Description of the works of diversion, manner and place of use:

*The water under this certificate and Permit 66411, Certificate 16549 is commingled and the total combined duty of water shall not exceed 4.96 acre-feet annually for the drip irrigation of various fruit trees and/or berry plants.

**This certificate changes the point of diversion, manner and place of use of Permit 63519 which changed the point of diversion and place of use of Permit 55973 which changed the point of diversion and place of use of a portion of Permit 30118, Certificate 10588, which changed the place of use of a portion of Permit 28445, Certificate 8519 which changed the point of diversion and place of use of a portion of Permit 25277, therefore, the date of priority remains the same as Permit 25277.
