TABLE OF CONTENTS

SECTION No. 1. Findings of Fact, Conclusions of Law and Decree of Judge Geo. A. Bartlett, known as the Bartlett Decree.

SECTION No. 2. Intervening Orders of Judge H. W. Edwards and Judge L. O. Hawkins.

SECTION No. 3. Findings of Fact, Conclusions of Law and Decree of Judge H. W. Edwards, known as the Edwards Decree.

SECTION No. 4. Later Orders and Decisions of Judge J. M. Lockhart.

SECTION No. 5. Alternative Writ of Prohibition Issued by the Supreme Court of Nevada in the case of Carpenter v. District Court.

Opinion and Decision of the Supreme Court in Carpenter v. District Court granting a permanent Writ of Prohibition putting an end to the adjudication.

THE HUMBOLDT RIVER ADJUDICATION

FOREWORD

The respective court decrees and orders and decisions contained in the following compilaton are the culmination of many years' of court proceedings adjudicating the relative water rights of the Humboldt River Stream System and its Tributaries. The purpose of the book is to collect in one volume the decrees, orders, and decisions of the court, finally adjudicating the valuable water rights of some six hundred water users in one of the major irrigated areas of Nevada. It was a monumental task that confronted the court and occupied a period of over fifteen years from the filing of the State Engineer's Final Order of Determination in the District Court of Humboldt County, January of 1923, until the decision of the Supreme Court in the case of Carpenter v. District Court in November of 1938 brought to an end the adjudication proceedings.

Hon. George A. Bartlett, one of the presiding judges of the Second Judicial District, was selected, chosen, and designated the judge to try the matter. Judge Bartlett presided at numerous and prolonged hearings at Winnemucca, Nevada, and after the examination of several thousand pages of testimony and the examination of numerous exhibits made his decision and filed his opinion in the matter on December 31, 1930. Thereafter proposed findings of fact, conclusions of law, and decree were prepared and served on interested parties within the time and in the manner provided in section 9036 Nevada Compiled Laws 1929, as amended by chapter 26 Statutes of Nevada 1931, and section 35 of the Water Law. Judge Bartlett's term of office expired January 5, 1931, but, by reason of the provisions of said chapter 26, he retained limited jurisdiction of the matter for the purpose of hearing and settling objections to the proposed findings and the signing and entering of the final findings of fact, conclusions of law, and decree. Pursuant to the statute the Findings of Fact, Conclusions of Law and Decree were settled, signed, and filed by Judge Bartlett on October 20, 1931, constituting his final decree, known as the "Bartlett Decree."

On March 2, 1931, there having been filed in the case certain motions for new trials requiring further court proceedings before a judge, Hon. L. O. Hawkins the then presiding judge of the Sixth Judicial District Court assigned all of such matters to Hon. H. W. Edwards, then judge of the Seventh Judicial District. Many matters in the adjudication proceedings were thereafter presented to Judge Edwards, including several motions for new trials. Several petitions for changes, modification and amendment of the Bartlett findings and decree were also submitted to Judge Edwards, which he decided and thereupon entered his orders and judgments thereon, which Orders and Judgments are hereinafter set forth under the title of "Intervening Orders." On December 26, 1934, Judge Edwards then about to retire from office, filed in the court a document entitled "Amended, Changed and Corrected Findings of Fact, Conclusions of Law, and Decree." This document was objected to by interested parties as being contrary to the provisions of section 35 of the Water Law and chapter 26 of the 1931 Statutes, in that it did not constitute proposed findings of fact, conclusions of law, and decree to which objections and exceptions could be taken pursuant to such laws. Judge Lockhart, thereafter duly assigned to the case, sustained such objections, but ruled the document so filed constituted Judge Edwards' opinion

and decision on the matters therein decided and, as such decision, was properly filed. Thereafter, about August 25, 1935, the document last above mentioned, with all matters of opinion deleted therefrom, was offered, served, and submitted to Judge Edwards under the title "Proposed Findings of Fact, Conclusions of Law, and Decree," in accordance with law. No objections or exceptions were filed within the time provided in the law to such proposed findings, conclusions, and decree, and on October 7, 1935, Judge Edwards signed such Proposed Findings of Fact, Conclusions of Law, and Decree, which were on October 8, 1935, filed in the cause, constituting the final decree of Judge Edwards and known as the "Edwards Decree."

Judge Edwards' term of office having expired and he having lost jurisdiction of the cause, except for the purpose of settling findings of fact and conclusions of law and entering his decree, and further motions for new trials based upon objections to matters decided by Judge Edwards being filed, Hon. L. O. Hawkins assigned all such matters to Hon. W. E. Orr, judge of the Eighth Judicial District, on May 21, 1935. Judge Orr, shortly before July 23, 1935, reassigned such matters to Hon. J. M. Lockhart, judge of the Seventh Judicial District. The several motions for new trials and other matters were thereafter submitted to Judge Lockhart, which were decided by him in Orders and Decisions incorporated in this compilation and designated "Later Orders of Judge Lockhart," to which attention is hereby directed.

Judge Lockhart having granted various motions for new trials, as appears in his "Later Orders" above mentioned, W. W. Carpenter, John Fant, and Andrew Jahn, interested parties in the proceedings, on or about March 19, 1937, filed a petition in the Supreme Court of Nevada praying for a writ of prohibition against the Sixth Judicial District Court of Nevada, in and for the County of Humboldt, and J. M. Lockhart, as Presiding Judge thereof, upon the ground that such court and Judge Lockhart had exceeded their jurisdiction in granting the new trials. The purpose of the action being to prohibit such new trials.

The Supreme Court issued its Alternative Writ of Prohibition on March 19, 1937. Thereafter the matter was heard by the Supreme Court and on December 7, 1937, the court decided and ordered that Judge Lockhart or any other district judge who might thereafter preside in the cause be enjoined and restrained from proceeding with the new trials granted by Judge Lockhart. A rehearing in the matter was granted by the Supreme Court on April 25, 1938. On November 26, 1938, the court rendered its decision on the rehearing and affirmed its decision of December 7, 1937. This decision of the Supreme Court brought to an end the Humboldt River adjudication proceedings. The Alternative Writ of Prohibition and the Opinion and Decision of the Supreme Court are hereinafter set forth.

The plan of this compilation is as appears in the Table of Contents. The Bartlett Decree is printed exactly as he signed it except as to certain notations. It contains the changes made by him in the printed draft of the proposed findings, conclusions of law, and decree. No changes, modifications, or amendments thereof made later by any other judge appear therein. It is purely the final judgment of Judge Bartlett. However, notations were added by the Attorney-General's office wherever necessary, directing attention to the Intervening Orders, the Edwards Decree, and Later Orders of Judge Lockhart changing, modifying, or amending the Bartlett Decree. The same method of notation was used in compiling the Edwards Decree. The person interested in any water right on the Humboldt River should examine the Bartlett Decree first, then follow such right,

if any changes are indicated or surmised, through the Intervening Orders, Edwards Decree, and the Later Orders.

No attempt has been made by the Attorney-General's office, and no such attempt could lawfully be made, to change in any way said decrees, orders, and decisions in this compilation or to place any construction or interpretation thereon. All of them are just as the respective judges left them.

Great care has been exercised in preparing the material for this compilation and every endeavor has been made to present an accurate and reliable compilation of the final judgments, decrees, and orders adjudicating the relative rights to the use of the waters of the Humboldt River Stream System and its Tributaries.

Dated at Carson City, Nevada, December 7, 1942.

GRAY MASHBURN,
Attorney-General.
W. T. MATHEWS,
Deputy Attorney-General.

THE BARTLETT DECREE

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE

The State Engineer of the State of Nevada, pursuant to the statutes thereof, on January 17, 1923, made and filed in the above-entitled Court his Final Order of Determination of the Relative Rights of Claimants and Appropriators to the use of the water of the Humboldt River Stream System and its Tributaries, certain exceptions to said Final Order of Determination having been filed within the time allowed by law and the extension of time given by the Court; the matter came on for hearing on January 5, 1925, before Hon. George A. Bartlett, Acting District Judge, selected, chosen and designated as such pursuant to section 34 of the Water Code, being section 7921 Nevada Compiled Laws, and on numerous other days and times upon the entire record herein and especially and particularly upon the Final Order of Determination, the exceptions of claimants and appropriators filed and taken to said Final Order of Determination, together with the sworn statements and claims of claimants.

M. A. Diskin, Attorney-General of the State of Nevada, appearing on behalf of the State of Nevada, the State Engineer and all claimants and appropriators who had filed no exceptions to the Final Order of Determination. The following exceptors, being all the claimants who filed exceptions to the Final Order of Determination, appeared in person and through their attorneys, respectively, as follows:

Estate of John J. Hill, by James T. Boyd, attorney for said estate; W. C. Pitt, by Booth B. Goodman, his attorney; W. G. Bergmann and F. H. Bergmann, by Booth B. Goodman, their attorney; Union Canal Ditch Company, Southwest Ditch Company, Ed. A. Perez, John Dotta, E. K. Hanson, Irish-American or Last Chance Ditch Company, W. C. Ruddell, Mrs. E. A. Borland, Chris Hansen, I. M. Springer, Sr., Young Ditch Company, by Price and Hawkins; Young Ditch Company, Andrew Jacobson, H. M. Damm, John Holstrom, H. B. Kruse, J. H. Bible, Vick Sebbas, Matt Smith and John G. Taylor, by Price and Hawkins, their attorneys; Old Channel Ditch Company, a corporation, by W. C. Pitt, President, Geo. C. Stoker, Secretary, W. C. Pitt, Wm. Loorz, Geo. C. Stoker, George Kennedy, L. R. Bassman, H. Stoker, F. Tessier, by Booth B. Goodman, their attorney; W. C. Pitt, by Booth B. Goodman; Helena L. Waldron and Ada Rennie, by Booth B. Goodman; Willow Vista Land & Cattle Company, by Rufus Hatch Kimball, Warren & Dignan, its attorneys; L. Hirzel, by Campbell & Robins, his attorneys; Reinhart Land & Livestock Company by Warren & Dignan, its attorneys; J. A. Callahan; Louise

Pedroli, Administratrix, by L. O. Hawkins, her attorney; W. F. Pearce, by Campbell & Robins, his attorneys; Pacific Livestock Company, by Campbell & Robins, and T. P. Wittschen; John G. Taylor and J. Sheehan by J. A. Langwith, their attorney; A. E. Kent & Company, by Campbell & Robins, its attorneys; Ellison Ranching Company, a corporation, by J. D. Skeen, its attorney; Humboldt Land & Cattle Company by Albert C. Aiken, its attorney; W. M. Pettit, by Campbell & Robins, his attorneys; Land Development Company, by W. M. Kearney, its attorney; W. T. Jenkins Company, by Morley Griswold, its attorney; the Estate of James Faris and Wm. H. Devlin and Ethel Faris Adams, Administrators thereof, by Samuel C. Wiel, their attorney; George B. Williams, by E. L. Williams, his attorney; A. Filippini, by E. J. L. Taber, his attorney; John G. Taylor, by Price & Hawkins, his attorneys; Jennie C. D. Meyer, and Mary D. Flood, James C. Dunphy, Viola P. Burnett and Jennie C. D. Meyer, as trustee under the will of William Dunphy, deceased, by Perry Evans, their attorney; Viola P. Burnett, by J. A. Langwith, her attorney; George Heard, by J. A. Langwith, his attorney; Union Land & Cattle Company, and W. T. Smith, Receiver thereof, by Brown & Belford, their attorneys; W. S. Yates, by Morley Griswold, his attorney; W. R. Ballinger, by Morley Griswold, his attorney; Webster Patterson, by Morley Griswold, his attorney; Fred Cleverly and Frank Cleverly, by R. L. Judd, their attorney; Williams Estate Company and Cooke, French & Stoddard, Roy Stoddard, and Cooke & Stoddard, its attorneys; Samuel McIntyre Investment Company, Hunter-Banks Company, X. Podwell Meyer, H. A. Agee, The F. W. Noble & Smith Sheep Company, A. G. McBride, James Dysart, successor to Ralph McCoy on Snell Canyon Creek, John H. Cazier & Sons Company, First National Bank of Elko, successor in interest to L. L. Redden, Wells State Bank, Albert Lomori, Ed. Smiley and Milton B. Badt & James Dysart, their attorneys; Sarah Thacker, and Hoyt, Norcross, Cheney & Hoyt, her attorneys; Henry Anderson, Estate of Henry Anderson, and Cooke & Stoddard, their attorneys; Lovelock Water Users Association and Booth B. Goodman, its attorney; A. C. Chance, William Licking, and Campbell & Robins, L. G. Campbell and C. E. Robins, his attorneys; Paul A. Pinson, Camille Pinson, and Wm. S. Bonnifield and C. E. Robins, their attorneys; Estate of John Harrison, and Booth B. Goodman, its attorney; Humboldt Lovelock Irrigation, Light & Power Company, and George B. Thatcher, R. Z. Hawkins, Thatcher & Woodburn and Hawkins, Mayotte & Hawkins, their attorneys; W. C. Ruddell, Sr., and Cooke & Stoddard and Hawkins, Mayotte & Hawkins, his attorneys; T. C. Johnson, Chris Hansen, Baker & Hart, C. & L. Arobio, Alice Taylor, Ada Kafader, and Hawkins, Mayottee & Hawkins, their attorneys; Intermountain Investment Company, and Harry J. Murrish and John A. Jurgenson, its attorneys; Lovelock Irrigation District, and Harry Murish, its attorney; Tobin Bros., and Thos. A. Brandon, their attorney; Humboldt-Lovelock Irrigation, Light & Power, and Prince A. Hawkins, its attorney; Lovelock Lands, Incorporated, and Roy W. Stoddard, Powell & Brown, his attorneys; Hankins-Bellinger Company, R. C. Bellinger and E. P. Carville, their attorney; John Fant, Hunter & Lytton, and E. P. Carville and Morley Griswold & Milton J. Reinhart, their attorneys; Flora Dean Hobart, Ethel D. Hussey, and Morley Griswold and Milton J. Reinhart, their attorneys; George L. Kaeding, and Platt & Sanford, his attorneys; Lovelock Land & Development Company, and Cheney, Price, Hawkins & Lunsford, and Hawkins, Mayotte & Hawkins, its attorneys; R. F. Raine, R. F. Raine as administrator of the Estate of J. P. Raine, deceased, and B. F. Curler, their attorney; Winnemucca Water Users Association, and Thos. A. Brandon, its

attorney; and all other water users under the Humboldt stream system who had not filed exceptions were represented by M. A. Diskin, Attorney-General.

The Attorney-General thereupon offered and there were received in evidence, in support of the rights of claimants as set forth in the Final Order of Determination, the sworn statements of claims, verified affidavits, and other competent proof together with the files and records of the State Engineer's Office respecting each claimants' rights, including cultural maps establishing the cultural area, diversion ditches, and kinds and character of lands irrigated by each claimant.

The contests tendered, by reason of the exceptions filed, were then presented to the Court by claimants who filed and gave notice of exceptions to the Final Order of Determination and claimants who filed and gave notice of specific exceptions to the Final Order of Determination.

Evidence, oral and documentary, was offered and received showing a full compliance by the State Engineer of each and every act required by law for him to perform in the preparation and filing in Court of the Final Order of Determination.

From the testimony adduced and from the admissions made by the State Engineer it appeared to the Court's satisfaction that certain lands in Elko County had been improperly classified, and the Court ordered a rereference to the State Engineer for the purpose of properly classifying said lands. After making said Order a supplemental report on the classification of said lands was filed in Court by the State Engineer.

Evidence, oral and documentary, was offered and received in support of said Order of Determination and in support of the exceptions to said Order, both general and special. After the testimony was completed, briefs were filed and thereafter at a time set by the Court oral arguments were presented and the entire matter was submitted to the Court for decision.

The Court, having duly considered the entire record, the evidence offered and received, the briefs and arguments of counsel, and being fully advised, made and entered and filed on January 2, 1931, in the above-entitled Court, an opinion and decision, and directed that judgment be entered accordingly.

Wherefore, pursuant to and in accordance with said decision and judgment, the Court finds the facts, makes conclusions of law, and enters its Final Judgment and Decree concerning the entire matters submitted to the Court, as follows, to wit:

Findings of Fact

1

That the State Engineer of the State of Nevada pursuant to section 18, chapter 140 of Statutes of Nevada, 1913, and Acts amendatory and supplemental thereto, did select in order of its importance for irrigation the Humboldt River stream system and its tributaries for determination of the relative rights of the various claimants to the waters thereof, that the State Engineer duly gave, published, and served the required notices upon all claimants and appropriators of said Humboldt stream system and its tributaries. The State Engineer duly filed and made his orders as required by the provisions of each and all of sections 18 to 27, chapter 140, Statutes of Nevada, 1913, and Acts amendatory and supplemental thereto. That the State Engineer made the required investigation of said stream system, prepared maps, made observations and collected other data as required by said sections of said Act; that the State Engineer received and there was filed with him the proofs and statements of claimants to the use of water from

said stream system by claimants and appropriators. That all said proofs and evidence taken or given before the State Engineer and obtained by the State Engineer was thereafter duly considered and the State Engineer assembled all the proofs which had been filed with him; that the State Engineer thereafter prepared and certified an abstract of said proofs, that the same was printed in the State Printing Office, and from said proofs and evidence taken and given before him or obtained by him, said State Engineer prepared and filed a Preliminary Order of Determination establishing the several rights of claimants to the waters of the said Humboldt stream system and its tributaries; that the State Engineer after the Abstract of Proofs and Preliminary Order of Determination were completed gave due and proper notice to all claimants; in the manner required by law, fixing and setting a time and place when and where evidence taken by or filed with him and the proofs of claimants would be open to the inspection of all claimants; that said State Engineer pursuant to said notice duly opened to inspection of all claimants at the place designated in said notice, the evidence taken by or filed with him and the proofs of claims of claimants of said stream system; that a copy of said notice fixing and setting the time and place for the inspection of evidence aforesaid together with the printed copy of the Preliminary Order of Determination and a printed copy of the Abstract of Proofs of all claimants was duly delivered by the State Engineer or sent by registered mail, at least thirty days prior to the first day of such period of inspection, to each and all claimants of the Humboldt River stream system and to all claimants who appeared and filed proofs and claims to the right to the use of waters of the Humboldt stream system; that the State Engineer or his Deputy was present at the time and place designated in said notice, and that during all of said period, as provided by law, allowed all persons interested and all claimants to inspect such evidence and proof as filed or taken by him in accordance with the provisions of chapter 140, Statutes of 1913, and Acts amendatory and supplemental thereto.

That certain claimants duly filed objections to certain findings, parts or portions of the Preliminary Order of Determination; that said objections were duly and regularly considered, after hearing, upon due and proper notice served upon each and every claimant upon said stream system as required by the Water Code. That thereafter said State Engineer prepared, made and filed and caused to be entered in the record in his office a Final Order of Determination defining the several rights of the appropriators and claimants to the waters of the Humboldt River stream system and its tributaries. The State Engineer thereafter prepared a letter and notice dated October 23, 1922, and did send the same by registered mail to each of the District Judges of the Judicial Districts through which the Humboldt River stream system and its tributaries flowed; that in said letter and notice the said District Judges were notified of the intention of the State Engineer to file the Final Order of Determination, together with the evidence and transcript of the testimony filed with or taken before him, with the County Clerk as ex officio Clerk of the District Court of one of the counties embraced within the proper judicial district for such further proceedings as were required by law. That said District Judges failed to confer and agree; that on the 17th day of January, 1923, the State Engineer filed in the office of the County Clerk of Humboldt County a certified copy of said Order of Determination together with the original evidence and transcripts of testimony filed with or taken before him, duly certified; that the State Engineer did, on the 15th of January, 1923, send by registered mail in the usual manner to each of the County Clerks of the counties within the boundaries of the Humboldt River

stream system and its tributaries a certified copy of said Final Order of Determination.

That upon the filing of the certified copy of said Order of Determination evidence and transcript with the clerk of the Sixth Judicial District Court of the State of Nevada, in and for the county of Humboldt, the State Engineer procured an Order from said Court setting April 2, 1923, as the time for hearing; that the Clerk of said Court did immediately thereafter furnish the said State Engineer with a certified copy of said Order; that the State Engineer did thereafter mail a copy of such certified Order of Court and a copy of said Order of Determination, duly certified, to each and every claimant and appropriator of the waters of the Humboldt stream system and its tributaries, and to all persons who had become interested, through intervention or through filing objections under the provisions of section 26 or 29 of the Water Code, to his last known place of residence; that the State Engineer caused said Order of the Court setting the time of the hearing to be published once a week for four consecutive weeks in each newspaper of general circulation published in each county seat in each county through which the Humboldt River stream system flows and within the boundaries of said Humboldt River stream system.

2

I find from the evidence, both oral and documentary, introduced at the hearing that each of the following-described persons are claimants, appropriators and users of the water of the Humboldt stream system and its tributaries, and that each of said persons filed proof of their claims with the State Engineer and that each of said parties appeared in this hearing in person or by attorneys, or by submitting to the Court evidence in support of their claims: Antonio J. and Anna Alves, Johannes Anderson, Estate of Peter Anker, L. R. Bassman, Grace S. Jahn, Pitt & McDonald, Ed. Berg, Alfred Jorgenson, William Loorz, W. C. and Ida M. Thorne, Mrs. E. A. Borland, F. A. Preston, Pitt & McDonald, L. N. Carpenter, C. C. Hackward, James Bett, Bett & Papa, E. E. Elliott, Chas. Hairgrove, Merkely & Young, E. Dotta, Elbert Lomori, Thurber Estate, Nevada Bunker Hill Mining Co., George Clayton.

