NOW KNOW YE, That the State Engineer, under the provisions of NRS 533.425, has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator: **Washoe County**

Source: **Truckee River**

Manner of use: **Municipal**

Amount of appropriation: **0.0058 c.f.s., but not to exceed 1.70 acre-feet as decreed**

Period of use: **January 1<sup>st</sup> to December 31<sup>st</sup> of each year**

Date of priority of appropriation: **\*April 1, 1872**

**Description of works of diversion, manner and place of use:**

The water is diverted from the Truckee River via Orr Ditch, Orr Ditch Pump Station, Steamboat Canal, Highland Ditch, Idlewild Treatment Plant and North Truckee Ditch, thence the water is treated and pumped into Truckee Meadows Water Authority's water distribution system to Washoe County's distribution system. The overall system ultimately conveys the treated wholesale water to Washoe County's water customers within its certified water service area as depicted by record (map and legal description), which is filed in the Office of the State Engineer.

\*This certificate changes the point of diversion, manner and place of use of a portion of Claims 337/338, Truckee River Final Decree, United States v. Orr Water Ditch Co., In Equity Docket No. A-3 (D. Nevada 1944); therefore, the date of priority remains the same as Claims 337/338.

This certificate is issued subject to the terms of the permit and specifically subject to the continuing jurisdiction and regulation by the Federal Water Master.

The right to water hereby determined is limited to the amount which can be beneficially used, not to exceed the amount above specified, and the use is restricted to the place and for the purpose as set forth herein.

IN TESTIMONY WHEREOF, I, **TRACY TAYLOR, P.E.**, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 7th of APRIL, A.D., 2009.
