Description of works of diversion, manner and place of use:

The water is diverted from the Truckee River via Orr Ditch, Orr Ditch Pump Station, Steamboat Canal, Highland Ditch, Idlewild Treatment Plant and North Truckee Ditch, thence the water is treated and pumped into Truckee Meadows Water Authority's water distribution system. The overall system ultimately conveys the treated water to Truckee Meadows Water Authority's water customers within its certified water service area as depicted by record (map and legal description), which is filed in the Office of the State Engineer.

*This certificate changes the point of diversion, place of use and manner of use of a portion of Claim 142, Truckee River Final Decree, United States v. Orr Water Ditch Co., In Equity Docket No. A-3 (D. Nevada 1944), therefore, the dates of priority remains the same as Claim 142.

This certificate is subject to the Water Treatment and Distribution Agreement dated November 13, 1989, between the City of Sparks and Sierra Pacific Power Company, in which Truckee Meadows Water Authority is successor in interest to Sierra Pacific Power Company's responsibility.

This certificate is issued subject to the terms of the permit.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, **TRACY TAYLOR, P.E.**, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 13th day of May, A.D., 2008.