3

I find that the parties named herein as claimants and/or their successors in interest constitute and are, and each is, the only claimants who were and are appropriators and users of the waters of the Humboldt stream system and its tributaries on the date the Final Order of Determination was filed with the Clerk of this Court, excepting from this finding the name of those parties who have made application with the State Engineer for permits.

4

I find from the testimony submitted that Thomas Derby, Lovelock, Nevada; J. H. McCracken, M. G. McCarthy, Nenzel D. Pascel, Winnemucca, Nevada; W. J. Bell, Winnemucca, Nevada; Phil Wyland, Blaine, Nevada, have claimed or asserted a right to the use of the water of the Humboldt stream system and its tributaries. I find that said claims and each of them are without right and that said parties and each of them are not claimants or appropriators to the waters of the Humboldt stream system or its tributaries.

5

I find from the evidence, both oral and documentary, submitted that all and each of the persons named as claimants or appropriators in the said Final Order of Determination as claimants to the waters of the Humboldt stream system and its tributaries by and through several diversion ditches and canals are, and each is, an appropriator or a claimant to the waters of said Humboldt River stream system, and that such appropriators or claimants, each for himself, or by and through his respective claimants and predecessors in interest, made due and legal appropriations of the quantity of water, for the beneficial use, at the times and in the manner alleged in said Order of Determination; and that such appropriators or claimants, or his respective successors in interest, now is the owner or possessor of the lands described in said Order of Determination and in these Findings of Fact, Conclusions of Law and Final Decree, and each continuously, from the date of said appropriation or priority, when such water was available for such beneficial use, diverted all of such quantity of water from said Humboldt River and applied the same to beneficial use, as alleged in said Order of Determination.

6

I find that the climate where the lands of said respective claimants in said Order of Determination are situated is dry and arid; that it is necessary to irrigate said lands in order to produce or raise crops thereon, and with irrigation said lands produce valuable harvest crops, meadow pasture and diversified pasture and that there is no source of supply of water for the irrigation of claimants' said lands and for stock and domestic purposes other than the waters of said Humboldt stream system and its tributaries.

7

That names of claimants or appropriators set forth in the Final Order of Determination, the source of water supply, the means by which the water is secured from the source and applied to the beneficial use, the year of priority, the number of acres of harvest crops, meadow pasture and diversified pasture, the legal subdivision of the lands, the length of season, and the duty of water for each of such claimants as set forth in said Final Order of Determination are true and correct, except as changed and modified as hereafter set forth in these findings.

8

OLD CHANNEL DITCH, YOUNG DITCH

That the construction of, or the first steps taken in reference to the construction of, the "Young Dam and Ditch," referred to and mentioned in the record in the above-entitled court and matter, was commenced or taken May, 1888, and that such work of construction was prosecuted with due and reasonable diligence until the completion of said Young dam and ditch; and that the date of priority of all appropriators and claimants to the waters of the Humboldt River stream system and its tributaries acquired by means of or through said Young dam and ditch, which are in said Order of Determination and in these Findings, Conclusions and Final Decree designated as the year 1888, are found to be, fixed and designated as of May, 1888; and

That the construction of, or the first steps taken in reference to the construction of, the "Old Channel Dam and Ditch," referred to and mentioned in the record in the above-entitled court and matter, was commenced or taken November, 1888, and that such work of construction was prosecuted with due and reasonable diligence until the completion of said Old Channel dam and ditch; and that the date of priority of all appropriators and claimants to the waters of the Humboldt River stream system and its tributaries acquired by means of or through said Old Channel dam and ditch, which are in the said Order of Determination and in these Findings, Conclusions and Final Decree designated as the year 1888, are found to be fixed and designated as of November, 1888; and

That none of the exceptions made by the Old Channel Ditch Company et al., or the statements contained in the said "Notice of Exceptions of Old Channel Ditch Company, a corporation, W. C. Pitt," et al., to the Order of Determination, herein referred to and specified, are true, with the exception of the said exception numbered XIX, appearing at page 19 of said exceptions, which said exception No. XIX is true; and

That none of the exceptions made by the Young Ditch Company et al., or the statements contained in said "Notice of Exceptions of Young Ditch Company, a corporation, Andrew Jacobson," et al., to Order of Determination, herein referred to and specified, are true, with the exception, as hereinabove found, that the year of priority of 1888 as fixed or alleged in said Order of Determination of all

appropriators or claimants of the waters of the Humboldt River stream system, for use by or through the Old Channel dam and ditch, is changed, modified, found and fixed as of November, 1888.

9

I find from the oral and documentary evidence submitted that the exception filed to the Final Order of Determination by claimant Bergman & Bergman has been sustained by the testimony, in so far as said exception pertains to the year of priority, and that the findings in reference to the claim of Bergman & Bergman are as follows, to wit:

Claimant—**BERGMAN AND BERGMAN.** 6082
Source—**Humboldt River.**
Ditch—**Southwest Ditch; Lovelock and Borland Slough.**

10

I find from the oral and documentary evidence submitted that Helena L. Waldron and Ada Rennie, and each of them, have not appropriated or used or applied to beneficial use any of the waters of the Humboldt stream system or its tributaries, and the Final Order of Determination making such findings is sustained and the exceptions and objections of Helena L. Waldron and Ada Rennie and each of them to the Final Order of Determination is denied and overruled.

11

OLD CHANNEL DITCH COMPANY, UNION CANAL DITCH COMPANY, SOUTHWEST DITCH COMPANY

I find that on September 10, 1910, a contract was entered into between Old Channel Ditch Company, Union Canal Ditch Company et al., and the Southwest Ditch Company et al., for the distribution of water from the said Humboldt River stream system as between themselves, to wit:

The said Old Channel Ditch Company and those diverting water from said Humboldt River stream system by and through said Old Channel dam and ditch, and the said Union Canal Company and those diverting water from the Humboldt River stream system by and through said Union Canal and ditch, and the said Southwest Ditch Company and those diverting water from said Humboldt River stream system by and through said Southwest dam and ditch, that each and every year subsequent to the execution and delivery of said contract, water was diverted from the Humboldt River and prorated, divided and distributed under the terms, conditions and agreements contained in said contract, and that said contract is a valid contract and the distribution of water is to be made pursuant to the terms and conditions thereof.

12

LOVELOCK LAND AND DEVELOPMENT COMPANY

That said Humboldt-Lovelock Irrigation Light & Power Company, a corporation, is now, and at all the times herein mentioned was, a corporation duly organized and existing under and by virtue of the laws of the State of Nevada; and the owner or in possession of those two certain connecting reservoirs situated in Pershing County, Nevada, together with the dam, canal, headgates and diverting works connecting said reservoirs with said Humboldt River stream system, and was engaged in diverting water from said Humboldt River stream system for storage for beneficial uses under the claim of right so to do; and that said corporation duly submitted its said "Bond by Humboldt-Lovelock Irrigation Light & Power Company, a Corporation, Staying in Part Operation of Order of Determination," to the presiding judge of the above-entitled court and matter, for approval, and said bond, etc., was duly approved on November 28, 1927, and thereafter, by an order of the above-entitled court, duly made and entered in the above-entitled matter, of date of Jaunary 6, 1928, the said "Petition and Exception of Humboldt-Lovelock Irrigation Light & Power Company to, and re Staying Operation of, Order of Determination," verified under date November 28, 1927, and theretofore served and filed in the above-entitled court and matter, was accepted and considered as an exception of said Humboldt-Lovelock Irrigation Light & Power Company to that part of said Order of Determination wherein and whereby Lovelock Land & Development Company, a corporation, is awarded, on page 20 of said Order of Determination, a reservoir storage right of 4,800 acre feet, with a designated priority of 1900; and

That the reservoir or claimed reservoir of said Lovelock Land & Development Company, referred to on page 20 of said Order of Determination, has not been used as a storage reservoir for the storage of water therein, in excess of 400 acre feet, since the spring of 1910, and up to September, 1922; that in the spring of 1910, by reason of an extraordinary high flood of the waters of said Humboldt River stream system, the gates, dams and levees of said reservoir were washed out and said reservoir basin practically filled with silt, mud and débris, none of which was removed, and none of the gates, levees or dams repaired for more than ten years after said flood during the spring of 1910, or prior to the year 1922; that, in addition to the flooding and washing out of the dams, headgates and levees of said reservoir of Lovelock Land & Development Company during the spring of the year 1910, also during the year 1917 by reason of extraordinary high flood waters of said Humboldt River stream system, said reservoir basin of said Lovelock Land & Development Company was further filled with silt, sediment, dirt and débris, to such an extent that said reservoir would not hold, and has not held, to exceed 400 acre feet prior to the year 1922; and that the area formerly

embraced within what is herein referred to as the reservoir of said Lovelock Land & Development Company, with the exception of that portion thereof in which may have been stored said 400 acre feet of water, has, each and every year since the flood of the year 1910, hereinabove mentioned, to the year 1922, been used as pasture for cattle and live stock, and that there has been no waters stored therein, and there has been no attempt to store water therein, in excess of 400 acre feet, during the entire period of time prior to September, 1922.

13

LAST CHANCE OR IRISH-AMERICAN DITCH COMPANY

That the specific exceptions by W. C. Pitt et al., made pursuant to said "Notice of Exceptions of W. C. Pitt and others to Order of Determination," herein mentioned, were upon the hearing thereof and in open court withdrawn and abandoned by said exceptors, and that the exception contained in paragraph numbered 2 of said Notice of Exceptions is not true; and

That the water rights of said W. C. Ruddell, set out in said Order of Determination and in these Findings, Conclusions and Decree, were initiated and completed by the grantors and predecessors in interest of said W. C. Ruddell by and under the Farmers and the Ascher-Sigmund dams and ditches; that said dams were washed out and destroyed prior to or on or about the year 1884, and thereafter and until said Last Chance or Irish-American dam and ditch were constructed, said W. C. Ruddell had no means of securing any of such water theretofore appropriated by his said grantors or predecessors in interest from said Humboldt River stream system; that, such conditions existing, John O'Kane W. C. Ruddell, D. D. Grannis, H. N. Leeper, W. O. Smith and John Ryan entered into an agreement, by the terms of which said parties agreed to construct and provide ways and means by which the said water, theretofore appropriated by the grantors and predecessors in interest of said W. C. Ruddell, and some additional water could be secured from said Humboldt River stream system for beneficial uses, and that the said contemplated diverting works and works necessary to conduct the water to the places of use, and all the water theretofore appropriated and used by said W. C. Ruddell and his grantors and predecessors in interest, and all water to be thereafter diverted and applied to beneficial uses by means of such contemplated diverting works and works necessary to conduct the water to the places of use, would and should be, as among themselves and their successors in interest, owned, possessed and used as tenants in common and not as partners; and

That thereafter the said Last Chance or Irish-American dam and ditch and partition gates in said ditch were constructed, pursuant to, and in accordance with, such agreement by the said parties thereto, as tenants in common and not as partners, and ever since such construction the said parties, and their successors in interest, have maintained such dam and ditch and partition gates for the diversion of all such water from said Humboldt River stream system and the partition thereof, as among themselves, as such tenants in common; and

That thereafter the said parties agreed among themselves that the respective interests or shares of said tenants in common in and to said diverting works and works necessary to conduct the water to the places of use, and in and to the water to be diverted from said Humboldt River stream system and conducted to the places of use, should be, and were, partitioned or divided among said tenants in common in the parts or portions as follows, to wit: to W. C. Ruddell ¼, and to the other said tenants in common the remaining ¾; that ever since said division or partition, the said W. C. Ruddell has continued to be entitled to the

use and benefit of the said ¼ interest, and that the petitioners hereinabove named have acquired the other or remaining ¾ interest, as in said petition alleged, to wit: To Ada Kafader, 8/64ths; to Alice Taylor, Borland Ranch, 6⅜/64ths; to C. & L. Arobio, 1⅓/64ths; to Baker & Hart, a copartnership, 2/64ths; to Chris Hansen, 2⅔/64ths; to T. C. Johnson, 1/64th; and to John G. Taylor 26⅓/64ths; and

That ever since the construction of said Last Chance or Irish-American dam and ditch and said partition gates during the year 1887 or 1888, until during the irrigation season of 1930, all the waters to which said parties to said agreement, above mentioned, or either of them, or their, or either of their, successors in interest, were entitled, and in proportion to their respective shares or interests therein, have been so diverted, conveyed and divided among said parties as tenants in common for use for beneficial purposes, in proportions as hereinabove found; that one of said partition gates provided in said agreement to be, and which was, constructed by said tenants in common for the purpose of dividing all water flowing or to flow in said ditch, in proportion to the respective rights of each of said tenants in common, was constructed in and across said Last Chance or Irish-American ditch at a point agreed upon by all of said tenants in common so as to, and it has since its construction, and does now, divide or partition to said W. C. Ruddell ¼ or 16/64ths of all water flowing or to flow in said Last Chance or Irish-American ditch above the place where said partition gate or weir was and is constructed, and the balance, to wit, ¾ or 48/64ths of all such water flows through another portion of said partition gate or weir down said ditch to and for the use and benefit of the other tenants in common, petitioners hereinabove named, if said partition gate or weir is left in condition as constructed and unmolested; that said partition gate or weir, above mentioned, is a concrete structure having an opening for the water rights of the petitioners herein named, the other tenants in common, of twelve feet in width, the top of the base for both openings being on a level.

14

I find that the claim of Reinhart Land & Livestock Company appearing in the Final Order of Determination, on the first four lines of page 36, incorrectly gives the year of priority as of 1870. The evidence submitted does not sustain such a finding, and from the evidence submitted I find that the year of priority should be changed to the year 1872. The remaining tabulation on page 36 of said Final Order to and including six lines on page 37 was entered by mistake; the said tabulation is stricken.

15

I find that the evidence submitted does not sustain the tabulation set forth in the Final Order of Determination in respect to the claim of L. Hirzel. I find that the proof submitted establish a right in claimant to the use of water of the Humboldt River stream system in accordance with the following tabulation:

Claimants Exhibit B-00103—Hirzel

16

That the claim of J. A. Callahan as set forth in the Final Order of Determination has been sustained by the testimony except that the right of claimant to the use of 200 cubic feet of water per second with the priority is denied.

17

The exception taken to the Final Order of Determination by claimant Sarah E. Thacker has been sustained in part by the proof submitted. The classification of the cultured area set forth in the Final Order of Determination is not correct. I find that 531.4 acres of lands classified as meadow pasture should be deducted from this classification and reclassified under harvest crops. The location of this area I find from the official maps on file is correctly described in the tabulation, the only change to be effected will be the reclassification of each separate acreage of diversified pasture as harvest crop; the land to be located in the same subdivisions as now contained in said Final Order. Owing to the conditions of the soil a higher duty of water is required for irrigating this land, and from the testimony submitted I find that four acre feet is necessary.

Not Corrected — Corrected

18

The exceptions filed by the Estate of Charles Pedroli is sustained in so far as said exception challenges the correctness of the year of priority under ditch system number one and ditch system number two, and as to these two ditch systems and the water appropriated thereunder the year of priority is fixed at 1880.

19

The evidence sustains the exceptions filed to the Final Order of Determination on behalf of claimants W. F. and F. H. Pearce as to the year of priority under the North Ditch and under the South Ditch. I find that the North Ditch is entitled to a priority of 1875 and the South Ditch of 1871.

20

I find that the Final Order of Determination does not correctly fix the year of priority or the cultured area of Pacific Livestock Company. I make the following findings respecting said claimant:

Claimant—**PACIFIC LIVESTOCK COMPANY.** 60118
Source—**Humboldt River.**
Ditch—**Miller & Lux Dam and Ditch System.**

Corrected

21

I find that the exceptions filed to the Final Order of Determination respecting claimants Taylor and Sheehan have not been sustained by the testimony, and that the proof submitted sustains the claim of Taylor and Sheehan as set forth in the Final Order of Determination.

22

The evidence submitted shows that claimant Golconda Cattle Company, proof number 00150, has conveyed the lands described in said Final Order of Determination together with the water rights to the Ellison Ranching Company. I find that all lands irrigated from the Aemes Dam are entitled to a priority of 1873, the tabulation appearing on pages 76, 78, and 79 of the Order of Determination. The testimony shows the lands listed under Ditch 13 are not owned by the Golconda Cattle Company, but are owned by A. E. Kent Company, Incorporated. The priority of all lands listed under the Outside Slough as they appear tabulated on pages 77, 83, 84 and 85 is shown by the testimony to be the year 1877; the tabulation of all areas beginning with those marked Squaw Valley Lands, page 85 to and including 91, are entitled to a priority as set forth in the Final Order of Determination. The evidence submitted fails to establish a right to reservoir water with the priority of 1871.

The Court further finds that the said Ellison Ranching Company and its predecessors in interest have, under a permit regularly and legally issued by the State Engineer of the State of Nevada, constructed a reservoir for the purpose of impounding the flood waters of Willow Creek; that all matters pertaining to the impounding of said water, the priority of the rights for reservoiring the same, and the actual application of said water for beneficial purposes are wholly subject to the statutes of the State of Nevada and the rules and regulations of the State Engineer.

23

I find from the evidence submitted that the Final Order of Determination correctly sets forth on pages 91 and 92 the claim of the Clover Valley Land and Stock Company with the exception that the date of priority of the Hammond Dam and the lands irrigated thereby is the year 1874. I further find that all lands listed on pages 93, 94 and 95, including those irrigated by Hot Springs,

are owned by the Russell Land and Cattle Company. The evidence submitted sustains the exception filed to the Final Order of Determination respecting the year of priority for lands irrigated under the Aemes Dam, and I find that the Order of Determination and the tabulation on pages 93, 94 and 95 are erroneous, and that the correct year of priority is 1873. I further find that all lands listed under "Unnamed Ditch" have a priority of 1874. The evidence submitted sustains the year of priority set forth in the Final Order of Determination for the Outside Slough, Gonzales Slough, South Ditch and Overflow Ditch.

24

The evidence submitted in reference to the claim of John G. Taylor, proof number 00159, sustains the tabulation as set forth in the Final Order of Determination with the exception that the date of priority is 1874.

25

The claim of Land Development Company, proof number 00163, I find from the evidence to be as follows:

Claimant—**LAND DEVELOPMENT COMPANY.**
Source—**Humboldt River.**
Ditch—**Layton.**

00163

26

From the evidence submitted I find that the claim of W. T. Jenkins Company, proof number 00166, is correctly tabulated in the Final Order of Determination with the exception that the year of priority is 1873.

27

The exceptions filed to the Final Order of Determination by the Faris Estate have not been sustained by the evidence, and same are overruled. The Final Order of Determination correctly states the year of priority, acreage, location, and duty of water of this claimant. It appears from the evidence submitted that this claimant has conveyed the property described together with

the water right to Filippini Ranching Company. The Court finds that a great amount of water that has been diverted by nature or otherwise, to and upon the lands owned by this claimant has been wasted and that great amount of waste water forms a lake upon the lands owned by claimant. In order to eliminate unnecessary waste the appropriation allowed to this claimant and the amount of water to be diverted is limited to the amount that can be applied economically to a beneficial use.

The claim of Filippini Ranching Company, proof number 00165,* I find to be as follows:

Claimant—**FILIPPINI RANCHING COMPANY (Formerly George B. Williams, A. Filippini, and Estate of A. Filippini).**
Source—**Humboldt River.**
Ditch—**Upper Slavan Dam.** 00165-00168

28

I find from the evidence submitted that the tabulation of claim under 00170, John G. Taylor, is sustained by the proof, except that all lands located in section 13, township 35 N, R. 32 E, is entitled to a priority of 1873. All lands tabulated on pages 119 to 124, inclusive, and irrigated by, under and through the Wilcox Dam are entitled to a priority of 1877. I find that the Final Order of Determination erroneously omitted certain irrigated sections belonging to this claimant; that in addition to the lands set forth in the Final Order of Determination claimant is entitled to the following lands with the year of priority set forth, together with the acreages described as follows, to wit:

Claimant—JOHN G. TAYLOR. 00170
Source—Humboldt River.
Ditch—Overflow.

29

The exception filed to the Final Order of Determination by George Heard, proof number 00174, is sustained with respect to the year of priority. I find the correct year of priority to be 1873. All other exceptions filed by said claimant have not been sustained by the evidence, and the same are denied.

30

I find that the claim of Garat and Company, proof number 00175, is entitled to a priority of 1874.

31

The Final Order of Determination setting forth the claim of Paul A. Pinson is sustained as to the total irrigated area and priority. From the evidence submitted I find that in irrigating claimant's lands the upper and lower dams are used for the diversion of water. The evidence submitted supports this manner of diversion. I also find from the facts submitted that claimant is entitled to

transfer water to irrigate land lying below the dam to areas above the dam. The dam herein described as the "Lower Dam," the testimony shows, is located at a point where the Gold Circle road crosses the Humboldt River. The only artificially irrigated area under this proof lies above the Lower Dam.

