Name of appropriator:	City of Reno
Source:	Truckee River
Manner of Use:	Municipal and Domestic
Amount of appropriation:	1.7475 c.f.s., but not to exceed 209.55 acre-feet as decreed (625 - 87.46 AF; 625 $\frac{1}{2}$ - 122.09 AF)
Period of use:	As Decreed

Description of the works of diversion, manner and place of use:

Water is diverted from the Truckee River into North Truckee Ditch, treated at the Glendale Treatment Plant and pumped into Truckee Meadows Water Authority's water distribution system.

This system ultimately conveys the treated water to Truckee Meadows Water Authority's water customers within its certified water service area. Said service area is depicted by record (map and legal description), which is filed in the Office of the State Engineer.

*This certificate changes the point of diversion, place of use and manner of use of a portion of Claims 625 and 625 $\frac{1}{2}$, Truckee River Final Decree in United States v. Orr Water Ditch Co., In Equity Docket No. A-3 (D. Nevada 1944). Therefore, the date of priority remains the same as Claims 625 and 625 $\frac{1}{2}$.

This certificate is subject to the Water Treatment and Distribution Agreement dated October 9, 1989, between the City of Reno and Sierra Pacific Power Company, of which Truckee Meadows Water Authority is successor in interest to Sierra Pacific Power Company's responsibility.

This certificate is subject to Ruling No. 3875, dated March 9, 1992 and specifically subject to the continuing jurisdiction and regulation by the Federal Water Master.

This certificate is issued subject to the terms of the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E., State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 11th day of May, A.D., 2005
