

TEMPORARY
THE STATE OF NEVADA

**PERMIT TO CHANGE THE PUBLIC WATERS OF THE
STATE OF NEVADA HERETOFORE APPROPRIATED**

Name of Permittee: PARK RANCH HOLDINGS, LLC
Source: UNDERGROUND
Basin: CARSON VALLEY
Manner of Use: IRRIGATION AND DOMESTIC
Period of Use: EXPIRES OCTOBER 31, 2016
Priority Date: 07/13/1928

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit, to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 69538, is issued subject to the terms and conditions imposed in said Permit 69538 and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

The total combined duty of water under Permits 69537, 69538, 86380T and 86381T shall not exceed 840.96 acre-feet seasonally.

Permits 69537, 69538, 86380T and 86381T are limited to the irrigation of 787 acres within the described place of use of which 662.5 acres are supplemental to the Carson River Decree.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on October 31, 2016, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

Any permanent change application shall be evaluated for potential conflicts with senior surface water rights.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

(Continued on Page 2)

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.12 cubic feet per second or 45.05 acre-feet per season, and is limited to 4.0 acre-feet per acre from all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

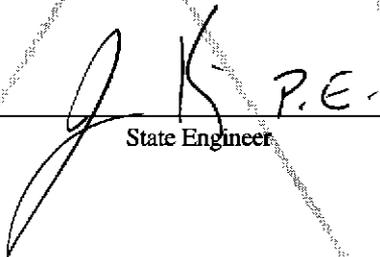

N/A

Map in support of proof of beneficial use shall be filed on or before:

12. Estimated cost of works > \$150,000

13. Estimated time required to construct works Two (2) years

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use Five (5) years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The purpose of this temporary application is to allow the Permittee to utilize the existing, recently constructed wells for the remainder of the 2016 irrigation season in accordance with the terms of the base permits for these supplemental irrigation rights. With the unexpected conditions of high temperatures combined with consistent winds over the past several weeks, the available water supply in the East Fork Carson River dropped faster than could have been foreseen. It is now necessary to use these wells through the remainder of the season in accordance with the allowed duties of the permit being changed to efficiently and beneficially use these supplemental water rights.

16. Miscellaneous remarks:

The permanent change applications will be filed prior to the conclusion of this irrigation season to allow sufficient time for the public review and protest period to run.