32

The exception of A. G. McBride, proof number 00236, to the Final Order of Determination respecting the year of priority has been sustained by the proof, and I find that the area of all lands owned by this claimant and the water diverted thereon is entitled to a priority of the year 1870.

33

The claim of W. T. Jenkins Company, proof number 00323, as set forth in the Final Order of Determination beginning at the bottom of page 187, page 188 and part of page 198, is sustained by the proof. I find in reference to this claimant, from the evidence, that the Order of Determination has omitted certain acreages which are irrigated from water diverted from the Humboldt River stream system and its tributaries. I find that there should be added to said acreage fifty acres of harvest crop with the priority of 1885 irrigated through Lake Creek Ditch, said land is located in section 11, township 37 north, range 32 east, and that said area is entitled to irrigation for the usual length of season set forth herein with the number of acre feet of water as hereinafter designated.

34

The exception filed to the Final Order of Determination by claimant Fred Cleverly and Frank Cleverly, proof number 00517, which exception challenges the correctness of the Final Order of Determination, in its failure to give to claimant any rights to appropriate and use the waters of Humboldt River stream system and its tributaries, has not been sustained by the evidence, and I find from the testimony submitted that said claimants and each of them have failed to establish a right to use or appropriate any of the waters of said stream system and its tributaries.

35

The claim of W. C. Ruddell, proof number 0068, as set forth in the Final Order of Determination on pages 16 and 17 is affirmed, with the exception that the figures 100 and 39.61 have been erroneously classified as meadow pasture and that said areas should properly be classified as harvest crop.

36

Sup. Order

I further find that the lands of the Henderson Banking Company, proof number 00201, Frank Fernald, proof number 00203, M. Aguirre, proof number 00204, Mrs. C. Glaser, proof numbers 205, 406, 460, W. F. Linebarger, proof number 00207, First National Bank of Elko, successor to L. L. Redden, proof number 00208, M. Aguirre, proof number 00209, Union Land and Cattle Company, proofs 00210, 601, Jube J. Wright, proof number 00211, Griswold-Henderson Livestock Company, proof number 00212, Thomas Hunter, proof 00213, Hunter-Banks Company, proof numbers 00213, 00382, Weeks Brothers Inc., proof number 00214, A. W. Gobel, proof 00215, H. H. Coryell, proof number 00216, Bank of Wells, proof 00217, Mrs. Hattie A. Downey, proof number 00218, Batiste Tamara Estate, proof number 00221, Mrs. C. Glaser, proof number 00222, Thomas Griffin Estate, proof number 00223, McIntosh Estate, proof number 00225, T. D. Griffin, proof 00226, George Arthur, proof number 00227, Paul

Guidici, proof number 00229, Charles Dressi, proof number 00230, Albert Lamori, proof number 00231, Mary Larson, proof number 00232, H. S. Van Drielen, proof number 00233, Estate of James Russell, proof number 00234, A. G. McBride, proof number 00236, Mrs. Isabelle Dewar, proof number 00238, J. N. Phillips, proof number 00239, Aurelio Papa, proof number 00240, Mildred Elmore, Walter S. Elmore, Mildred C. Clubine, Grace Kendricks, proof number 00241, Charles Clubine, proof number 00242, Charles Clubine, proof number 00244, J. J. Henderson, proof number 00246, Q. D. Boyd, proof number 00247, John Cazier & Sons Company, proof 00602, Hylton & Mentz, proof number 00605, Robert W. Anderson, proof number 00607, John H. Cazier, & Sons Company, proof number 00609, First National Bank of Elko, proof 00610, and the cultured area thereof have been improperly classified in the Final Order of Determination. I find that the reclassification of all said areas as set forth in the reclassification made by the State Engineer, and admitted in evidence in this case May 27, 1925, is correct, and that the Final Decree herein shall award to each of said claimants a classification of their lands respectively as set forth in said tabulation.

37

I find that all claimants and exceptors who filed exceptions to the Final Order of Determination and claimed a prescriptive right to the waters of the stream system have not established such prescriptive right or a right to the use of said water by adverse possession, and I therefore find against each and all of said claimants claiming such right.

38

I find that the tributaries of the Humboldt River and the general time of flow, place of confluence with the Humboldt River proper, and main characteristics for each tributary are as follows:

Beginning at the town of Golconda and proceeding upstream, naming the tributaries that flow into the Humboldt River from the south.

Pole Creek, entering the Humboldt River at or near Golconda, a small tributary having a flow usually from the 20th day of April to the 15th day of May.

Pine Valley Creek, with its small tributaries, flowing into the Humboldt River at or near Palisade below the Government gauging station, having a flow, generally, of considerable water from the 1st day of April until the 1st day of June.

The next tributary is the South Fork of the Humboldt River, having its confluence approximately 24 miles above Palisade. The South Fork River has as its tributaries Dixie Creek, an early-flow stream having small areas of cultivation thereon, flowing large bodies of water from the middle of March until the 1st day of May in the usual season. Dixie Creek flows into the South Fork approximately ten miles above the South Fork's confluence with the Humboldt River and below the major portion of the irrigated area on the South Fork River. Next, Huntington Creek, beginning in White Pine County, flowing approximately 30 miles by air line before its confluence with the South Fork River at a point approximately 20 miles above the South Fork's confluence with the Humboldt. Huntington Creek flows considerable water in the early spring from approximately the 1st day of March until the 15th day of April, and has only a small area of irrigated land thereon and only a small irrigated area of land on the South Fork below its confluence therewith. Huntington and Dixie Creeks cause the major flow of the South Fork River prior to the melting of the late snows.

Smith Creek, Carville Creek, McCutcheon Creek and Bradley Creek comprise what is known as Smith Creek, having a confluence with Huntington Creek below the main irrigable area on Smith Creek. These streams are flash-flow

Flash stream in Elko Co - Mar. 15 - Apr. 15
as long as they are in Priority

streams flowing considerable amounts of water for a period of approximately 50 days from the 1st day of May to the 20th day of June, and are used from approximately the 1st day of May until the 20th day of June for irrigation, at which time they cease to flow.

Cottonwood Creek and Willow Creek form small tributaries flowing into Smith Creek from the east and having very small flows of water at approximately the same dates as Smith Creek and its tributaries.

Rattlesnake Creek and the three main branches of South Fork are on the north slope and have a late flow. These tributaries furnish the water for the irrigation of the South Fork Valley. Their flow starts approximately on the 1st day of May and continues until about the 10th day of July in the ordinary year.

To the east of the main branches of South Fork are small streams known as Ainley Creek, Brennen Creek, Young Creek, Butterfield Creek and one branch of Rabbit or Seitz Creek. These are all small tributaries, having a flow from approximately the 1st day of May till the 10th day of June, commingling and forming a stream called Ten Mile Creek, which flows into the South Fork River approximately 15 miles above its confluence with the Humboldt River. The lands irrigated from the last-named small tributaries use water from approximately the 1st day of May until the 10th day of June in the ordinary year.

The next tributary to the east is Seitz or Rabbit Creek, flowing into the Humboldt River approximately 51 miles above Palisade. Rabbit Creek is a small stream having its flow from the 1st day of May to the 10th day of June in the ordinary year, and seldom reaching the Humboldt River.

The next stream to the East is Lamoille Creek. Lamoille Creek, Talbot Creek, Thorpe Creek, Cold Creek or Dorsey Creek, and Hot Creek, Soldier Creek and Secret Creek commingle prior to the time of reaching the Humboldt River. Their confluence with the Humboldt River is at or near Halleck, Nevada, approximately 56 miles above Palisade. (All distances mentioned herein are by road and not by stream flow.) Lamoille Creek proper has a comparatively late stream flow, flowing waters usually from the 1st day of May until the 5th day of July. Talbot Creek, Thorpe Creek and Cold or Dorsey Creek are similar to Lamoille Creek proper as to times of flow. Lamoille Creek and the other tributaries have large areas of land under irrigation, and it is one of the three main tributaries from the south to the Humboldt River, flowing in the ordinary year considerable waters which are used in Lamoille Valley and for the irrigation of lands in Elko County on the main Humboldt River proper. Soldier Creek and Secret Creek are comparatively flash streams, flowing for a short period of time—Secret Creek from approximately the 15th day of April until the 10th day of June, Soldier Creek from approximately the 20th day of April until the 15th day of June, when the flow ceases.

The next stream coming into the Humboldt River from the east is Stevens Creek, whose waters commingle with the water of Starr Creek. It is a small tributary and seldom flows sufficient waters to reach the Humboldt River, having a flow usually from the 1st day of May until the 10th day of June. Starr Creek is composed of several small tributaries—Boulder Creek, Ackler Creek, Deering Creek, and Herder Creek. These tributaries vary as to size, and their waters commingle and form what is known as Starr Creek, which flows into the Humboldt River at or near Deeth, approximately 71 miles above Palisade by road. Boulder Creek flows a substantial amount of water, the other tributaries being smaller. Their period of flow is from approximately the 1st day of May until the 1st day of July, considerable areas of irrigated land being adjacent thereto.

To the east are numerous small tributaries, the main being Little Hall

Canyon, Smiley Canyon, Blasingame Creek, Willow Creek and Trout Creek. These streams are comparatively early-flow streams, and only flow small amounts of water from approximately the 1st day of May until the 10th day of June.

The above are the main tributaries of the Humboldt River from the south and they generally have a later flow than the tributaries from the north, having their source from the northern and eastern slope of the mountains, the Ruby Mountains forming the mountain range for the tributaries herein described in Elko County.

Commencing with the tributaries of the Humboldt River to the west and having their source to the north of the Humboldt River, the first tributary of importance is Rock Creek. Rock Creek has its confluence with the Humboldt River at or near Battle Mountain and below the gauging station at Palisade. It is an early-flow stream, usually discharging water into the Humboldt River from the 1st day of March and flowing considerable amounts of water in the ordinary season until approximately the 15th day of May. In the ordinary season Rock Creek furnishes approximately one-third of the entire early flow of the Humboldt River. Rock Creek has as its main tributaries Willow Creek and Squaw Creek. Boulder Creek also flows into Rock Creek at or near the Humboldt River in the ordinary year. There are comparatively small areas in irrigation on Rock Creek near its head waters, and until near its confluence the waters of the stream are not used to any great extent. One of the upper reservoirs is located on Rock Creek.

The next stream to the east and coming from the north is Maggie Creek, flowing into the Humboldt River at or near Carlin, 14 miles above the Palisade gauging station. Maggie Creek is an early-flow stream, discharging waters into the Humboldt River from the 1st day of April to and including the 15th day of May in the ordinary season. It has considerable flow in the early season.

The next tributary is Susie Creek, flowing considerable waters into the Humboldt River in the early season, with only a few acres irrigated thereon. Its confluence is approximately five miles above Carlin.

The next tributary to the Humboldt River from the north of any magnitude is the North Fork of the Humboldt River. The North Fork has its source in the North Fork or Independence Mountains and has its confluence with the Humboldt River at or near Halleck, approximately 50 miles above Palisade. North Fork has as its tributaries Pie Creek, McClellan Creek from the west, and Beaver Creek from the east. These three systems are early-flow streams, flowing considerable amounts of water in the ordinary season and without any considerable irrigation thereon. Their confluence with the North Fork River is below the main irrigated area on the North Fork. These streams form the early flow of the North Fork and from March 1st until the 1st day of May comprise the North Fork River.

Forman Creek, Pratt Creek, Forney Creek and the North Fork proper come from the higher mountains and flow waters into the Humboldt River from approximately the 1st day of May until the 20th day of June in the normal season. North Fork has considerable areas of land in irrigation near its source.

The next stream to the east and having confluence with the Humboldt River is the Mary's River. Mary's River has as its main tributaries Hanks Creek, Tea Creek, Currant Creek and Tom Kane Creek. Mary's River has its confluence with the Humboldt River at or near Deeth, approximately 71 miles from Palisade. The Mary's River is a comparatively early-flow stream and a flash-flow stream. In the early season, in the months of March and April, Mary's River flows a comparatively large amount of water into the Humboldt River. Then

melting snows from the high mountains, at its source, cause Mary's River to have a second flow. It is one of the three main tributaries to the Humboldt River from the north.

The next tributary to the east is Tabor Creek. Tabor Creek is an early-flow stream having very little irrigation at or near its source. In the months of March and April it flows considerable water into the Humboldt River, having its confluence approximately four miles above Deeth. Tabor Creek has several small branches, has its source in comparatively low mountain ranges, and is used to only a small degree for irrigation at or near its source.

The next streams to the north are Burnt Creek and Bishop Creek, with several small tributaries. Bliss Creek has a small reservoir thereon. These streams have an early flow, discharging water into the Humboldt River approximately 86 miles above Palisade. In the early season they discharge a comparatively large flow into the Humboldt River, but in the later season the waters cease to flow except at or near the Mountain range wherein they have their source.

These, in the main, are the tributaries of the Humboldt River from the north. The Humboldt River proper has its source at springs and small streams at or near Wells, Elko County, Nevada, and at or near the source there is considerable water flowing in the usual season, in March and April.

The length of the main tributaries from their source is approximately as follows:

Rock Creek, by wagon road, 50 miles from the Humboldt River.
Maggie Creek, approximately 30 miles.
North Fork approximately 50 miles.
Mary's River approximately 60 miles.
Tabor Creek approximately 20 miles.
Brunt Creek approximately 20 miles.
Starr Creek approximately 10 miles.
Lamoille Creek 20 miles.
South Fork 20 miles.
Huntington Creek 75 miles.
Smith Creek 40 miles.
Pine Creek 45 miles.

All these distances are the distances from their confluence with the Humboldt River by road to the mountain ranges which are their sources.

In addition to the tributaries mentioned, there are numerous small streams having an early flow in the months of January, February and March, these small streams coming from the comparatively small mountain ranges adjacent to the Humboldt River proper.

The upper reaches of the Humboldt River from Palisade to its source are at a comparatively higher elevation, as hereinbefore described, and all of the tributaries flow through comparatively narrow valleys. The Humboldt River Valley proper from Palisade to its source is not to exceed one mile in width, and there are numerous places on the Humboldt River proper where there is no land available for irrigation, and most of the tributaries flow through narrow canyons where there is no land available for irrigation.

In the ordinary season there is an early flow of water from the upper reaches of the Humboldt River, being the so-called January thaw, flowing waters in the latter part of January, the months of February, March and April, and then the later flow in the months of May and June.

39

Before the advent of man and the establishment of ranches along the Humboldt, the evidence clearly discloses that the stream was subject to periodic floods. From these floods native wild grasses grew in abundance. The earliest settlers found grass suitable for cutting and making hay for saddle horses. No necessity then existed for the making of hay in large quantities for winter feeding. As the number of cattle increased, necessity for artificial irrigation arose in order to increase the hay crops. The first irrigation was by means of rock and brush dams constructed in the channel of the river. They caused the water to flow out through old channels, which in turn were dammed, and by that means large areas of the native grass land were artificially irrigated. As conditions changed more substantial diversion works were installed. In some cases canals were constructed and the water taken greater distances from the channel than was ordinarily done from the construction of dams alone. The number of dams have increased from year to year but the methods of diversion and use have not materially changed since the earliest diversions in about 1870. Much of the riparian land is not suitable for intensive cultivation because of its character and more or less irregular flooding, and because conditions of the country are such that stock feed is still a prime necessity, and it is practically the only result of the beneficial use of the water.

40

The Humboldt River stream system initiates in the extreme northeastern part of the State, and runs southwesterly for a distance of approximately one thousand miles, as the stream flows in a tortuous course through, for the most part, almost level territory; cultivated lands lie along the stream, with areas where the narrow canyons or deep channel or unsuitable soil cause breaks in the irrigated areas, particularly between Lovelock and Winnemucca, between Beowawe and Carlin, and between Carlin and Elko. The channel of the stream is deep and broad in the lower reaches and in the Battle Mountain Basin, and as you near the upper reaches of the river, the channel becomes shallow and narrow. In the upper reaches of the stream system the tributaries have considerable fall, and the water flows more rapidly above Palisade than it does below that point. The tributaries for the most part are very shallow and narrow. In one place in the Argenta region above Battle Mountain the river channel is practically lost and the water flows out over enormous areas of land, causing in some places the growth of hay, pasture and in other places tule areas. The evidence and observation show that the entire river must flow into this area for considerable time prior to the time of the water finding its way through this area; the river, from its source, to the last cultivated area is but little more than three hundred miles.

41

The Court finds that the cultivated areas taking water from the Humboldt River by direct diversion are as follows:

Lovelock Valley	27,600 acres
Winnemucca District	22,548 acres
Battle Mountain District	86,771 acres
Elko District	148,319 acres
Total	285,238 acres

That the total cultivated area below Palisade is 136,919 acres.

42

The Court finds that it requires 698,379 acre feet to satisfy priorities to the year 1928 over the entire river, and 306,171 acre feet to satisfy such priorities below Palisade, and 392,208 acre feet to satisfy such priorities for the Elko District. The average flow of the stream at Palisade for 28 years is estimated at 255,650 acre feet.

43

The evidence shows, and the Court finds, that the climatic variations between the lower and upper reaches of the Humboldt River are great, and it is exceedingly difficult to determine when seasonal irrigation flow may, with any degree of certainty, be expected. The waters from Palisade require from three to six weeks to reach Lovelock Valley at the lower end of said stream system, and the flow varies from year to year and during the same year. The tributaries of the Humboldt River, serving priorities, vary as between themselves from year to year, and during the same year, as to time of flow, amount of flow and season of year in which the flow may occur.

The evidence shows, and the Court finds, that as an example Huntington Creek, in Elko County, one of the tributaries of the South Fork River, has a flow commencing in the usual season about the 1st day of April, flowing for a period of approximately 30 days, and then ceases, and after that time there is no flow of water in that tributary, although during the time of flood this stream carries considerable amounts of water. The next tributary to the South Fork River and to the east is Smith Creek, which in the usual season has its flow from approximately the 1st day of May until the 20th day of June, both dates being approximate, at which time the tributary ceases to flow. The next tributary to the South Fork River, being the South Fork River proper, has its flow starting usually about the 1st day of May, and flowing water until approximately the 5th day of July or later. Numerous other tributaries fall into the general class of these tributaries, having early flows for short periods, later flows for different periods, and still later flows for longer periods. The tributaries from the north, having southern exposures, generally flow earlier than the tributaries from the south having northern exposures. The time of irrigation must of necessity vary to meet seasonal conditions, but the evidence shows that the early-flow streams have only small areas in cultivation, at or near the source of the stream, whereas the later-flow streams have larger areas in cultivation practically along their entire lengths.

44

The Court finds that the water of the stream system is fully appropriated, and that in the average year, as shown by the flow in the said stream system, there is no surplus water for irrigation. The Court makes no finding on the water available for storage water in the nonirrigation season on the Humboldt River stream system.

45*

The Court finds that the provisions of the Order of Determination providing for four districts is not sustained by the evidence. The evidence shows, and the Court finds, that there should be but two districts on the Humboldt River stream system, making Elko a district down to Palisade, to be known as District No. 2, and Battle Mountain, Winnemucca and Lovelock areas a single district, to be known as District No. 1, this finding being amplified by the findings in the other paragraphs. Herein the Court finds that the designation of "districts" is the most intelligible way of specifying the system to be used in the distribution

*Ordered stricken by Judge H. W. Edwards, page 9, Sec. 2, Intervening Orders.

of water to serve the various priorities along the Humboldt River and its tributaries; and the evidence shows, and the Court finds, that distribution as herein found is the only reasonable and practical method by which the priorities on the Humboldt River stream system and its tributaries may be recognized and served.

46*

The Court finds that the growing season in Lovelock and the lower reaches of the Humboldt River is more than thirty days earlier than the growing season in Elko County, and that the temperatures in the upper reaches are lower than in Lovelock. The Court further finds that the temperature varies between Battle Mountain and Lovelock, as well as between Lovelock and Elko. The Court finds from the evidence that there is a difference in the irrigation season between Battle Mountain and Lovelock of approximately three weeks and a difference in the irrigation season between Winnemucca and Lovelock of approximately ten days; that the Battle Mountain District irrigates approximately 20 days earlier than the Elko District. The evidence shows the most economical method of irrigation on the Humboldt River is to begin irrigation at Lovelock in the earlier spring and progress up stream to the Elko District. Such a system of irrigation is the most economical and the only system that will serve the proper priorities on the entire stream system, and the Court finds from the evidence that this was the system under which the water rights along the Humboldt River were initiated and used since the first irrigation on said stream system.

According to the best informed witnesses, and practically without conflict of testimony, it was shown, and the Court so finds, that the only practical method of delivering water to the lower reaches of the Humboldt River is to have the unimpeded flow go to the lower reaches in the early spring, bearing in mind the small areas that must be served in the upper reaches of the river on the so-called "flash streams" which will be more fully defined, and to have the late flow, caused by the melting of the high snows and commencing about May 15 of each year, diverted and used in the upper district. "Flash Streams" are streams that have a sudden or flash flow or flush flow for a comparatively brief period of time, while such stream is drainng the particular basin or source of supply fed by melting snows. Periods of flush flow in such so-called flash streams vary, as more particularly indicated in findings of fact, No. 38. These flash streams in varying degrees are typical of the necessity of cumulating the flow during the flush for the particular rights to be served. Where lands are entitled to irrigation from such flash streams, they must be served at the times when the water is available.

