NOW KNOW YE, That the State Engineer, under the provisions of NRS 533.425, has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator: **Debra Strickland**

**Description of works of diversion, manner and place of use:**

Water is developed by means of a drilled well, 200 feet deep, 6-inch diameter casing, equipped with a 1 H.P. McDonald submersible pump, and is conveyed through a totalizing meter, two (2) pressure tanks and a 10,000 gallon storage tank, thence through a distribution system for drip irrigation of nursery trees and a small orchard on a tree farm, located within 3.03 acres, being a portion of the NW¼ SW¼ of Section 7, T.21S., R.54E., M.D.B.&M., and being further described as Assessor's Parcel Number 45-081-75, Nye County, Nevada.

\*This certificate changes the point of diversion and place of use of Permit 46110, which changed the point of diversion and place of use of a portion of Permit 15874, Certificate 5171; therefore, the date of priority remains the same as Permit 15874, Certificate 5171.

This certificate is issued subject to the terms of the permit with the understanding that a change from drip irrigation of a tree farm to any other type of irrigation will cause this right to revert back to 5.0 acre-feet of water per acre of land irrigated.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, **HUGH RICCI, P.E.**, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this **7th** day of **April**, A.D., **2006**.
