NOW KNOW YE, That the State Engineer, under the provisions of NRS 533.425, has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator:	Sierra Pacific Power Company
Source:	Truckee River
Manner of Use:	Municipal and Domestic
Amount of appropriation:	3.225 c.f.s., but not to exceed 290.0 acre-feet as decreed
Period of use:	As decreed
Date of priority of appropriation:	*1863

Description of the works of diversion, manner and place of use:

The water is diverted from the Truckee River into Steamboat Canal, Highland Ditch, Idlewild Treatment Plant and North Truckee Ditch, thence the water is treated and pumped into Sierra Pacific Power Company's water distribution system. The overall system ultimately conveys the treated water to Sierra Pacific Power Company's water customers within its certified water service area. Said service area is depicted by record (map and legal description) which is filed with the State Engineer's Office.

*This certificate changes the point of diversion, place and manner of use of a portion of Claim 621, Truckee River Final Decree in United States vs. Orr Water Ditch Co., in Equity Docket No. A-3 (D. Nevada 1944), therefore, the date of priority remains the same as Claim 621.

This certificate is issued subject to the terms of the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 12th day of September, A.D. 1996.