That if the early priorities on the upper reaches commence the use of water on the 1st day of April, that use, while beneficial, will so diminish the flow of the stream that like priorities on the lower reaches cannot be served; and the Court finds that in the late irrigation season in the latter part of May and June water turned from the upper reaches of the river will not reach the lower priorities in such amount and at such times as will give the lower users water for their priorities. The evidence shows that the natural, customary and economic method for the service of priorities and the customary method for distribution is the one herein defined.

47†

I find from the evidence submitted that many claimants and appropriators in Elko district and along the upper reaches of the stream system had at a very

*Ordered amended by Judge H. W. Edwards, page 9, Sec. 2, Intervening Orders.
†Ordered stricken by Judge H. W. Edwards, page 10, Sec. 2, Intervening Orders.

early date initiated a right to the use of water from the stream system; I further find that due to climatic conditions and by reason of the high elevation of the irrigated area in Elko district and the upper reaches of the stream that the claimants and appropriators did not apply to a beneficial use the water flowing in said stream system from the early or first run-off; and I further find that those initiating such early rights did not apply to a beneficial use the waters of the stream system until after May 15 of each year, except on flash streams.

I further find from the evidence that while many claimants and appropriators of the waters of the stream system on the lower reaches of the stream initiated rights at a very early date to the use of the water of said stream, the rights thus initiated were not based upon an application of the water to a beneficial use, except in times of high water or flood water, after May 15 of each year, and that such application to a beneficial use was made prior to May 15 of each year.

I further find from the evidence that it has been the usual and continuous practice in the manner of applying water to a beneficial use that after the Lovelock area was irrigated irrigation then began on areas further up the stream until the Elko district was reached, and that the lands in the Elko district through which the early flood waters had passed were then ready for their first irrigation. I find that the stream system lends itself to rotation, and that the most economical method of irrigating from the waters of said stream, so that priorities may be most equitably served, is a system of irrigation which begins at the lower section of the river and rotates until the upper reaches of the stream are served. The evidence shows, and I so find, that the claimants and appropriators of the Humboldt stream system and its tributaries in the upper district did not apply to a beneficial use the waters of the stream system flowing in said stream prior to the 15th of May, except flash streams, but permitted said water to flow, and said water flowed, down the river and the users and appropriators at Lovelock initiated a right to the use of all said water by applying the same to a beneficial use; I further find that the appropriators in the upper district after May 15 of each year initiated a right to use of water of the Humboldt stream system and did apply to a beneficial use the water flowing in said stream after May 15 of each year, and that said upper users continued to use the water of the stream until the priorities of the upper district, equal in point of time to the priorities in the lower district, had been served, and that after the serving of said priorities in the upper district the water was permitted to flow down the stream to serve later prorities consistent with the same rights in the upper district.

48

I find from the evidence submitted that each and every exception and objection filed to the Final Order of Determination, except as otherwise indicated in these Findings, have not been sustained by the testimony, and that all such exceptions or objections are overruled and denied, and that any and all objections or exceptions made and filed by claimants to the Final Order of Determination if not wholly settled or determined by the general findings are hereby settled by special finding, and the said objections and exceptions are denied.

Except where specifically in these findings are otherwise determined, I find from the testimony submitted that the respective priorities, acreages and other matters in connection with the water rights of each claimant as set forth in the Final Order of Determination filed in this Court on 17th of January, 1923, have been sustained by the testimony.

I find that certain decrees of Court have been rendered and filed herein

wherein the rights of several of the claimants and appropriators, among themselves, to the Humboldt stream system and its tributaries have been adjudicated and determined. I further find that agreements have been entered into between respective claimants of the said stream system and its tributaries and affecting the right of the claimants' use of the water of the said stream system and its tributaries.

That the evidence offered by claimants in support of a prescriptive right to the use of the water of the Humboldt stream system and its tributaries has not been sufficient to sustain such claim, and I find against each and all of such claimants.

From the evidence and proof submitted, I find that in the cases hereinafter enumerated, the State Engineer, in the preparation of the final order of determination, failed to apply the doctrine of relation in considering the priority of certain named claimants. I further find that in these cases the claimant by artificial means diverted water from the Humboldt stream system and its tributaries and constructed ditches so that said water was applied to beneficial use on the lands of claimants; that the ditches constructed were of great length, and a considerable number of years elapsed between the date of the initiation of the right and the completion of the irrigation system. I find in each instance that each claimant hereinafter named, after the beginning of construction work on said ditches, labored with diligence in subjecting the lands to irrigation and applying the water to a beneficial use by such ditch systems. I further find from the testimony that in all such cases the claimants hereinafter named are entitled to the application of the doctrine of relation and that the year of priority for the respective claimants hereinafter named should be changed so that the year in which construction was first initiated on the ditch should apply to the lands subsequently irrigated.

I find that the following-named claimants, from the evidence submitted, are entitled to the application of the doctrine of relation, to wit:

[L. N. Carpenter. That on certain subdivisions of section 2, township 26, range 31, the year of priority should be changed from 1878 to 1877; that on certain subdivisions of sections 2, 1 and 11, township 26, range 31, the year of priority should be changed to 1863; that on certain subdivisions in sections 10, 11 and 2, township 26, range 31, the year of priority should be changed to 1871; that in the north half of the northwest quarter of section 35, township 27, range 31, the year of priority should be 1877.

In reference to the claim listed under the name of Nevada Land and Livestock Company in the Order of Determination, I find that the year of priority for certain subdivisions in section 28, township 27, range 31, should be changed from the year 1878 to 1876.

I find from the evidence that the year of priority for claimant Elko Waterworks for certain subdivisions in sections 10 and 11, township 34, range 55, should be changed from the years 1892, 1894 and 1896 to the year 1890.

That claimant Mrs. C. Glaser for lands in sections 14, 13, 12, 7 and 18, township 35, range 57 and 58, should be given a priority of 1872; that for the same claimant, lands situated in certain subdivisions of section 13, township 35, range 57, should be changed from 1894 to 1893.

That lands listed under the name of Union Land and Cattle Company

NOTE—All of the findings enclosed within the brackets beginning with "L. N. Carpenter" above and ending with "1905" on page 46, post, ordered stricken by Judge H. W. Edwards. See order preceding title "Claimant—L. N. Carpenter," Sec. 3, Edwards Decree.

designated in proof No. 00210 in the Final Order of Determination, the year of priority should be changed for all of said lands, making the year 1884.

That claimant described in the order of determination as J. J. Wright, proof No. 211, is entitled to a year of priority of 1872 for lands listed with the priority of 1872 and 1873.

That claimant Thomas Hunter, proof No. 213, is entitled to a year of priority of 1870 for lands listed with the priority from 1870 to 1890; lands from 1900 to 1905 should be 1900.

That claimant Bastiste Tamara Estate, proof No. 00221, is entitled to a year of priority of 1886 for lands listed with the priority from 1886 to 1890.

Claimant Hunter-Banks Company, proof No. 213, is entitled to a priority of 1870 on lands listed from 1870 to 1875; for lands listed from 1881 to 1887, a priority of 1881; from 1890 to 1893 a priority of 1890.

That claimant Paul Giudici, proof No. 229, is entitled to a priority of 1873.

That Charles Dressi, proof No. 230, is entitled to a priority of 1873 for lands listed from 1873 to 1880.

That Mary Larson, proof 232, is entitled to a priority of 1874 for lands listed from 1874 to 1877.

That claimant A. G. McBride, proof No. 00236, the evidence shows, is entitled to the year 1870 for all lands set forth in said Order of Determination.

That claimant Isabel Dewar, proof No. 238, is entitled to a year of priority of 1879 for all lands set forth under said proof number.

That claimant J. N. Phillips is entitled to a priority as of the year 1878 for lands listed under the years 1878, 1879, 1880, and 1881.

That claimant Charles Clubine, proof No. 242, is entitled to a year of priority of 1887 for all lands listed with a priority from 1887 to 1891.

That claimant J. J. Henderson, proof No. 246, should have a priority of 1879 for lands listed 1879 and 1880.

That claimant Max Arnold, proof No. 00351, is entitled to a year of priority of 1869 for lands listed 1869 to 1871. He is entitled to a priority of 1879 for lands listed with a priority of 1879 and 1880; is entitled to a priority of 1898 for lands listed from 1898 to 1902.

That J. J. Hilton, proof No. 352, is entitled to a priority of 1895 for lands listed 1895 and 1896.

That T. F. Brennen, proof No. 353, is entitled to a priority of 1869 for lands listed from 1869 to 1875; a priority of 1872 for lands listed from 1872 to 1873; a priority of 1876 for lands listed under 1876 to 1879; a priority of 1880 for lands listed 1880 and 1881; a priority of 1870 for lands listed from 1870 to 1877.

That claimant Mary Campbell, proof No. 00354, is entitled to a priority of 1878 for lands listed from 1878 to 1882, inclusive.

That J. J. Hilton, proof No. 00355, is entitled to a priority of 1893 for lands listed from 1893 to 1895; a priority of 1871 for lands listed from 1871 to 1876; a priority of 1897 for lands listed from 1897 to 1901.

That Clark Drown, proof No. 00357, is entitled to a year of priority of 1870 for lands listed from 1870 to 1875.

That Albert Hankins, proof No. 00358, is entitled to a year of priority of 1872 for lands listed from 1872 to 1876 in section 4; is entitled to a priority of 1871 for lands listed from 1871 to 1875 in sections 2, 1 and 11; is entitled to a priority of 1867 for lands listed from 1867 to 1872, inclusive, all in sections 3, 2, and 11; is entitled to a priority of 1873 for lands listed with a priority of 1873 to 1877; is entitled to a priority of 1881 for lands listed with a priority of 1881 and 1885; is entitled to a priority of 1889 for lands listed from 1889 to 1893.

That claimants Merkley & Young, proof 00361, are entitled to a priority of the year 1868 for lands listed from 1868 to 1873, inclusive; to a priority of 1874 for lands listed from 1874 to 1887, inclusive; to a priority of 1888 for lands listed from 1888 to 1894, inclusive. That said claimants are entitled to a priority of 1884 for all lands listed with the source of Huntington Creek.

Claimant Chas. Mitchell, proof No. 00362, is entitled to a priority of 1869 for lands listed from 1869 to 1876, inclusive, from Brown's Creek, and a priority of 1899 for lands listed from 1899 to 1900, inclusive, from Brown's Creek.

That claimant, F. Odiaga, proof No. 00363, is entitled to a priority of 1883 for lands listed from 1883 to 1884, inclusive. That said claimant is entitled to a priority of 1869 for lands listed from 1869 to 1876, inclusive, source Huntington Creek and springs.

That claimant P. J. Ogilvie, proof No. 00364, is entitled to a priority of 1901 for lands listed from 1901 to 1905, inclusive, source South Fork of Humboldt River and Rattlesnake Creek.

That claimant D. J. Riordan, proof No. 00365, is entitled to a priority of 1870 for lands listed from 1870 to 1873, inclusive; a priority of 1879 for lands listed from 1879 to 1884, inclusive; a priority of 1887 for lands listed from 1887 to 1903, inclusive.

That claimant Manuel Urrutia, proof No. 00366, is entitled to a priority of 1898 for lands listed 1898 and 1899.

That claimant, Estate of Joseph Hennen, proof No. 00368, is entitled to a priority of 1873 for lands listed from 1873 to 1878, inclusive, source Young Creek. That said claimant is entitled to a priority of 1868 for lands listed from 1868 to 1873, inclusive, source Young Creek.

That claimant Griswold-Henderson Livestock Company, proof No. 00369, is entitled to a priority of 1868 for lands listed from 1868 to 1875, inclusive, source Butterfield Creek and Thompson Creek.

That claimant Antone Zunino, proof No. 00371, is entitled to a priority of 1874 for lands listed from 1874 to 1878, inclusive.

That claimant A. M. Griswold, proof No. 00372, is entitled to a priority of 1867 for lands listed from 1867 to 1872, inclusive, and located in sections 10 and 11; to a priority of 1871 for lands listed from 1871 to 1874, inclusive, and located in sections 4 and 3; to a priority of 1870 for lands listed from 1870 to 1875, inclusive, and located in sections 3 and 4.

That claimant W. R. Bellinger, proof No. 00374, is entitled to priority of 1868 for lands listed from 1868 to 1874, inclusive, source South Fork of Humboldt River, W. R. Bellinger ditches; to a priority of 1870 for lands listed from 1870 to 1875, inclusive, Crane-Griswold ditch.

That claimants Minnie Hankins et al., proof No. 00375, are entitled to a priority of 1870 for lands listed from 1870 to 1874, inclusive; to a priority of 1903 for lands listed from 1903 to 1905, inclusive.

That claimant J. J. Hylton, proof No. 00381, is entitled to a priority of 1887 for lands listed from 1887 to 1890, inclusive.

That claimant Ed Carville, proof No. 00383, is entitled to a priority of 1870 for lands listed from 1870 to 1874, inclusive.

That claimants Drown Brothers, proof No. 00385, are entitled to a priority of 1868 for lands listed from 1868 to 1870, inclusive; to a priority of 1901 for lands listed from 1901 to 1905, inclusive. That said claimants, for lands listed with source South Fork of Humboldt River, South Branch of South Fork of Humboldt, Rock Spring Creek, Pearl Creek and creek east of Pearl Creek, with a priority of 1873 to 1876, inclusive, are entitled to a priority of 1873. For lands

listed with a priority of 1879 to 1882, inclusive, to a priority of 1879; for lands listed with a priority of 1884 to 1889, inclusive, to a priority of 1884; for lands listed with a priority of 1892 to 1904, inclusive, to a priority of 1892; for lands listed source Pearl Creek, with a priority of 1877 to 1878, inclusive, to a priority of 1877.

That claimant X. B. Martin, proof No. 00386, for lands listed with a priority of 1873 to 1874, inclusive, is entitled to a priority of 1873; for lands listed with a priority of 1875 to 1881, inclusive, to a priority of 1875.

That claimant Albert Hankins, proof No. 00387, for lands listed with a priority of 1875 and 1876 is entitled to a priority of 1875; for lands listed with a priority of 1880 to 1888, inclusive, to a priority of 1880; for lands listed with a priority of 1876 to 1880, inclusive, to a priority of 1876; for lands listed with a priority of 1884 to 1888, inclusive, to a priority of 1884.

That claimant Estate of Mamie Winstead, proof No. 00388, for lands listed with a priority of 1869 to 1872, inclusive, is entitled to a priority of 1869; for lands listed with a priority of 1876 to 1883, inclusive, to a priority of 1876.

That claimant Leslie Carter, proof No. 00388, for lands listed with a priority from 1868 to 1873, inclusive, is entitled to a priority of 1868; for lands listed with a priority of 1874 to 1878, inclusive, is entitled to a priority of 1874; for lands listed with a priority from 1880 to 1883, inclusive, to a priority of 1880; for lands listed with a priority from 1868 to 1873, inclusive, is entitled to a priority of 1868; for lands listed with a priority of 1874 to 1877, inclusive, to a priority of 1874; for lands listed with a priority from 1890 to 1896, inclusive, to a priority of 1890.

That claimant A. J. Dewar, proof No. 00388, for lands listed with a priority from 1874 to 1876, inclusive, is entitled to a priority of 1874; for lands listed with a priority from 1895 to 1898, inclusive, is entitled to a priority of 1895; for lands listed with a priority from 1900 to 1902, inclusive, is entitled to a priority of 1900.

That claimants Merkley & Young, proof No. 00397, for lands listed with a priority of 1903 to 1905, inclusive, are entitled to a priority of 1903.

That claimant W. R. Bellinger, proof No. 00401, for lands listed from 1870 to 1878, inclusive, is entitled to a priority of 1870.

That claimant Hankins-Bellinger Company, proof No. 00405, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1900 to 1904, inclusive, to a priority of 1900.

That claimant Henderson Banking Company, proof No. 00407, for lands listed from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed from 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1879 to 1883, inclusive, to a priority of 1879; for lands listed with a priority from 1884 to 1890, inclusive, to a priority of 1884; for lands listed with a priority of 1894 to 1895, inclusive, to a priority of 1894.

That claimant Lamoille Mercantile Company, proof No. 00408, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, is entitled to a priority of 1874.

That claimant Samuel McIntyre Investment Company, proof No. 00409, for lands listed with a priority from 1883 to 1889, inclusive, is entitled to a priority of 1883; for lands listed with a priority from 1887 to 1889, inclusive, to a priority of 1887; for lands listed with a priority from 1892 to 1897, inclusive, to a priority of 1892.

That claimant O. P. McDermott, proof No. 00410, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority of 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1896 to 1898, inclusive, to a priority of 1896.

Claimant J. E. Meyers, proof No. 00411, for lands listed source Rabbit Creek and Little Rabbit Creek, with a priority from 1873 to 1875, inclusive, to a priority of 1873.

That claimant C. E. Noble, proof No. 00412, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed from 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1896 to 1898, inclusive, to a priority of 1896.

That claimant John W. McNew, proof No. 00412, for lands listed from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed from 1874 to 1878, inclusive, is entitled to a priority of 1874.

That claimant John McKinney, proof No. 00414, for lands listed with a priority from 1868 to 1871, is entitled to a priority of 1868.

That claimant Ramon Lugea, proof No. 00415, for lands listed from 1873 to 1876, inclusive, is entitled to a priority of 1873.

That claimant F. W. Wiggins, proof No. 00416, for lands listed with a priority from 1868 to 1872, inclusive, is entitled to a priority of 1868; for lands listed with a priority from 1873 to 1878, inclusive, to a priority of 1873; for lands listed with a priority from 1880 to 1885, to a priority of 1880; for lands listed with a priority from 1892 to 1895, inclusive, to a priority of 1892; for lands listed with a priority from 1898 to 1904, inclusive, to a priority of 1898.

That claimant Harry Trott, proof No. 00421, for lands listed with a priority from 1873 to 1879, inclusive, is entitled to a priority of 1873.

That claimant Henry Voight, proof No. 00421, for lands listed with a priority from 1873 to 1878, inclusive, is entitled to a priority of 1873; for lands listed with a priority from 1880 to 1890, inclusive, to a priority of 1880.

That claimant Conrad Smith, proof No. 00422, for lands listed with a priority from 1885 to 1887, inclusive, is entitled to a priority of 1885; for lands listed with a priority from 1901 to 1904, inclusive, to a priority of 1901.

That claimants Hunter & Lytton, proof No. 00423, for lands listed with a priority from 1875 to 1877, inclusive, are entitled to a priority of 1875; for lands listed with a priority from 1884 to 1892, inclusive, are entitled to a priority of 1884; for lands listed source Lamoille Creek, with a priority from 1871 to 1878, inclusive, to a priority of 1871; for lands listed with a priority from 1880 to 1889, inclusive, to a priority of 1880.

That claimant Alex Garden, proof No. 00424, for lands listed with a priority from 1872 to 1873, inclusive, is entitled to a priority of 1872.

That claimant George Bower, proof No. 00426, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, is entitled to a priority of 1874; for lands listed with a priority from 1896 to 1899, inclusive, to a priority of 1896.

That claimant Webster Patterson, proof No. 00430, for lands listed with a priority from 1874 to 1877, inclusive, is entitled to a priority of 1874; for lands listed with a priority from 1880 to 1882, inclusive, to a priority of 1880; for lands listed with a priority from 1886 to 1897, inclusive, to a priority of 1886; for lands listed with a priority from 1870 to 1873, inclusive, to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1879 to 1884, inclusive, to a priority of 1879; for lands listed with a priority from 1885 to 1890, inclusive, to

a priority of 1885; for lands listed with a priority from 1894 to 1895, inclusive, to a priority of 1894.

That claimant R. B. Stewart, proof No. 00431, for lands listed with a priority from 1870 to 1877, is entitled to a priority of 1870.

That claimant C. E. Noble, proof No. 00437, for lands listed with a priority from 1875 to 1880, is entitled to a priority of 1875.

That claimant G. Larrondo & Company, proof No. 00441, for lands listed with a priority from 1896 to 1897, is entitled to a priority of 1896.

That claimant R. B. Stewart, proofs Nos. 00442 and 00443, for lands listed with priority from 1869 to 1875, inclusive, is entitled to a priority of 1869.

That claimant Andrew Westlund, proof No. 00444, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, is entitled to a priority of 1874.

That claimant Griswold-Henderson Livestock Company, proof No. 00445, for lands listed with a priority from 1873 to 1877, inclusive, is entitled to a priority of 1869; for lands listed with a priority from 1879 to 1887, inclusive, is entitled to a priority of 1879; for lands listed with a priority of 1869 to 1878, inclusive, is entitled to a priority of 1869.

That claimant R. B. Stewart, proof No. 00446, for lands listed with a priority from 1869 to 1875, inclusive, is entitled to a priority of 1869; for lands listed with a priority from 1876 to 1880, inclusive, to a priority of 1876.

That claimant C. W. Clubine, proof No. 00447, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870, source Beaver and Thorp Creeks.

