

STATE OF NEVADA

CERTIFICATE OF APPROPRIATION OF WATER

WHEREAS, Corey L. Rice, Agent, has presented to the State Engineer of the State of Nevada, Proof of Application of Water to Beneficial Use, from an underground source (sump), through an excavated sump, pump, reservoir, ditches and distribution system for irrigation and domestic purposes. The point of diversion of water from the source is as follows:

SW¹/₄ NE¹/₄ Section 32, T.11N., R.24E., M.D.B.&M., or at a point from which the NW corner of Section 5, T.10N., R.24E., M.D.B.&M., bears S. 48°00' W., a distance of 5,720 feet situated in Lyon County, State of Nevada.

Under the provisions of NRS 533.425, the State Engineer has determined the date, source, purpose, amount of appropriation, and the place where such water is appurtenant, as follows:

Name of appropriator:	Six-N Ranch, Inc
Source:	Underground (sump)
Manner of use:	Irrigation and Domestic
Amount of appropriation:	*3.34 c.f.s., but not to exceed 1,808.04 acre-feet annually
Period of use:	January 1st through December 31st of each year
Date of priority of appropriation:	**July 21, 1960

Description of the works of diversion, manner and place of use:

Water is developed by means excavated sump, approximately 10 feet deep, equipped with 60 H.P. U.S. motor, Jacuzzi pump and totalizing meter. Both surface and underground tail water from the appurtenant land covered by other existing rights on the ranch can then be pumped directly to the place of use through ditches or pipelines or stored in a reservoir for flood, wheel-line or pivot sprinkler irrigation of grain, hay or alfalfa within the following described place of use: (see page 3)

*The water under Permits 58873, Certificate 18578; 58874, Certificate 18579; 58875, Certificate 18580; 58876, Certificate 18581 and Permit 58878, Certificate 18582 is commingled and the total combined duty shall not exceed 2,184.04 acre-feet annually from any and/or all sources for the irrigation of 546.01 acres within the following described place of use.

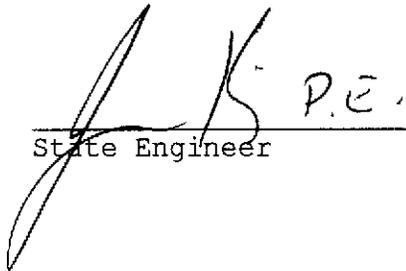

**This certificate changes point of diversion and place of use of Permit 22215, Certificate 5977, which changed the point of diversion of Permit 19058; therefore, the date of priority remains the same as Permit 19058.

This certificate is issued subject to the terms of the permit and only allows for pumping of tail water and is issued as a supplemental water supply to lands that have surface water rights, classified as "Newland" from Walker River Storage Rights as set forth in "The United States of America, Plaintiff, v. Walker River Irrigation District et al, Defendants, in the United States District Court for the District of Nevada, Case in Equity, C-125", and any other surface water rights from the Walker River, decreed or otherwise that may be appurtenant and provided by the Walker River Irrigation District. The permit holder is responsible for insuring delivery of the decreed and/or storage rights that this permit supplements. The place of use under this permit can be irrigated with tail water to the extent that Walker River and storage water is not available, but not to exceed four (4.0) acre-feet per acre annually of land irrigated from any and/or all sources.
