6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

within the SW1/4 SE1/4 of Section 6, T.2N., R.49E., M.D.M. Refer to map filed in support of this application.

7. Use will begin about January 1 and end about December 31 of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

A float box system with storage tank will be installed near the spring head and stock trough to supply water to one or two watering troughs

9. Estimated cost of works: \$15,000

10. Estimated time required to construct works: Two (2) Years

(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Five (5) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

The applicant seeks to appropriate water to support approximately 35 head of cattle maintained under Authorization Number 2706100 within the Stone Cabin grazing allotment. Applicant intends to develop the spring head to install a float box system with a small storage tank at the proposed point of diversion. The total head of cattle to be watered under this application represents a portion the allocation under the subject grazing authorization.

13. Miscellaneous remarks:

A stockwater affidavit is being prepared by the applicant and is expected to be filed in support of the Application within the next few weeks.