That claimant C. H. Reinken, proof No. 00448, for lands listed with a priority from 1875 to 1879, inclusive, is entitled to a priority of 1875; for lands listed with a priority from 1870 to 1876, inclusive, to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, to a priority of 1874; for lands listed with a priority from 1872 to 1880, inclusive, to a priority of 1872; for lands listed with a priority from 1872 to 1876, inclusive, to a priority of 1872; for lands listed source Lamoille Creek, ditch No. 4, with a priority from 1900 to 1903, inclusive, to a priority of 1900; from ditch No. 3, with priority listed from 1885 to 1895, inclusive, to a priority of 1885; ditches Nos. 7 and 11, lands listed with priority from 1874 to 1875, inclusive, to a priority of 1874; ditch No. 12, for lands listed with a priority from 1885 to 1890, inclusive, to a priority of 1885; ditch No. 8, lands listed with a priority from 1878 to 1880, inclusive, to a priority of 1878; ditch No. 2, for lands listed with a priority from 1875 to 1876, inclusive, to a priority of 1875; for lands listed with a priority from 1879 to 1880, inclusive, to a priority of 1879.

That claimant Jas. Byers, proof No. 00451, for lands listed with a priority from 1876 to 1881, is entitled to a priority of 1876; for lands listed with a priority from 1887 to 1890, inclusive, to a priority of 1887; for lands listed with a priority from 1895 to 1899, inclusive, to a priority of 1895.

That claimant Samuel Cook, proof No. 00452, for lands listed with a priority from 1901 to 1905, is entitled to a priority of 1901.

That claimant E. Hankins, proof No. 00454, for lands listed with a priority from 1869 to 1873, inclusive, is entitled to a priority of 1869; for lands listed with a priority from 1893 to 1895, inclusive, to a priority of 1893.

That claimant Q. D. Boyd, proof No. 00458, for lands listed with a priority from 1883 to 1885, is entitled to a priority of 1883.

That claimant Albert Trescartes, proof No. 00459, for lands listed with a priority from 1900 to 1903, inclusive, is entitled to a priority of 1900.

That claimant Chas. Trescartes, proof No. 00459, for lands listed with a priority from 1870 to 1873, inclusive, is entitled to a priority of 1870; for lands listed with a priority from 1874 to 1878, inclusive, to a priority of 1874.

That claimant Albert Trescartes, proof No. 00459, for lands listed with a priority from 1898 to 1900, inclusive, is entitled to a priority of 1898.

That claimant Chas. Trescartes, proof No. 00459, for lands listed with a priority from 1904 to 1905, inclusive, is entitled to a priority of 1904.

That claimant Gabriel Rossi, proof No. 00461, for lands listed with a priority from 1887 to 1889, inclusive, is entitled to a priority of 1887.

That claimant August Alles, proof No. 00476, for lands listed with a priority from 1888 to 1891, inclusive, is entitled to a priority of 1888; for lands with a priority from 1896 to 1900, inclusive, to a priority of 1896.

That claimant J. W. Weathers, source Left Boulder Creek, for lands listed with a priority from 1894 to 1895, inclusive, is entitled to a priority of 1894; lands listed 1897 to 1898, a priority of 1897.

That claimants Mrs. M. E. Goodale and J. H. Goodale, proof No. 00481, for lands listed with a priority from 1873 to 1874, inclusive, are entitled to a priority of 1873.

That claimant J. W. Johnston, proof No. 00482, for lands listed with a priority from 1871 to 1875, inclusive, is entitled to a priority of 1871.

That claimant H. M. Lane, proof No. 00483, for lands listed with a priority from 1876 to 1878, inclusive, is entitled to a priority of 1876.

That claimant Earl Green, proof No. 00485, for lands listed with a priority from 1894 to 1895, inclusive, is entitled to a priority of 1894; for lands with a priority from 1897 to 1899, inclusive, to a priority of 1897.

That claimant L. L. Redden, proof No. 00487, for lands listed with a priority from 1894 to 1895, inclusive, is entitled to a priority of 1894; for lands listed with a priority from 1900 to 1902, inclusive, to a priority of 1900.

That claimant J. M. Riddell, proof No. 00488, for lands listed with a priority from 1893 to 1894, inclusive, is entitled to a priority of 1893.

That claimant Pete Scott, proof No. 00489, for lands listed with a priority from 1893 to 1895, inclusive, is entitled to a priority of 1893.

That claimant William Smiley, proof No. 00490, for lands listed with a priority from 1880 to 1885, is entitled to a priority of 1880; for lands listed with a priority from 1891 to 1897, inclusive, to a priority of 1891.

That claimant W. J. Smiley, proof No. 00491, for lands listed with a priority from 1885 to 1890, inclusive, is entitled to a priority of 1885; for lands located on Herder Creek, with a priority listed from 1872 to 1873, inclusive, is entitled to a priority of 1872; for lands on Deering Creek, with priority listed from 1868 to 1879, inclusive, to a priority of 1868.

That claimant W. G. Mills, proof No. 00492, for lands listed with priority from 1873 to 1876, inclusive, is entitled to a priority of 1873; for lands listed with priority from 1888 to 1892, inclusive, to a priority of 1888.

That claimant John Stiers, proof No. 00493, for lands listed with priority from 1890 to 1893, inclusive, is entitled to a priority of 1890.

That claimant W. W. Weathers, proof No. 00496, for lands listed with a priority from 1868 to 1869, inclusive, is entitled to a priority of 1868.

That claimant Estate of Mrs. Jane Wright, proof No. 00497, for lands listed with a priority from 1879 to 1884, inclusive, is entitled to a priority of 1879.

That claimant John Stiers, proof No. 00498, for lands listed with priority from 1890 to 1891, inclusive, is entitled to a priority of 1890.

That claimants Hylton & Mentz, proof No. 00502, source Ackler Creek and Herder Creek, for lands listed with a priority from 1870 to 1875, inclusive, are

entitled to a priority of 1870; source Herder Creek, for lands with priority from 1873 to 1876, inclusive, are entitled to a priority of 1873; for lands listed with priority from 1880 to 1881, inclusive, to a priority of 1880.

That claimant E. C. Riddell, proof No. 00503, for lands listed with priority from 1870 to 1876, inclusive, is entitled to a priority of 1870.

That claimant George Byers, proof No. 00504, for lands source Spring Canyon and springs, listed with a priority from 1889 to 1890, inclusive, is entitled to a priority of 1889; for lands listed source Herder Creek, with priority from 1892 to 1894, inclusive, to a priority of 1892.

That claimant J. L. Bartmess, proof No. 00505, for lands listed with a priority from 1872 to 1878, inclusive, is entitled to a priority of 1872.

That claimant W. J. Black, proof No. 00505, source branch Ackler Creek, for lands listed with priority of 1872 to 1878, inclusive, is entitled to a priority of 1872; for lands source Herder Creek, listed with priority of 1875 to 1876, inclusive, to a priority of 1875; for lands source Ackler Creek, ditches Nos. 1 to 14, inclusive, with priority listed from 1901 to 1903, inclusive, is entitled to priority of 1901.

That claimant Jos. Jeanney, proof No. 00506, for lands listed with priority from 1870 to 1872, inclusive, is entitled to a priority of 1870.

That claimant C. H. Black, proof No. 00507, for lands listed with priority 1872 to 1875, inclusive, is entitled to a priority of 1872; for lands listed with priority from 1879 to 1880, inclusive, to a priority of 1879; for lands listed with a priority from 1894 to 1895, inclusive, to a priority of 1894; for lands, source Ackler Creek, C. H. Black ditches, with priority 1892 to 1896, inclusive, is entitled to a priority of 1892.

That claimant W. W. Weathers, proof No. 00508, for lands listed with a priority of 1878 to 1872, inclusive, is entitled to a priority of 1872; for lands, source Boulder Creek, with priority listed from 1868 to 1870, inclusive, is entitled to a priority of 1868; for lands listed with a priority of 1868 to 1870, inclusive, to a priority of 1868; for lands listed with a priority of 1876, section 30, township 36, range 60, is entitled to a priority of 1875.

That claimant G. E. Weathers, proof No. 00508, for lands listed with a priority of 1875, is entitled to a priority of 1873; for lands listed source Ackler Creek and Starr Creek, with priority from 1875 to 1873, inclusive, is entitled to a priority of 1873; for lands, source Boulder Creek and Starr Creek, with priority from 1873 to 1875, inclusive, is entitled to a priority of 1873.

That claimant Union Land & Cattle Company, proof No. 00510, for lands listed with priority of 1877, located in the west half of section 22, is entitled to a priority of 1874; for lands listed with priority of 1893, 1898, 1895, 1891, 1893, located in sections 20 and 21, is entitled to a priority of 1891; for lands listed with a priority of 1877, located in section 27, is entitled to a priority of 1874; for lands listed from source Soldier Creek, with a priority from 1879 to 1883, inclusive, is entitled to a priority of 1879; for lands listed Soldier Creek, Rose Creek, Murphy Creek et al., with a priority from 1880 to 1890, inclusive, is entitled to a priority of 1880; for lands listed with a priority of 1899 to 1900, inclusive, is entitled to a priority of 1899; for lands listed with a priority from 1897 to 1900, inclusive, is entitled to a priority of 1897; for lands listed with a priority from 1895 to 1898, inclusive, is entitled to a priority of 1895; for lands listed with a priority from 1880 to 1890, inclusive, is entitled to a priority of 1880; for lands listed, source Ross Creek, with a priority from 1894 to 1900, is entitled to a priority of 1894; for lands listed with a priority from 1880 to

1887, inclusive, is entitled to a priority of 1880; for lands listed with a priority from 1874 to 1878, inclusive, is entitled to a priority of 1874; for lands listed with a priority from 1890 to 1897, inclusive, is entitled to a priority of 1890.

That claimant E. C. Murphy, proof No. 00511, for lands listed with a priority from 1869 to 1873, inclusive, is entitled to a priority of 1869; for lands listed with a priority from 1879 to 1887, inclusive, is entitled to a priority of 1879; for lands listed with a priority of 1900 to 1905, inclusive, is entitled to a priority of 1900.

That claimant S. M. Davis, proof No. 00512, for lands listed with a priority from 1888 to 1891, inclusive, is entitled to a priority of 1888.

That claimant William Goodale, proof No. 00513, for lands listed with a priority from 1872 to 1875, inclusive, is entitled to a priority of 1872; for lands listed with a priority from 1892 to 1895, inclusive, is entitled to a priority of 1892.

That claimant George A. Grock, proof No. 00514, for lands listed with a priority from 1902 to 1905, inclusive, is entitled to a priority of 1902.

That claimant Alex Gardner, proof No. 00516, for lands listed with a priority of 1883 to 1888, inclusive, is entitled to a priority of 1883; for lands listed with a priority of 1883 and 1884, source Secret Creek, Alex Gardner Ditch, is entitled to a priority of 1883.

That claimant Isaac Griswold, proof No. 00519, for lands listed with a priority from 1875 to 1880, inclusive, is entitled to a priority of 1875; for lands listed with a priority of 1873 to 1877, inclusive, is entitled to a priority of 1873; for lands listed with a priority from 1880 to 1888, inclusive, is entitled to a priority of 1880.

That claimant John H. Cazier & Sons Company, proof No. 00521, for lands listed with a priority of 1878, 1879, and 1880, is entitled to a priority of 1878.

That claimant Estate of Samuel McMullen, proof No. 00522, for lands listed with a priority from 1868 to 1875, inclusive, is entitled to a priority of 1868; for lands listed with a priority from 1880 to 1885, inclusive, is entitled to a priority of 1870, for lands listed with a priority from 1887 to 1888, inclusive, is entitled to a priority of 1887; for lands listed with a priority from 1883 to 1893, inclusive, is entitled to a priority of 1883; for lands listed with a priority from 1898 to 1902, inclusive, is entitled to a priority of 1898; for lands listed with a priority of 1883 to 1893, inclusive, is entitled to a priority of 1883; for lands listed with a priority from 1898 to 1904, inclusive, is entitled to a priority of 1898.

That claimants Quilici Brothers, proof No. 00524, for lands listed with a priority from 1878 to 1883, inclusive, are entitled to a priority of 1878.

That claimant W. G. Randolph, proof No. 00525, for lands listed with a priority of 1882 and 1883 is entitled to a priority of 1882.

That claimants R. T. Evans and Brother, proof No. 00553, for lands listed with a priority from 1888 to 1902, inclusive, are entitled to a priority of 1888; for lands listed with a priority from 1895 to 1904, inclusive, are entitled to a priority of 1895; for lands listed with a priority from 1889 to 1892, inclusive, are entitled to a priority of 1889; for lands listed with a priority of 1902 and 1903 are entitled to a priority of 1901; for lands listed with a priority of 1893 are entitled to a priority of 1889.

That claimant Mrs. C. Glaser, proof No. 00555, for lands listed with a priority from 1889 to 1902, inclusive, is entitled to a priority of 1889.

That claimants C. A. and L. M. Laing, proof No. 00556, for lands listed with

a priority from 1870 to 1880, inclusive, are entitled to a priority of 1870; for lands listed with a priority from 1884 to 1886, inclusive, are entitled to a priority of 1884; for lands listed with a priority of 1870 to 1880, inclusive, are entitled to a priority of 1870.

That claimant C. F. McKnight, proof No. 00557, for lands listed with a priority from 1896 to 1903, inclusive, is entitled to a priority of 1896.

That claimant Howard Morse, proof No. 00558, for lands listed with a priority from 1888 to 1894, inclusive, is entitled to a priority of 1888; for lands listed with a priority from 1903 to 1904, inclusive, is entitled to a priority of 1903.

That claimant Chas. L. Nuckols, proof No. 00559, for lands listed with a priority from 1899 to 1905, inclusive, is entitled to a priority of 1899.

That claimant Estate of Thos. Kearns, proof No. 00561, for lands listed with a priority from 1888 to 1889, inclusive, is entitled to a priority of 1888; for lands listed with a priority from 1894 to 1895, inclusive, is entitled to a priority of 1894; for lands listed with a priority of 1895, 1896 and 1896 is entitled to a priority of 1894; for lands listed with a priority from 1902 to 1904, inclusive, is entitled to a priority of 1902; for lands listed with a priority of 1890 is entitled to a priority of 1888.

That claimant Geo. W. Pratt, proof No. 00562, for lands listed with a priority of 1887 to 1890, inclusive, is entitled to a priority of 1887.

That claimant Frank Rutherford, proof No. 00563, for lands listed with a priority from 1890 to 1893, inclusive, is entitled to a priority of 1890.

That claimant Rose M. Tremewan, proof No. 00565, for lands listed with a priority from 1897 to 1899, inclusive, is entitled to a priority of 1897.

That claimant Diana Morgan-Hill, proof No. 00566, for lands listed with a priority from 1893 to 1894, inclusive, is entitled to a priority of 1893.

That claimant Saval Livestock Company, proof No. 00571, for lands listed with a priority from 1885 to 1887, inclusive, is entitled to a priority of 1885; for lands listed with a priority from 1894 to 1897, inclusive, is entitled to a priority of 1894.

That claimant Warner Griswold, proof No. 00573, for lands listed with a priority from 1885 to 1889, inclusive, is entitled to a priority of 1885.

That claimants Chas. S. and Alex Wieland, proof No. 00574, for lands listed with a priority from 1886 to 1887, inclusive, are entiled to a priority of 1886.

That claimant Williams Estate Company, proof No. 00575, for lands listed with a priority from 1888 to 1892, inclusive, is entitled to a priority of 1888.

That claimant J. H. Carter, proof No. 00654, for lands listed with a priority from 1904 to 1905, inclusive, is entitled to a priority of 1904.

That claimant J. J. Hylton, proof No. 00655, for lands listed with a priority from 1899 to 1902, inclusive, is entitled to a priority of 1899.

That claimant Javier Goyeneche, proof No. 00658, for lands listed with a priority from 1869 to 1873, inclusive, is entitled to a priority of 1869.

That claimant J. M. Carter, proof No. 00663, for lands listed with a priority from 1873 to 1879, inclusive, is entitled to a priority of 1873; for lands listed with a priority from 1881 to 1889, inclusive, is entitled to a priority of 1881; for lands listed with a priority from 1893 to 1902, inclusive, is entitled to a priority of 1893.

That claimant Chas. Toyn, proof No. 00664, for lands listed with a priority from 1871 to 1874, is entitled to a priority of 1871.

That claimant J. J. Hylton, proof No. 00670, for all lands listed with a priority from 1878 to 1882, inclusive, is entitled to a priority of 1878.

That claimant Fred Walter, proof No. 00671, for lands listed with a priority from 1875 to 1877, inclusive, is entitled to a priority of 1875, said lands being located in sections 14 and 15.

That claimant John C. Hackward, proof No. 00674, for lands listed with a priority from 1883 to 1884, inclusive, is entitled to a priority of 1883.

That claimant James Bett, proof No. 00675, for lands listed with a priority from 1882 to 1885, inclusive, is entitled to a priority of 1882, said lands being situated in sections 29, 28 and 32; for lands listed with a priority from 1885 to 1892, inclusive, in sections 21 and 28, is entitled to a priority of 1885.

That claimants Bett & Papa, proof No. 00678, for lands listed with a priority from 1882 to 1885, inclusive, are entitled to a priority of 1882.

That claimants Merkley & Young, proof No. 00680, for lands listed with a priority from 1869 to 1874, inclusive, are entitled to a priority of 1869.

That claimant J. J. Hylton, proof No. 00681, for lands listed with a priority from 1869 to 1874, is entitled to a priority of 1869.

That claimant Pete Genette and Company, proof number 00391, is entitled to the following tabulations in reference to the priorities:

Claimant—**PETE GENETTE & CO.** 00391
Source—**Big Cottonwood, Little Cottonwood, and Smith Creeks.**
Ditch—**Pete Genette & Co. Ditches.**

Priority	Culture Acres: Harvest	Meadow Pasture	Diversified Pasture	Location: Subdivision	Sec.	Tp.	R.

1876	.....	42.31	.....	N½SW¼	29	30	57

That claimant Union Land and Cattle Company, proof number 00510, is entitled to a priority of 1891 for lands listed 1893; is entitled to a priority of 1874 for lands listed 1877; is entitled to a priority of 1879 for lands listed from 1879 to 1883; the priority of 1880 for lands listed from 1880 to 1890; the priority of 1895 for lands listed from 1897 to 1895; the priority of 1895 for lands listed from 1895 to 1898; is entitled to a priority of 1880 for lands listed from 1880 to 1890; is entitled to the priority of 1894 for lands listed from 1894 to 1900; the priority of 1880 for lands listed from 1880 to 1887; the priority of 1874 for lands listed from 1874 to 1878; the priority of 1890 for lands listed from 1890 to 1894; the priority of 1869 for lands listed from 1869 to 1873; the priority of 1879 for lands listed from 1879 to 1887; the priority of 1900 for lands listed from 1900 to 1905.

That claimant John E. Marble, successor in interest to Union Land and Cattle Company, proof number 00601, is entitled to a priority of 1899 for lands listed in tabulation as 1900 and situated in section 23, township 39 east, range 60; is entitled to a priority of 1899 for lands tabulated 1900 and located in section 26, township 39 east, range 60 north; is entitled to a priority of 1902 for lands tabulated with priority of 1904, located in SE¼ of SW¼ of NW¼ of SW¼ of section 19; is entitled with a priority of 1902 on the lands tabulated 1904 and located in NE¼ of NW¼, SE¼ of NW¼, NW¼ of NW¼, in section 30, township 42, range 60 east; is entitled to a priority of 1901 for lands listed in tabulation as of the year 1902 and located in section 18, township 42, and the NE¼ of NW¼ of section 19; is entitled to a priority of 1901 for lands tabulated with the priority of 1904 and located in sections 13 and 24; is entitled to a priority of 1885 for lands tabulated with the priority of 1899 and situated in SW¼ of SE¼, section 6, SE¼ of SW¼ of section 6, SE¼ of SW¼ of section 7; is entitled to a priority of 1899 for lands tabulated with the priority of 1901 for lands located in NW¼ of SW¼ of section 19; is entitled to a priority of 1899 for lands tabulated with priority of 1902, located in section 30; is entitled to a priority of 1899 for lands tabulated with the priority of 1901, located in NE¼ of NW¼, SE¼ of NW¼, SW¼ of NW¼, section 30; is entitled to a priority of 1899 for lands listed in SW¼ of

SE¼, NE¼ of SW¼ and SE¼ of SW¼, section 31; is entitled to a priority of 1899 for lands tabulated with the priority of 1902, located in NE¼ of NE¼, SE¼ of NE¼, SW¼ of NE¼, section 6; is entitled to a priority of 1899 for lands tabulated with the priority of 1902, located in section 6; is entitled to a priority of 1899 for lands tabulated with the priority of 1902 located in SE¼ of NE¼, section 7.

