of acres to be irrigated n/a
  - (b) Stockwater, state number and kind of animals 500 cattle
  - (c) Other use (describe fully in No. 12) n/a
  - (d) Power:
    - (1) Horsepower developed n/a
    - (2) Point of return of water to stream \_\_\_\_\_

8-101  
ch

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the SWNE of Section 30 T18N, R29E, MDB&M, at a point from which the NE Corner of Section 30 T18N, R29E, MDB&M bears N 44 degrees 15' 51" E 3460.32 feet

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

The NWSW of Section 29 T18N, R29E, MDB&M

The SWNE, SENE, NWSE, NESE, SWSE & the SESE of Section 30 T18N, R29E, MDB&M

The NENE & the NWNE of Section 31 T18N, R29E, MDB&M

RECORDED  
2016 DEC 23 PM 2:50  
COUNTY CLERK'S OFFICE

7. Use will begin about JANUARY 1 and end about DECEMBER 31 of each year.

Month and Day

Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

drilled well with pump and motor

9. Estimated cost of works: \$ 5,000.00

10. Estimated time required to construct works: 2 weeks

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 3 YEARS

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The proposed well will supply cattle troughs for approximately 500 cattle grazing on this field
