The overall system ultimately conveys the treated water to Sierra Pacific Power Company's water customers within its certified water service area. Said service area is depicted by record (map and legal description) which is filed with the State Engineer's office.

\*This certificate changes the point of diversion, manner and place of use of a portion of Claim No. 369 of the Truckee River Decree, therefore, the date of priority remains the same as Claim No. 369.

This certificate is issued subject to the terms of the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.