I find that claimant Hylton Ranching Company, Incorporated, successors to J. J. Hylton, proof number 00359, the Order of Determination fails to apply to claimant's land the doctrine of relation, and that applying the doctrine of relation to this claimant's proof the correct years of priority are as indicated in the following tabulation:

In reference to proof number 00359, and the tabulation set forth on the bottom of page 203 in the Final Order of Determination, I find that a portion of the acreage was conveyed to Arthur and Verne P. Drown, and a portion to John Leland Hylton, and that the following tabulation correctly sets forth the year of priority to this acreage in accordance with the facts:

Claimant—**ARTHUR and VERNE P. DROWN.** 00359
Source—**South Fork of Humboldt River.**
Ditches—**Hylton.**

I find that Appendix C of the Final Order of Determination correctly sets forth the names of appropriators and the right accruing to them prior to 1905. That except as herein indicated the Final Order of Determination is approved respecting all claimants named therein in Appendix C. I find that Appendix C incorrectly gives the year of priorities respecting the following-named claimants, and that the correct year of priority as to said claimants is as follows, to wit:

Proof 00351, Max Arnhold, priority 1911 should be 1900. T. F. Brennen, proof number 00353, priority 1908 should be 1900, and priority 1910 should be 1903. J. J. Hylton, proof number 00355, priorities listed from 1907 to 1918 are entitled to a priority of 1904, and priority listed as 1911 is entitled to a priority of 1904. Clark Drown, proof number 00357, priorities listed from 1909 to 1916 are entitled to a priority of 1904. Albert Hankins, proof number 00358, priority 1909 is entitled to a priority of 1905. J. J. Hylton, proof number 00359, priorities listed from 1908 to 1920 should have a priority of 1904, and priorities listed from 1909 to 1915 are entitled to a priority of 1904, and priorities listed 1912 are entitled to a priority of 1904. Charles Mitchell, proof number 00362, priority 1906 should be 1905. P. J. Ogilvie, proof number 00364, priorities 1908 and 1915 are entitled to a priority of 1904. Ernest Hodges, proof number 00370, priority 1906 should be 1905. A. M. Griswold, proof number 00372, priorities listed from 1906 to 1917 are entitled to a priority of 1904. Minnie Hankins, Lillie Hankins, Elizabeth Hankins, Estate Jane Bellinger, proof number 00375, priority 1906 should be 1904. J. J. Hylton, proof number 00381, priority 1909 should be 1894. Drown Bros., proof number 00385, priorities listed from 1906 to 1918, inclusive, should have a priority of 1904. A. J. Dewar, proof number 00388, priorities listed from 1907 to 1910 should have a priority of 1904. Chris Baumbach, proof number 00394, priority 1910 should be 1905. W. R. Bellinger, proof number 00401, priorities listed from 1907 to 1918 should have a priority of 1905. Hankins-Bellinger Co., proof number 00405, priorities 1911 to 1914 are entitled to a priority of 1905. Albert Trescartes, proof number 00459, priorities 1911 and 1912 should be 1900. Chas. Trescartes, proof number 00459, priorities 1907, 1913 and 1916 should be 1900. W. W. Alles, proof number 00477, priority 1911 should be 1901. Phil Harney, proof number 00484, priorities listed from 1906 to 1915 are entitled to a priority of 1905. W. J. Smiley, proof number 00491, priority 1910 is entitled to a priority of 1905. Hylton & Mentz, proof number 00502, priority 1909 should be 1905. W. J. Black, proof number 00505, priority 1909 (Ackler Creek, Brennen Gulch, and Herder Creek) is entitled to a priority of 1905, and priority 1909 (Ackler Creek) is entitled to a priority of 1905. Isaac Griswold, proof number 00519, priorities 1909 and 1910 are entitled to a priority of 1905. Diana Morgan-Hill, proof number 00552, priority 1913 should be 1905. C. A. & L. M. Laing, proof number 00556, priority 1914 should be 1905. Union Land and Cattle Co., proof number 00601, priority 1911 should be 1905. Metropolis Land Company, proof number 00608, priority 1911 should be 1905. Ambrose Truett, proof number 00611, priority 1908 should be 1905. Chas. Toyn, proof number 00664, priority 1907 should be 1905. Thomas Griffin, proof number 00224, priority 1908 is entitled to the priority of 1905.]

That the Union Canal Ditch Company has succeeded to the rights of Johannes Anderson, Peter Anker Estate, Grace S. Jahn, Pitt and McDonald, F. A. Preston, C. C. Carpenter, J. C. Damm, E. A. Perez and John Dotta, Santos and Souza, James Kjeldsen, Mary T. Fuss, Hans Westergard, Chris Hanson, Nellie Martin, Ingvert Hanson, J. A. Henrikson, Estate of John J. Hill,

Joseph Hill, Paul Johnson, Mrs. John Chambers, C. C. Larson, John Greve, John and Domenico Ferretto, Ludwig J. Munk, N. C. Munk, Pascasio Bilbao, Morris Nelson, Hans Christensen, W. W. VanReed, and Adam Westfall. That Alfred Jurgenson has succeeded to the interest of Andrew Jacobson. That E. A. Perez has succeeded to the interest of R. Helwinkel. John Dotta has succeeded to the interest of Mrs. Sophia O'Neil. Frank Mancebo has succeeded to the interest of Mary J. Ostrander. Thornton C. and Ruth F. Johnson have succeeded to the interest of Wm. A. Stauts. That C. and L. Arobio have succeeded to the interest of the Nevada Land and Livestock Co. John Fant has succeeded to the interest of Geo. S. Nixon Estate. Filippini Ranching Co. has succeeded to the interests of Geo. B. Williams, A. Filippini, and Estate of A. Filippini. John G. Taylor has succeeded to the interest of Ellison Ranching Company. Ignacio Landi is the successor to the interests of Henderson Banking Co. First National Bank of Elko is successor to L. L. Redden. Rufus H. Kimball is the successor in interest to Thomas Hunter. Thomas Griffin Estate has succeeded in interest to Thomas Griffin. John E. Marble successor to Union Land and Cattle Company. Rufus Kimball successor to Hunter-Banks Company. J. J. Hylton successor to Hylton Ranching Company, Inc. Arthur and Verne P. Drown successors to J. J. Hylton. John Leland Hylton successor in interest to J. J. Hylton. That A. E. Kent and Company, Inc. succeeded to the interest of Golconda Cattle Company in lands listed under ditch 13. That lands listed on pages 93, 94 and 95 of the Order of Determination and irrigated by Hot Springs are now owned by the Russell Land and Cattle Company and are no longer owned by the Clover Land and Stock Company. That Filippini Ranching Company are successors in interest to the Faris Estate. That T. S. Cattle Company, Inc., and X. Rodwell Meyer are successors in interest to the Dunphy Estate.

Conclusions of Law

From the foregoing Findings of Fact the Court makes the following conclusions of law:

That the State Engineer made all orders necessary and proper and entered the same in his office as required by Statutes of Nevada 1913, and Acts amendatory and supplemental thereto; that each and every notice required by law to be given to claimants and appropriators was given by the State Engineer in the manner and at the time required by law and the said notices so given contained the statements required by law; that all claimants and appropriators to the waters of the Humboldt stream system and its tributaries duly received the information and notices required by the statute. That each and all of said claimants duly appeared in these proceedings; that the claimants named in the Findings of Fact who were found to have no right or claim to the waters of the stream system have no right or claim to the waters of the stream system.

That the parties named herein as claimants and their successors constitute and are, and each is, the only claimants who were and are appropriators and users of the waters of the Humboldt stream system and its tributaries on the date the Final Order of Determination was filed with the Clerk of this Court, excepting from this finding the name of those parties who have made application with the State Engineer for permits.

That Thomas Derby, Lovelock, Nevada; J. H. McCracken, M. G. McCarthy, Nenzel D. Pascel, Winnemucca, Nevada; W. J. Bell, Winnemucca, Nevada; Phil Wyland, Blaine, Nevada; have claimed or asserted a right to the use of the water of the Humboldt stream system and its tributaries. That said claims

and each of them are without right, and that said parties and each of them are not claimants or appropriators to the waters of the Humboldt stream system or its tributaries.

That all and each of the persons named as claimants or appropriators in the said Final Order of Determination as claimants to the waters of the Humboldt stream system and its tributaries by and through several diversion ditches and canals are, and each is, an appropriator or a claimant to the waters of said Humboldt River stream system and that such appropriators or claimants, each for himself, or by and through his respective claimants, each for himself, or by and through his respective claimants and predecessors in interest, made due and legal appropriations of the quantity of water, for the beneficial use, at the times, and in the manner alleged in said Order of Determination; and that such appropriators or claimants, or his respective successors in interest, now is the owner or possessor of the lands described in said Order of Determination and in these Findings of Fact, Conclusions of Law and Final Decree, and each continuously, from the date of said appropriation or priority, when such water was available for such beneficial use, diverted all of such quantity of water from said Humboldt River and applied the same to beneficial use, as alleged in said Order of Determination and corrected tabulation and classification as filed May 25, 1925.

That the climate where the lands of said respective claimants in said Order of Determination are situated is dry and arid; that it is necessary to irrigate said lands in order to produce or raise crops thereon, and with irrigation said lands produce valuable harvest crops, meadow pasture and diversified pasture; and that there is no source of supply of water for the irrigation of claimants' said lands and for stock and domestic purposes other than the waters of said Humboldt stream system and its tributaries.

That, by reason of the facts hereinabove found, the said appropriators of, or claimants to, the waters of said Humboldt River stream system, by, through or under said Old Channel dam and ditch or ditch system, as alleged in said Order of Determination and in the findings herein determined, are appropriators of the waters of said Humboldt River stream system, with the priorities as in said Order of Determination alleged, the date of priority of the year 1888 commencing with November 30, 1888; and

That said appropriators of, or claimants to, the waters of said Humboldt River stream system, by, through or under said Old Channel dam and ditch or ditch system, are entitled to judgment and decree adjudicating and decreeing that said contract, dated September 10, 1910, hereinabove mentioned, is in full force and effect, and that the State Engineer of the State of Nevada, in distributing the waters of said Humboldt River stream system, shall distribute, divide and apportion the waters of said Humboldt River stream system, as between said appropriators or claimants to such waters by, through or under said Old Channel dam and ditch, and said Union Canal dam and ditch or ditch system, and said Southwest dam and ditch or ditch system, in accordance with and pursuant to the terms, conditions and agreements set forth in said contract, of date September 10, 1910, in so far as the rights of the parties affected by such contract and decrees herein mentioned or referred to are concerned.

That the said petitioners, in the Findings and Decree herein named, and said W. C. Ruddell, being the appropriators or claimants to the waters of said Humboldt River, diverted and applied by or through said Last Chance or Irish-American dam and ditch, are, as among themselves, tenants in common in and to the diverting works and works necessary to conduct the water to the places of use, and in and to the water to be, and which has heretofore been, diverted and

conducted to the places of use, and that there is no priority, as among such petitioners and said W. C. Ruddell, in or to the waters so diverted from said Humboldt River stream system, or to any of such water flowing in said Last Chance or Irish-American ditch; and that said W. C. Ruddell, and all persons claiming rights or interests under or through said W. C. Ruddell, have no right to divert from said Last Chance or Irish-American ditch any greater part or quantity than ¼ or 16/64ths of the waters flowing or to flow therein, and that the balance of all such water flowing or to flow in said ditch at the partition gate or weir constructed in said Last Chance or Irish-American ditch, and at the head of said Ruddell ditch shall flow unobstructed down said ditch or canal to the points of diversion of the other tenants in common, being the petitioners herein named, and partitioned or divided among said petitioners in parts or portions or interests as follows, to wit: To Ada Kafader, 8/64ths; to Alice Taylor, the Borland Ranch, 6⅔/64ths; to C. & L. Arobio, 1⅓/64ths; to Baker & Hart, a copartnership, 2/64ths; to Chris Hansen, 2⅔/64ths; to T. C. Johnson, 1/64th; and to John G. Taylor, 26⅓/64ths; said 64th interests aggregating ¾ of the whole, the other ¼ to be diverted and used by said W. C. Ruddell; and

That the claim advanced by or on behalf of said W. C. Ruddell of a priority over the said petitioners is invalid and without right in fact or law, and is denied;

That, by reason of the facts hereinabove found, concerning the commencement and completion of said Young dam and ditch, the date of priority of all appropriators or claimants of the waters of said Humboldt River stream system and its tributaries, by or through said Young dam and ditch, as fixed or alleged in said Order of Determination as of the year 1888, be, and the same is hereby fixed and established as May 1888; and

That, by reason of the facts hereinabove found, concerning the commencement and completion of said Old Channel dam and ditch, the date of priority of all appropriators or claimants of the waters of said Humboldt River stream system and its tributaries, by or through said Old Channel dam and ditch, as fixed or alleged in said Order of Determination as of the year 1888, be, and the same is, hereby fixed and established as November 1888; and

That all and each of the exceptions of the Old Channel Ditch Company, W. C. Pitt et al., to said Order of Determination, be, and each of such exceptions is, hereby overruled and denied, with the exception of the exception numbered XIX, hereinabove specified; and that all and each of the exceptions of the Young Ditch Company, Andrew Jacobson et al., to said Order of Determination, be, and each of such exceptions is, hereby overruled and denied, with the exception of the priority of the year 1888 for lands irrigated by or through the Old Channel dam and ditch, which is changed to, fixed and established as November 1888.

That the reservoir or claimed reservoir of said Lovelock Land & Development Company, referred to on page 20 of said Order of Determination, has not been used as a storage reservoir for the storage of water therein, in excess of 400 acre feet, since the spring of 1910, and up to September, 1922; that in the spring of 1910, by reason of an extraordinary high flood of the waters of said Humboldt River stream system the gates, dams and levees of said reservoir were washed out and said reservoir basin practically filled with silt, mud and débris, none of which was removed, and none of the gates, leeves or dams repaired, for more than ten years after said flood during the spring of 1910, or prior to the year 1922; that, in addition to the flooding and washing out of the dams, headgates and levees of said reservoir of Lovelock Land & Development Company during the spring of the year 1910, also during the year 1917 by reason of extraordinary high flood waters of said Humboldt River stream system, said

reservoir basin of said Lovelock Land & Development Company was further filled with silt, sediment, dirt and débris to such an extent that said reservoir would not hold, and has not held, to exceed 400 acre feet prior to the year 1922; and that the area formerly embraced within what is herein referred to as the reservoir of said Lovelock Land & Development Company, with the exception of that portion thereof in which may have been stored said 400 acre feet of water, has, each and every year since the flood of the year 1910, hereinabove mentioned, to the year 1922, been used as pasture for cattle and live stock, and that there has been no waters stored therein, and there has been no attempt to store water therein, in excess of 400 acre feet, during the entire period of time prior to September, 1922.

That the claim of Lovelock Land & Development Company, proof No. 0080, at page 20 of said Order of Determination, is correct in all matters, as alleged in said Order of Determination, except that the claimed storage reservoir right of 4,800 acre feet, with the priority of 1900, should be changed and reduced to 400 acre feet, with the priority of 1900, and 4,400 acre feet, with the priority of 1922; and, as so changed and reduced, adjudged and decreed; and

That Final Decree and Judgment should be entered herein in accordance with the said "Opinion and Decision," filed herein January 2, 1931, and these Findings and Conclusions.

That claimant Bergman & Bergman be decreed a tabulation of their rights in accordance with these Findings.

That Helena L. Waldron and Ada Rennie are not, and were not, claimants or appropriators to the waters of the Humboldt stream system or its tributaries, and that the exceptions filed by said parties to the Final Order of Determination are denied and overruled.

That so much of the tabulation contained in the Final Order of Determination in reference to claimant Reinhart Land and Livestock Company as the first four lines on page 36 and six lines on page 37 be stricken, and that the priority on the first four lines of page 36 is of the year 1872.

That claimant L. Hirzel be decreed a tabulation of his rights in accordance with these Findings.

That claimant J. A. Callahan be decreed the tabulation set forth in the Final Order of Determination except 200 cubic feet of water per second as set forth in the Order is not to be allowed.

That Sarah E. Thacker is entitled to a decree affirming the findings set forth in the Final Order of Determination, with the exception that 531.4 acres be classified under harvest crop, and that for irrigating the harvest crop four acre feet of water be allowed.

That the Estate of Chas. Pedroli be decreed a water right with the priority and acreages as set forth in these Findings, with the exception that Ditch system numbered one and two be given a priority of 1880.

That W. F. and F. H. Pearce be decreed a water right with the acreages and priorities set forth in these Findings, and that the North ditch be given a priority of 1875 and the South ditch a priority of 1871.

That the Pacific Livestock Company be decreed a right in accordance with the Findings of Fact.

That the exceptions to the Final Order of Determination respecting claimants Taylor and Sheehan have not been sustained by the testimony and the same are denied, and claimants Taylor and Sheehan are to be decreed a right in accordance with the Final Order of Determination.

That the Ellison Ranching Company be decreed an acreage and priority as

set forth in the Final Order of Determination; that all lands irrigated from Aemes dam have a priority of 1873; that all lands listed under Outside slough have a priority of 1877; that said claimant is not entitled to reservoir water with a priority of 1871. That claimant's right to store water in the reservoir located on Willow Creek is governed by the provisions of a permit issued by the State Engineer.

That claimant Clover Valley Land and Stock Company is decreed an acreage and priority as set forth in the Final Order of Determination; lands irrigated from the Hammond dam have a priority of 1874; lands irrigated from the Aemes dam have a priority of 1873; lands listed under Unnamed ditch have a priority of 1874.

That claimant John G. Taylor be decreed to have a priority and acreage as set forth in these Findings; as to proof number 00159, the date of priority is 1874.

The Land Development Company is entitled to a decree for the respective acreages and priorities as set forth in the Findings.

That W. T. Jenkins Company, proof number 00166, is entitled to a decree as set forth in the Findings with the year of priority 1873.

That the exceptions filed to the Final Order of Determination by the Faris Estate have not been sustained by the testimony. That the Final Order of Determination correctly states the priority and acreage of this claimant. That the Filippini Ranching Company is now the owner and successor in interest to the Faris Estate.

That Filippini Ranching Company is entitled to a decree setting forth its respective rights in accordance with the Findings.

That claimant John G. Taylor, proof number 00170, is entitled to a decree in accordance with the Findings, and that all lands located in section 13, township 35 north, range 32 east, shall have a priority of 1873. All lands irrigated through the Wilcox dam shall have a priority of 1877. That in addition to the lands set forth in the Final Order this claimant is entitled to an additional area with the acreages and priorities as set forth in the Findings.

That claimant George Herd is entitled to a decree for the acreages and priorities described in the Findings with the priority of 1873.

That Garat and Company are entitled to a decree for the land set forth in the Final Order of Determination with the priority of 1874.

That claimant Paul A. Pinson is entitled to a decree for the acreages and priorities as set forth in the Findings. That it shall be further decreed that this claimant may transfer water to irrigate lands lying below the dam to areas above the dam.

That claimant A. G. McBride is entitled to a decree as set forth in the Findings.

That claimant W. T. Jenkins Company is entitled to a decree as set forth in the Findings. That in addition to the acreages set forth in the Final Order of Determination this claimant owns 50 acres of harvest crop and is entitled to a decree with the priority of 1885 for irrigating this acreage located in section 11, township 37 north, range 32 east.

That Frank Cleverly and Fred C. Cleverly are not claimants or appropriators of the waters of the Humboldt River stream system or its tributaries, and have at no time initiated a right or applied the waters of the Humboldt River stream system to a beneficial use.

That W. C. Ruddell is entitled to a decree as set forth in the Findings.

That claimant Ellison Ranching Company be decreed to have a priority of

the proof number 00151, and on pages 64 and 65 of said Order of Determination as of the year 1873. That it be decreed to have a priority to the remaining lands listed under this proof as is shown by the Order of Determination.

That in reference to those claimants owning lands located on the river bottom lands in Elko, they and each of them as set forth in the Findings of Fact shall, by decree, be entitled to a cultural classification as indicated by said Findings.

That the duty of water for the cultured area is as follows: Harvest crop, for which 3 acre feet is usually allowed; meadow pasture, 1.5 acre feet; diversified pasture .75 of an acre foot.

Harvest crop acres include all lands devoted to cultivated crops, also all irrigated native or other grass lands which normally receive sufficient water to produce a crop which will justify cutting for hay, although it may sometimes be pastured and not cut.

Meadow pasture includes all grass lands free from brush which receive sufficient water to produce what may be classed as good pasture, but not sufficient to warrant cutting for hay.

Diversified pasture includes all lands from which the brush has not been cleared but which are artificially irrigated to some extent for the production of grasses for pasturage. These lands are (*) watered only when the stream is in flood or when there is excess water above the needs of higher class culture. Also, this classification includes those areas in the irrigated fields which are grown up with willows, and the depression or other acres covered with tules and flags, if there is grass amongst them. While these latter areas generally receive as much or more water than is required for the higher class of culture, the excess water cannot be considered as being used beneficially, hence the right to divert it should not be recognized.

[The Decree to be entered, for the purposes of distributing the water to claimants and appropriators, shall divide the stream system into two districts. All areas located below Palisade shall be designated as District Number One. On all areas located above Palisade including Battle Mountain, Winnemucca and Lovelock, shall be District Number Two.]

That the Decree to be hereinafter entered should provide that each and every water user of the Humboldt stream system and its tributaries and each of their agents, attorneys, servants and employees, and their successors in interest, and all and every person or persons acting in aid or assistance of the said parties or either of or any of them be, and that each of them is, hereby perpetually enjoined and restrained as follows, to wit:

From at any time diverting or using the flow in whole or in part of any of the water of the Humboldt River stream system, and its tributaries hereinabove mentioned, except to the extent and in the amount and in the manner and at the time or times set by this Decree to such respective party hereto allotted, allowed, prescribed and determined, or allowed by permits which have been or may hereafter be granted by the State Engineer of the State of Nevada.

