11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Well (named R2) was completed under waiver W-2116, for which a well log was filed in May 2016. A copy of the log is included in the application package. The well is currently being equipped and tied to the pipeline system.

12. Estimated cost of works \$20,000

13. Estimated time required to construct works 6 months

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary) (Failure to provide a detailed description may cause a delay in processing.)

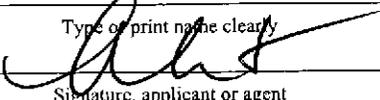

The proposed POD was drilled to replace a collapsed well that was located closer to Devils Hole. Water rights permitted under 84300 were transferred from the Rockview facility to another property, plans for that property have changed and Rockview is transferring a portion of the rights back to the Dairy property.

16. Miscellaneous remarks:

This application is part of a project and to be considered with five additional applications that together meet the no-net-impacts on Devils Hole requirement under Order 1197. Please see map filed under 85904T for proposed POD and POU.