From diverting from the natural channel and from using any of the said water for irrigation or for any other purpose in excess of the specific allotment herein set by this decree, or in excess of the specific allotment under a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

---

*The word "usually" ordered inserted by Judge H. W. Edwards, see page 6, Sec. 2, Intervening Orders.

NOTE—All of the conclusion within brackets ordered stricken by Judge H. W. Edwards, page 10, Sec. 2, Intervening Orders.

From diverting from the natural channel and from using any of the said water in any other manner or for any other purpose or purposes or upon any other land or lands than as provided and prescribed by the terms of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

From diverting from the natural channel and from using any of the said water at any other time or times than as specified and provided by the terms of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

From in any manner meddling with, opening, closing, changing, injuring, or interfering with any headgates, weirs, water box, flume, or measuring device, placed, installed or established by the State Engineer or by his authority or direction, unless such act be done by the permission or authority of the Water Commissioner, if during the period of his regulation or control of said water, or if not done during such period, then by virtue of the allowances, authority, terms and provisions of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

*That in all cases where decrees of the Court or agreements of the parties have been filed in these proceedings, which said agreements or decrees have not been mentioned in these findings, the water master shall distribute water as between the parties to said decrees or said agreements in accordance with said decrees or agreements does interfere with any such prior rights, then said water prior rights of claimants or appropriators not subject to or bound by such decrees or agreements; but whenever the distribution of water in accordance with said decree or agreements does interfere with any such prior rights, then said water may be distributed by the water master in accordance with the date of priority, as hereinafter tabulated.

That the Decree as to those appropriators located in Lovelock and the Elko District shall contain the tabulations for the year of priority as indicated in these Findings, and that as to each of said claimants the doctrine of relation shall be applied to their respective water rights.

That in the cases indicated in the Findings where a change in title has been made the Decree shall show the present names of the owners in each instance.

*The words "or have" ordered inserted by Judge H. W. Edwards, page 10, Sec. 2, Intervening Orders.

FINAL JUDGMENT AND DECREE

IT IS, THEREFORE, BY REASON OF THE FINDINGS OF FACT AND CONCLUSIONS OF LAW HEREINABOVE SET FORTH, ADJUDGED AND DECREED BY THE COURT AS FOLLOWS:

I

That except such persons as may have acquired rights to the use of the water of the Humboldt stream system and its tributaries granted under application to the State Engineer under and by virtue of the Statutes of 1905, Chapter 46, Statutes 1907, page 30, and under and by virtue of Chapter 140, Statutes of 1913, as amended, no person other than the parties named herein have or claim any interest in or to said water or in or to the use of said water of said stream system or any part thereof.

II

That the names of claimants or appropriators or successors of the waters of the Humboldt River stream system and its tributaries diverting waters from said Humboldt River stream system for beneficial use, the source of water supply, the means by which the water is secured from the source and applied to beneficial use, the year of priority, the cultured acreage of harvest crop, meadow pasture and diversified pasture, the legal subdivisions, section, township and range, length of season and duty of water for each of said claimants or appropriators is hereby adjudged and decreed as follows, to wit:

Pershing Co - (65-68) incl. 77 (78-82) incl. 91 (229-233) Inc.

*Rodgers Estate.

†Rodgers Canal System was initiated through the following ditches (a) Blake Ditch, (b) Winslow Ditch, (c) Welkel Ditch, (d) Kewley Ditch, (e) McCallum & Andrieux Co. Ditch, (f) McCallum Ditch, (g) Slaven Ditch, (h) J. B. Brown Ditch, (i) Saxenheimer Ditch, (j) Farmers Ditch, (k) Marker Ditch, (l) Fuss Ditch, (m) J. B. Brown Extension Ditch.

All waters appurtenant to lands irrigated by the Rodgers Canal System have, by agreement and by use, for more than twenty years last past, been continuously appropriated and beneficially used by the claimants and their predecessors in interest in the following proportions: 7/24 by L. N. Carpenter, 14/24 by Millie R. Evans, and 3/24 by John Fant, Successor to George S. Nixon, Estate, and said agreement and manner of use is binding between the parties, their successors, executors, administrators and assigns.

Such agreement or use does not apply to any waters obtained from any storage reservoir or reservoirs owned by the parties to this agreement nor does such agreement or manner of use apply to any water transferred or that may be transferred by Millie R. Evans or Rodgers Estate from what is known as the Blakesley Ranch, situated near Imlay, Nevada, nor to any other water hereafter transferred by any of the parties to this agreement to their respective lands.

All waters appurtenant to lands irrigated by the Rodgers Canal System have, by agreement and by use, for more than twenty years last past, been continuously appropriated and beneficially used by the claimants and their predecessors in interest in the following proportions: 7/24 by L. N. Carpenter, 14/24 by Millie R. Evans, and 3/24 by John Fant, Successor to George S. Nixon, Estate, and said agreement and manner of use is binding between the parties, their successors, executors, administrators and assigns.

Such agreement or use does not apply to any waters obtained from any storage reservoir or reservoirs owned by the parties to this agreement nor does such agreement or manner of use apply to any water transferred or that may be transferred by Millie R. Evans or Rodgers Estate from what is known as the Blakesley Ranch, situated near Imlay, Nevada, nor to any other water hereafter transferred by any of the parties to this agreement to their respective lands.

Claimant—JOHN G. TAYLOR. 0081

Pole and Rock Creeks are small streams of variable flow and the culture area and character of the culture varies. Claimants Taylor and Sheehan and their predecessors have at all times used the entire flow of said streams reaching their points of diversion, increasing and decreasing the amount of culture area and changing the character thereof to adapt themselves to the amount of the flow. The claimants are entitled to the entire flow of said streams reaching their points of diversion for irrigation of the land specified.

*That certain agreement signed by T. F. Brennen and J. Hennen in regard to the division of the waters of Young Creek, as recorded in Elko County, Book 4 of Miscl. Records, pages 186 to 187, is binding as between parties to the agreement. The "miner's inch" referred to shall be defined as being the amount of water that will flow through an opening of one square inch and under a six-inch head. The parties to this agreement are to construct and maintain a device in Young Creek in the NW¼NW¼, Sec. 14, T. 32 N, R. 57 E, that will automatically divide the stream according to the said agreement, the plans for said device to be approved by the State Engineer.

Reference is made to stipulation between Huntington and Diamond Valley Land and Stock Co. and J. J. Hylton, Merkley & Young and Frank Odiaga, regarding the use of waters of Huntington Creek. See Appendix A.

These lands were included in the suit H. H. Porch vs. U. Lani et al., No. 1644 Elko County Records. After listing dates and areas they were pooled and then listed in accordance with the decree.

That certain agreement signed by T. F. Brennen and J. Hennen in regard to the division of the the waters of Young Creek, as recorded in Elko County, Book 4 of Miscl. Records, pages 186 and 187, is binding as between the parties to agreement. The "miner's inch" referred to shall be defined as being the amount of water that will flow through an opening of one square inch and under a six-inch head.

The parties to this agreement are to construct and maintain a device in Young Creek in the NW¼NW¼, Sec. 14, T. 32 N, R. 57 E, that will automatically divide the stream according to the said agreement, the plans for said device to be approved by the State Engineer.

After exchanging dates and areas to conform to Lamoille Court Decree, Elko District Court No. 1311.
The amount of water flowing through the swamp ditch is to be deducted from the amount claimant is entitled to divert from Lamoille Creek, but in case swamp ditch becomes dry, claimant is allowed to use water for his entire area as listed from Lamoille Creek.
Swamp Area—No water to be diverted from the creek for any swamp area until the same becomes dry or is drained.

Before irrigating more land from Spring Creek than the 65 acres dated 1880, claimant is to have 3-5 c. f. s. flowing over a weir in Spring Creek between the water hole on Elko-Lamoille road and the bridge where the Pleasant Valley road cross Spring Creek, up to August 15 of each year. After August 15 there must be 4-5 c. f. s. flowing over said weir before irrigation of any more land from Spring Creek other than the 65 acres. These restrictions are in accordance with judgment and decree No. 1621—Yowell v. Bellinger, Elko County Records. Said judgment and decree are binding as between parties to the suit.

As far as possible claimant is to use the waters of Smiley Creek, Dry Gulch, and Little Hall Canyon Creek before taking any water from Herder Creek; the balance of the water required for irrigation to be taken from Herder Creek.

In addition to irrigation rights claimant has a vested right from Herder Creek for domestic and stock watering purposes in NE corner of Sec. 33 with a date of 1902. Claimant not to divert water from Herder Creek to the NE corner of Sec. 33 as long as there is sufficient water from other sources for domestic and stock watering purposes in said section.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that except such persons as may have acquired rights to the use of the water of Humboldt River stream system and its tributaries granted under applications to the State Engineer under and by virtue of the provisions of the statute, no person other than the parties named herein have or claim any interest in or to said water or in or to the use of said water or any part thereof.

That the order of the rights of the respective appropriators of the waters of said stream and its tributaries, and in which order they are entitled to divert and use the said water [for the period or season or time of year in which the said right attached as herein provided] shall be and is [within the districts hereinafter created,] according to the date of the relative priority of the right as herein set forth and determined, and the first in order of time according to the date of relative priority shall be and is the first in order of right, and so on, down to the date of the latest priority, and those having prior rights are entitled to divert and use the waters of said stream and its tributaries when necessary for the beneficial use in connection with the irrigation of their respective lands, or other useful and beneficial purposes for which they are decreed a right of use, at all times and against those having subsequent rights, without let or hindrance, and whenever the water is not required by the appropriator having a prior right to its use for the purpose for which said water was appropriated, he must and shall permit it to flow down in the natural channel of the stream as it was wont to flow in its natural course, without hindrance or diversion thereof, and those having subsequent rights are entitled to the use of such water and to divert the same to the extent of their rights of appropriations, according to the order of their priority rights; and at all times the waters diverted shall be beneficially, economically and reasonably used without waste by those having a right to do so by reason of the priority of their rights.

That the rights of appropriation hereby confirmed are appurtenant to the lands herein described for irrigation purposes, and the right of use of the waters of said stream and its tributaries by virtue of such rights of appropriation are limited and confined to the irrigation of the lands described herein to the extent of said lands as herein set forth, and the priorities herein confirmed confer no right of use of the waters of said stream, and its tributaries, on the lands other than those specified tracts to which such rights of appropriation are herein set forth as appurtenant. The right of a water user to change the place of use of a vested water right, in the manner, now or hereafter, provided or permitted by law shall not be prohibited or affected by this decree.

That in all cases where decrees of the Court or agreements of the parties have been filed in these proceedings, which said agreements or decrees have* not been mentioned in these findings, the water master shall distribute water as between the parties to said decree or agreements so long as such distribution does not interfere with any prior rights of claimants or appropriators not subject to or bound by such decree or agreements; but whenever the distribution of water in accordance with said decrees or agreements does interfere with any such prior rights, then said water may be distributed by the water master in accordance with this decree.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that for the purpose of distributing the waters of the Humboldt stream system and its

NOTE—The words between brackets ordered stricken by Judge H. W. Edwards, see page 10, Sec. 2, Intervening Orders.

*Ordered amended by inserting the words "or have" by Judge H. W. Edwards, see page 10, Sec. 2, Intervening Orders.

tributaries in accordance with the provisions of this decree [the said stream system is hereby divided into two districts known as District No. 1 and District No. 2. District No. 1 is all that portion of the Humboldt River stream system and its tributaries being all the lands located below Palisade. District No. 2, known as the upper district, and consisting of all lands above Palisade.

That the State Engineer or Water Commissioner in the distribution of water shall distribute all water flowing in said stream system prior to May 15 to the claimants and appropriators situated in District No. 1. That all water flowing in said stream after May 15 shall be distributed to clainmants and appropriators situated in the upper district or district No. 2; that such distribution shall continue in said upper district until all priorities of a date equal to the date of priorities served in the lower district have been served; that after the serving of equal priorities in the upper district, if sufficient water is flowing in the river to reach claimants in the lower district, without waste, keeping in mind the location of the various places of use, the conditions of the stream flow, the season of the year, and the matter of transmission loss, evaporation and seepage, and equal distribution of the water between district No. 1 and district No. 2 shall be made to serve equal priorities.]

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that subject to section 36a* of the Water Code, as amended, the beginning and ending of the irrigation season shall be as defined in this Decree except when climatic conditions are such that irrigation is not in accordance with good husbandry and actual beneficial use of water. The State Engineer shall then determine by examination the beginning of the irrigation season and shall set the date, giving notice to all water users on said stream system. The setting of this date shall be for the sole purpose of administration and distribution of the waters of the Humboldt stream system and its tributaries in accordance with this Decree.

[That the rate of flow in District No. 1 is based upon an irrigation system of the following approximate lengths: 180 days for Class A lands, 90 days for Class B lands, 45 days for Class C lands. That in District No. 2 the rate of flow for an irrigation season is as follows: 120 days for Class A lands, 60 days for Class B lands, and 30 days for Class C lands.

The State Engineer and Water Commissioner in distributing water to appropriators of the two districts will give due consideration to the head required to distribute the water over the land and to the water which returns to the stream system.]

That the claimants and appropriators or their successors in interest will not be required to take or use the amount of water allotted to them in a continuous flow, but may cumulate the same or any part thereof in rotation or periodic turn within the seasonal limits with the approval of the Water Commissioner and subject to the control and direction of the State Engineer.

Upon lands where conditions render it impossible to measure the amount of water diverted upon the land the duty of water as allotted will be modified and based upon that time limit of irrigation which is found to be most consistent with good husbandry; that where the classification of areas as herein indicated has been changed by any appropriator and the cultivated area reduced to a

NOTE—All language between brackets ordered stricken and new paragraph substituted by Judge H. W. Edwards, see pages 10–11, Sec. 2, Intervening Orders.

*Ordered amended by inserting "Sec. 36½" by Judge H. W. Edwards, see page 11, Sec. 2, Intervening Orders.

NOTE—All language between brackets ordered stricken and new paragraph substituted by Judge H. W. Edwards, see page 11, Sec. 2, Intervening Orders.

lower culture, the State Engineer or Water Commissioner shall allow the diversion of only so much water as is applicable to the then growing crop area.

All measurements of amounts diverted are to be made at the point where the main ditch enters or becomes adjacent to the land to be irrigated or as near thereto as practicable, the location if not selected by the State Engineer to be approved by him. Each water user shall install and maintain substantial headgates and weirs in his ditch or ditches. Due allowance for losses in ditches will be made by the State Engineer in case it becomes necessary to divert additional water into said ditches.

Priorities are fixed by years and where the years are the same the priorities are equal unless otherwise specifically set forth.

In all cases where the acreages irrigated are bracketed with legal subdivisions, the water allotted is appurtenant to one or more legal subdivisions or parts of legal subdivisions within such bracket, but limited to the aggregate acreage and amount of water indicated for such bracket.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that all claimants herein for water for irrigation shall be entitled to use such water for stock and domestic purposes. That the right to the diversion and use of the water for stock and domestic purposes shall be continued by such claimants and such water users at any time during the year, and such diversion shall be according to the dates of priority of such claimants, and such use shall be limited to the quantity of water reasonably necessary for stock and domestic purposes; that during the irrigation season the amount of water diverted for irrigation purposes shall not be increased by any amount to be used for stock and domestic purposes, but the quantity allowed and diverted for irrigation during the irrigation season includes the water for stock and domestic purposes.

That the duty of water of the cultured area is as follows: Harvest Crop, 3 acre feet; Meadow Pasture, 1.5 acre feet; and Diversified Pasture, .75 of an acre foot.

Harvest crop acres Class A, include all lands devoted to cultivated crops, also all irrigated native or other grass lands which normally receive sufficient water to produce a crop which will justify cutting for hay, although it may sometimes be pastured and not cut.

Meadow pasture Class B, includes all grass lands free from brush which receive sufficient water to produce what may be classed as good pasture but not sufficient to warrant cutting for hay.

Diversified pasture Class C, includes all lands from which the brush has not been cleared but which are artificially irrigated to some extent for the production of grasses for pasturage. These lands shall be* watered only when the stream is in flood or when there is excess water above the needs of higher class culture. Also, this classification includes those areas in the irrigated fields which are grown up with willows, and the depression or other acres covered with tules and flags, if there is grass amongst them. While these latter areas generally receive as much or more water than is required for the higher class of culture, the excess water cannot be considered as being used beneficially, hence the right to divert it is not recognized.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED, that except as indicated in the Decree, all objections filed to the Final Order of Determination are hereby denied and overruled.

*The words "shall be" ordered stricken and the words "are usually" inserted in lieu thereof by Judge H. W. Edwards, see page 7, Sec. 2, Intervening Orders.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that no claimant or appropriator along the stream system or its tributaries has a prescriptive right to the use of waters of said stream system or its tributaries.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that each and every water user and claimant to the Humboldt stream system and its tributaries and each of their agents, attorneys, servants and employees, and their successors in interest and all and every person or persons acting in aid or assistance of the said parties or either of or any of them be, and that each of them is, hereby perpetually enjoined and restrained as follows, to wit:

(a) From at any time diverting or using any of the water of the Humboldt stream system and its tributaries hereinbefore mentioned, except to the extent and in the amount and in the manner and at the time or times set by this Decree to such respective party hereto allotted, allowed, prescribed and determined, or allowed by permits which have been or may hereafter be granted by the State Engineer of the State of Nevada.

(b) From diverting from the natural channel and from using any of the said water for irrigation or for any other purpose, in excess of the specific allotment herein set by this Decree, or in excess of the specific allotment under a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

(c) From diverting from the natural channel and from using any of the said water in any other manner or for any other purpose or purposes or upon any other land or lands than as provided and prescribed by the terms of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

(d) From diverting from the natural channel and from using any of the said water at any other time or times than as specified and provided by the terms of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

(e) From in any manner meddling with, opening, closing, changing, injuring, or interfering with any headgates, weirs, water box, flume or measuring device, placed, installed or established by the State Engineer or by his authority or direction, unless such act be done by the permission or authority of the Water Commissioner, if during the period of his regulation or control of said water, or if not done during such period, then by virtue of the allowances, authority, terms and provisions of this Decree or by a permit granted or that may hereafter be granted by the State Engineer of the State of Nevada.

IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the costs in this proceeding amounting to ..... dollars is hereby assessed proportionately to claimants and appropriators of the Humboldt stream system and its tributaries based upon the amount of acreage set forth in this Decree to which water has been allotted.

Dated this 20th day of October, 1931.

GEO. A. BARTLETT,
Former District Judge Presiding at the Trial.

COMPILERS' NOTE OF PAGE CHANGES AND CORRECTION OF ERROR

The original findings of fact, conclusions of law and decree, as corrected and signed by Judge Bartlett, were submitted to him in printed form. He made many changes therein by deletion, interlineation, and insertion of typewritten stickers before signing and filing the printed document, which then became the "Bartlett Decree," as printed in Section No. 1, ante. By reason of the changes made by Judge Bartlett, which lengthened some of the pages and shortened others of the original document, it became necessary in the printing thereof, as so changed, to change the page numbers in order to preserve the continuity of the Bartlett Decree as printed. Judge Edwards and Judge Hawkins, in their respective intervening orders, printed in Section 2, post, referred therein to specific pages in the Bartlett Decree as then signed and filed. The pages there referred to do not always correspond with the pages as printed in this compilation of the Bartlett Decree. The following table is a table of changes in the original page numbers referred to in the intervening orders.

Intervening Orders, page	refers to Original Bartlett Decree, page	being Compiled Bartlett Decree, page
3	89, 90	90
5	66 (C. & L. Orobio)	67
6, 7	245	243
9	29, 30	28, 29, 30
9	243, 244	241, 242
10	243	241
10	243	241, 242
11	244	242
13	160	158
22	99	100

Error: The * appearing before the word "That" at the beginning of the fourth paragraph on page 53 of the Bartlett Decree, ante, should appear immediately before the word "not" at the end of the second line of such paragraph.

Error: The length of irrigation season for harvest crops set forth in the note to T. S. Cattle Co. and X. Rodwell Meyer on page 134 of the Bartlett Decree, ante, should read "March 15 to September 15."

SECTION NO. 2

INTERVENING ORDERS OF JUDGE H. W. EDWARDS AND JUDGE L. O. HAWKINS

NOTE—The above Orders were made and entered in the Humboldt River Adjudication Proceedings between the time of the filing of the Bartlett Decree, October 20, 1931, and the entry of the Edwards Decree on October 8, 1935.

INTERVENING ORDERS OF JUDGE H. W. EDWARDS AND JUDGE L. O. HAWKINS

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed December 14, 1931—J. W. Davey, Clerk

PETITION AND MOTION FOR MODIFICATION, AMENDMENT, AND CORRECTION OF DECREE

COME NOW Josephine K. Pinson, Ella A. Pinson, Victor A. Pinson, Bertha S. Wilkinson, Gertrude M. Pinson and Camille Pinson, successors in interest to Paul A. Pinson estate, by their attorneys, Hawkins, Mayotte & Hawkins, and, upon informaton and belief, respectfully state, represent and show unto the court;

1. That your petitioners, Josephine K. Pinson, Ella A. Pinson, Victor A. Pinson, Bertha S. Wilkinson, Gertrude M. Pinson, and Camille Pinson, are the successors in interest in and to all of the lands and water rights formerly owned or possessed by Paul A. Pinson Estate, situated in Humboldt County, Nevada, along the Humboldt River, including the lands and water rights referred to and mentioned in the findings of fact, conclusions of law and decree filed in the above entitled matter and court, October 20, 1931.

2. That certain of said lands and water rights of your petitioners were omitted from said decree, and some of the years of priority, as designated in said decree, are erroneous, and some of the lands of your petitioners are improperly classified, and in some instances the duty of water is not correctly stated in said decree.

That all and each of such omissions, and the errors in the designated years of priority, and in the classification of the lands, and in the duty of water, herein mentioned, occurred by reason of an oversight, inadvertence and mistake in the preparation of said findings of fact, conclusions of law and decree, and are in conflict with the record in the above entitled matter; and that said decree should be modified, amended, changed and made to conform to the facts and law in reference thereto, as disclosed by the record in the above entitled matter.

3. That said findings of fact, conclusions of law and decree should be modified, corrected and amended, as to that portion thereof appearing on pages 89 and 90 thereof, under the heading "Claimant—Paul A. Pinson, Source—Humboldt River. Ditch—Louis Lay Dam. Ditch—Pinson Dam and Ditch System," so as to read as follows, to wit:

4. That in support of this petition and motion, petitioners will use and rely upon; this petition and motion and all the record heretofore made in the above entitled Matter and Court.

WHEREFORE, your petitioners pray; that said findings of fact, conclusions of law and decree be modified, corrected and amended, as to that portion thereof appearing on pages 89 and 90, herein mentioned, so that when said decree shall be so modified, corrected and amended, it will read as hereinabove specifically set forth.

HAWKINS, MAYOTTE & HAWKINS,
Attorneys for Petitioners.

STATE OF NEVADA, }
COUNTY OF HUMBOLDT } ss.

VICTOR A. PINSON, being first duly sworn, deposes and says: That he is one of the petitioners named in the foregoing petition; that he has read said petition and knows the contents thereof, and that the same is true of his own knowledge except as to any matters therein stated upon information and belief, and as to those matters he believes it to be true.

VICTOR A. PINSON,

SUBSCRIBED AND SWORN to before me this 14th day of December, 1931.

[SEAL] J. W. DAVEY.
County Clerk and Ex Officio Clerk of the Sixth Judicial District Court of the State of Nevada, in and for the County of Humboldt.

We, the undersigned, Geo. A. Bartlett, former district judge and M. A. Diskin, formerly Attorney-General, and now Special Deputy Attorney-General in charge of the above entitled matter, confess error in the above entitled matter, as to the draft and provisons of the findings of fact, conclusions of law and decree made and entered herein—as to that portion thereof in reference to "Claimant—Paul A. Pinson. Source—Humboldt River. Ditch—Louis Lay Dam. Source—Humboldt River. Ditch—Pinson Dam and Ditch System.", appearing on pages 89 and 90 thereof, and consent and recommend that the above and foregoing petition and motion be granted, and that said findings of fact, conclusions of law and decree, of date October 20, 1931, be modified, corrected and amended, as in said petition and motion specifically set forth.

DATED: December 8, 1931.

GEO. A. BARTLETT,
Former District Judge Presiding at Trial.
M. A. DISKIN,
Special Deputy Attorney-General.

ORDER OF COURT

GOOD CAUSE APPEARING THEREFOR, and no objection appearing thereto, IT IS ORDERED;

That the foregoing petition and motion be, and the same is hereby, allowed and granted; and that the said findings of fact, conclusions of law and decree be, and the same are hereby, modified, corrected and amended so as to read as in said petition and motion prayed, and specifically set forth.

DONE in open Court this December 16th, 1931.

H. W. EDWARDS,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed May 12, 1933—J. W. Davey, Clerk

Hawkins, Mayotte and Hawkins, Attorneys for Movants

ORDER CORRECTING CLERICAL OR FORMAL ERRORS IN FINAL JUDGMENT AND DECREE

The above entitled Matter came regularly on to be, and was further heard in the above entitled Court on April 27, 1933, upon motion of Ada Kafader, et al., for an order correcting the final judgment and decree made and filed in the above entitled Court and Matter October 20, 1931, so as to make said final judgment and decree speak the truth, and to conform with the "Opinion and Decision," rendered herein, and filed on January 2, 1931, and with the finding of fact and conclusions of law made and filed herein October 20, 1931, in reference to the distribution of the water from the Last Chance or Irish-American Ditch, and the rights and interests of claimants thereto, being the Movants and W. C. Ruddell, said motion being made pursuant to, and in accordance with, the written "Notice of Motion for Orders," duly served and filed herein on April 5, 1933.

The Movants appeared by their attorneys, Hawkins, Mayotte & Hawkins, and the State Engineer appeared by H. W. Reppert, Assistant State Engineer, and by his attorney, Gray Mashburn, Attorney General of the State of Nevada, and W. C. Ruddell appeared by his attorneys, Cooke, Stoddard & Jurgenson.

The said motion for said order was argued, and submitted for decision. The Court, being fully advised in the premises, and after due consideration of said motion, and the record herein, finds:

That, through inadvertence, mistake and oversight, errors and omissions of a clerical or formal nature had been made in the preparation of said final judgment and decree, and by reason of such errors and omissions, the said final judgment and decree is ambiguous and uncertain, and fails to speak the truth as to what was actually decided by the court, in reference to the matter involved in said motion; and that such ambiguity and uncertainty, and such clerical or formal errors, so arising from inadvertence and oversight, should be removed from said final judgment and decree, in order to make the record entry of said final judgment and decree conform to and recite the truth, as to what was actually decided concerning the matter of the distribution of the water from said Last Chance or Irish-American Ditch.

IT IS, THEREFORE, ORDERED that the ambiguity, uncertainty and/or error arising from such inadvertence and oversight in the preparation of said final judgment and decree be corrected, so as to make said judgment and decree speak the truth as to what was actually decided, as appears from the said "Opinion and Decision," filed herein January 2, 1931, and to conform with and follow the said findings of fact and conclusions of law, made and filed herein October 20, 1931; and so as to make said final judgment and decree speak the

truth, as to what was actually decided in and by said "Opinion and Decision," filed herein January 2, 1931, and to conform with and follow the clear and unambiguous intent and purpose of said findings of fact and conclusions of law, made and filed herein October 20, 1931;

IT IS FURTHER ORDERED that said final judgment and decree be, and the same hereby is, corrected so as to declare of record that which was actually decided, as follows, to wit:

That there is no priority, as among such appropriators or claimants in and to the waters so diverted from said Humboldt River by said Last Chance or Irish-American dam, ditch or canal, or to any of such waters flowing or to flow in said Last Chance or Irish-American canal or ditch; that W. C. Ruddell, Sr., and all persons claiming rights or interests under or through said W. C. Ruddell, Sr., have no right to divert from said canal or ditch any greater part than 1/4th or 16/64ths of the waters flowing or to flow therein, and that the balance of all such waters flowing or to flow therein, at the partition gate or weir constructed in said Last Chance or Irish-American canal, and at the head of said Ruddell ditch, shall flow unobstructed down said canal to the points of diversion of the other appropriators or claimants to such waters; and

That all waters appurtenant to the lands irrigated by the said Last Chance or Irish-American Ditch or canal system have, by agreement and by use, for more than forty-two years last past, been continuously appropriated and beneficially used by the claimants and their predecessors in interest, in the following proportions: 1/4th or 16/64ths to W. C. Ruddell, and 3/4ths or 48/64ths to the other appropriators or claimants or their predecessors in interest, in the proportions, to wit: to Ada Kafader, 8/64ths; to Alice Taylor, the Borland Ranch, 6 2/3/64ths; to C. & L. Arobio, 1 1/3/64ths; to F. E. Baker and J. N. Mart, a copartnership, 2/64ths; to Chris Hansen, 2 2/3/64ths; to T. C. Johnson, 1/64th, and to John G. Taylor, 26 1/3/64ths; said 64th interests aggregating 3/4ths of the whole; and

IT IS FURTHER ORDERED that the clerk of the court be, and he hereby is, ordered and directed to insert in said final judgment and decree, at the end of the tabulation of each of said Movants and said W. C. Ruddell, designated in said final judgment and decree as claimants, to wit, John G. Taylor, page 64; Mrs. A. E. Borland (Alice Taylor) Borland Ranch, page 64; I. M. Springer, Sr. (Ada Kafader) page 65; Thornton C. and Ruth F. Johnson, page 65; John O'Kane (John G. Taylor) page 65; John G. Taylor, page 65; C. & L. Orobio, page 66; and W. C. Ruddell, page 64, the following, to wit:

All waters appurtenant to the lands irrigated by the Last Chance or Irish-American Ditch have, by agreement and by use, for more than forty-two years last past, been continuously appropriated and beneficially used by the claimants and their predecessors in interest, in the proportions as set forth in the findings of fact and conclusions of law, at pp. 13–14 and pp. 48–49 of the printed copy of the "Findings of Fact, Conclusions of Law and Decree," made and filed herein October 20, 1931, to which reference is hereby made, and in that certain "Order Correcting Clerical or Formal Errors in Final Judgment and Decree," made and entered herein April 27, 1933, to which reference is hereby made.

IT IS FURTHER ORDERED; That the foregoing "Order Correcting Clerical or Formal Errors in Final Judgment and Decree" be entered nunc pro tunc, as of October 20, 1931.

DONE in open court this April 27th, 1933.

H. W. EDWARDS,
District Judge.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed June 12, A. D. 1935—J. W. Davey, Clerk

ORDER CORRECTING CLERICAL OR FORMAL ERRORS IN FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE—RE DIVERSIFIED PASTURE.

The above entitled Matter came regularly on to be and was further heard in the above entitled Court on February 5th–8th, 1934, pursuant to the "Decision on Motions for New Trials," filed in the above entitled Court and Matter March 18, 1932, and particularly as to Diversified Pasture, as Stated in said "Decision on Motions for New Trials," at page 24 thereof—upon motion for an order correcting the Conclusions of Law at page 52 thereof, and correcting the Decree, at page 245 thereof, of said Findings of Fact, Conclusions of Law and Decree, so as to make said Conclusions of Law and said Decree speak the truth and conform with the "Opinion and Decision" rendered herein, and filed January 2, 1931, in reference to said Diversified Pasture.

The said motion having been duly made, and no objection having been made thereto, and good cause appearing therefor, the Court—being fully advised in the premises, and after due consideration of said motion, and the record herein, especially the said "Opinion and Decision," wherein on page 8 thereof it is stated:

> "These lands are usually watered only when the stream is in flood or when there is excess water above the needs of higher class culture"—

finds:

That, through inadvertence, mistake and oversight, errors and omissions of a clerical or formal nature had been made in the preparation of said Conclusions of Law and Decree in reference to Diversified Pasture, as appears from said "Opinion and Decision," in that on page 52 in the sentence—"These lands are usually watered only when the stream is in flood or when there is excess water above the needs of higher class culture," the word "usually," being the fourth word in the sentence above quoted, had been stricken, and that on page 245, in the sentence reading—"These lands are usually watered only when the stream is in flood or when there is excess water above the needs of higher class culture," the words "are usually" were stricken, and, in lieu thereof, the words "shall be" were interlined with pen and ink.

IT IS THEREFORE, ORDERED: That said Conclusions of Law, at page 52, hereinabove quoted, be, and the same hereby are, amended, changed and corrected, by the insertion of the word "usually" at the place where said word "usually" was stricken, as hereinabove found, so as to make said sentence, on page 52 of said Findings of Fact, Conclusions of Law and Decree, read as follows:

"These lands are usually watered only when the stream is in flood or when there is excess water above the needs of higher class culture"; and

IT IS FURTHER ORDERED: That said Decree, at page 245, hereinabove quoted, be, and the same hereby is, amended, changed and corrected, by striking the words "shall be" and inserting in lieu thereof, the words "are usually," so as to make said sentence, on page 245 of said Findings of Fact, Conclusions of Law and Decree, read as follows:

"These lands are usually watered only when the stream is in flood or when there is excess water above the needs of higher class culture."

IT IS FURTHER ORDERED: That the clerk of the above entitled court be, and he hereby is, directed and ordered to amend, change and correct the printed copy of the Findings of Fact, Conclusions of Law and Decree, of date and filed in the above entitled Court and Matter October 20, 1931, so as to make said Conclusions of Law and Decree conform to and with this order, by interlining in said Conclusions of Law, at page 52 thereof, and in the sentence hereinabove quoted, the word "usually," and by striking from said decree, at page 245 thereof, and in the sentence hereinabove quoted, the words "shall be," and, in lieu thereof, inserting the words "are usually"; and

IT IS FURTHER ORDERED: That the foregoing order correcting clerical or formal errors in the Conclusions of Law and Decree be entered nunc pro tunc, as of October 20th, 1931.

DONE in open Court this February 8th, 1934.

H. W. EDWARDS,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed June 12, A. D. 1935—J. W. Davey, Clerk

AMENDED, CHANGED AND CORRECTED FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE—UPON NEW TRIAL RE DIVISION OF HUMBOLDT RIVER STREAM-SYSTEM INTO DISTRICTS.

The above entitled Matter came regularly on to be and was further heard and tried by the above entitled Court, on February 5th, 6th, 7th and 8th, 1934, pursuant to, and in accordance with, the order of court, filed March 18, 1932, granting New Trials, upon several separable issues, including a new trial re division of the Humboldt River Stream-System into districts, the issues involved in said new trial being confined to:

"(1) Court's authority to divide the Humboldt river into districts;
"(2) The place or places that should mark the dividing lines between districts;
"(3) The power of the Court to fix a time for the beginning of seasonal irrigation within districts";

as stated in the "Decision on Motions for New Trials," filed in the above entitled Court and Matter March 18, 1932, as appears upon pages 38–40, both inclusive—upon the entire record, heretofore offered and admitted, in evidence, herein applicable and limited to said issues.

Gray Mashburn, Attorney General of the State of Nevada, appeared on behalf of the State of Nevada, the State Engineer, and all claimants and appropriators who had filed no exceptions to the Order of Determination filed herein January 17, 1923. Other exceptors, being claimants to some of the waters of said Humboldt River Stream-System, appeared in person and/or by their respective attorneys, viz., Roy W. Stoddard, Prince A. Hawkins, John A. Jurgenson, J. D. Skeen, E. J. L. Taber, Morley Griswold, and Milton B. Badt.

All questions of fact, presented by the record herein, and all principles of law applicable to or concerning the division of the Humboldt River Stream-System into districts and fixing the date before and after which the water in the said stream-system should be distributed to appropriators situated in one of such districts, and denied to appropriators, of equal or earlier priorities, situated in another district, were argued and submitted to the court for decision.

The Court—having duly considered the entire record, the evidence offered and received, the arguments of counsel, and being fully advised in the premises—finds, concludes and decides, as follows:

That the Findings of Fact, Conclusions of Law and Decree, made and filed herein October 20, 1931, insofar as it is therein found, concluded, and decreed, in substance, that the Humboldt River Stream-System be divided into two districts, with the division between the upper and lower districts fixed at Palisade,

Nevada, and fixing the date of May 15th of each year as the approximate date before and after which the water in said stream-system should be distributed to appropriators situated in the lower or upper district, respectively, and denied to appropriators, of equal or earlier priorities, situated in the upper or lower district, respectively, as specifically appears at pp. 29–30, 52, 243–244 of said Findings of Fact, Conclusions of Law and Decree—are invalid and void.

That the Court, in the above entitled Matter, same being a special proceeding under the Water Code, has no authority, right or power, by decree, to divide the Humboldt River Stream-System into districts and fix a definite date as the controlling factor, for the distribution of the water of the stream-system, by districts, to appropriators and claimants thereof, thereby distributing all the waters of the stream-system, prior to or after said fixed date, to the appropriators and claimants in one district, to the exclusion of appropriators and claimants in another district, although such appropriators or claimants in the district so denied water may have priorities equal to or earlier than appropriators or claimants in the district to whom the water would, under such decree, be distributed; that any such decree, dividing the Humboldt River Stream-System into districts, and decreeing that the waters of the stream-system should be distributed by districts and before or after the definite fixed date, for the distribution of the water in one district without distributing water to appropriators entitled thereto in another district, would in fact abrogate the theory of priorities, and invade, impair and destroy the vested property rights of appropriators or claimants entitled to receive, but under such decree denied, water for beneficial purposes and uses, as authorized by the Water Code of Nevada.

IT IS, THEREFORE, ORDERED, ADJUDGED AND DECREED, by the Court: 1. That all of the finding of fact No. 45, appearing on page 29 of said Findings of Fact, Conclusions of Law and Decree, be, and the same hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

2. That the finding of fact No. 46, including the typewritten rider pasted thereon, appearing at page 29 in said Findings of Fact, Conclusions of Law and Decree, be, and the same hereby is, amended changed and corrected so as to read as follows, to wit:

46

The Court finds that the growing season in Lovelock and the lower reaches of the Humboldt River is earlier than the growing season in Elko County, and that the temperatures in the upper reaches are lower than in Lovelock. The Court further finds that the temperature varies between Battle Mountain and Lovelock, as well as between Lovelock and Elko. The Court finds from the evidence that there is a difference in the irrigation season between Battle Mountain and Lovelock, and a difference in the irrigation season between Winnemucca and Lovelock; that the Battle Mountain District irrigates earlier than the Elko district. The evidence shows the most economical method of irrigation on the Humboldt River is to begin irrigation at Lovelock in the earlier spring and progress up stream to the Elko District. Such a system of irrigation is the most economical and the only system that will serve the proper priorities on the entire stream system, and the Court finds from the evidence that this was the system under which the water rights along the Humboldt River were initiated and used since the first irrigation on said stream system.

"Flash streams" are streams that have a sudden or flash flow or flush flow for a comparatively brief period of time, while such stream is

draining the particular basin or source of supply fed by melting snows. Periods of flush flow in such socalled flash streams vary, as more particularly indicated in finding of fact No. 38. These flash streams in varying degrees are typical of the necessity of cumulating the flow during the flush for the particular rights to be served. Where lands are entitled to irrigation from such flash streams, they must be served at the times when the water is available.

That all that portion of said finding of fact No. 46, including said typewritten rider pasted thereon, at page 29, not hereinabove set forth, be, and the same hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

3. That all of the finding of fact No. 47, appearing on pages 29 and 30 of said Finding of Fact, Conclusions of Law and Decree, be, and the same hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

4. That all that portion of the Conclusions of Law, appearing on page 52 of said Findings of Fact, Conclusions of Law and Decree, and reading as follows:

"The Decree to be entered, for the purpose of distributing the water to claimants and appropriators, shall divide the stream system into two districts. Areas located below Palisade shall be designated as District Number One. Areas located above Palisade shall be District Number Two"

be, and the same hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

5. That the typewritten rider pasted on page 53 of said Findings of Fact, Conclusions of Law and Decree, be, and the same hereby is, amended, changed and corrected by inserting therein, after the word "have" and before the word "not," in line 3 of said typewritten rider, the words "or have," so as to make said line 3 of said typewritten rider read: "which said agreements or decrees have or have not been mentioned in."

6. That the "Final Judgment and Decree," appearing on pages 243 and 244 of said Findings of Fact, Conclusions of Law and Decree, be, and the same hereby is, amended, changed and corrected in the following way and manner, to wit:

a. That all the interlineations made by pen and ink on page 243, said interlineations reading "within the districts hereinafter created" and "for the period or season or time of year in which the said right attaches as herein provided," be, and said interlineations hereby are, stricken, so as to make said Decree read as therein printed, beginning with the words "IT IS FURTHER ORDERED, ADJUDGED AND DECREED that except, in the first line at the top of said page 243, and continuing down to and including the words "by law shall not be prohibited or affected by this decree," in the last line of the third paragraph on said page 243 of said Decree;

b. That the typewritten rider pasted on page 243 of said Findings of Fact, Conclusions of Law and Decree be, and the same hereby is, amended, changed and corrected, by inserting therein, after the word "have" and before the word "not," in line 3 of said typewritten rider, the words "or have," so as to make said line 3 of said typewritten rider read: "which said agreements or decrees have or have not been mentioned in."

c. That all that part and portion of the printed decree beginning with the printed words "the said stream," in line 6 from the bottom of said page 243, and continuing down to and including the printed words "lower district," in line

8 of page 244 of said decree; and also all the pen and ink interlineations appearing at and near the top of said page 244; and also the typewritten rider pasted on said page 244, and near the top thereof, and beginning with the words "That all water flowing," and continuing down to and including the words "equal priorities," being the last words in said typewritten rider; be, and all and each portion so designated herein, hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree, so as to make said Decree, as so amended, changed and corrected, and beginning with the words "IT IS FURTHER ORDERED, ADJUDGED AND DECREED that for," appearing in line 8 from the bottom of said page 243, and continuing down to and including the printed words "lower district," in line 8, page 244, and the typewritten rider pasted near the top of page 244, read as follows:

> IT IS FURTHER ORDERED, ADJUDGED AND DECREED that for the purpose of distributing the waters of the Humboldt River stream-system and its tributaries in accordance with the provisions of this decree, the State Engineer, or Water Commissioner, shall commence the distribution of water flowing in said stream system, excepting flash streams, to the users thereof, at the time specified in the decree, under the heading "Length of Season," as limited and enlarged herein. The delivery of water to appropriators shall progress from the lower reaches of the river until appropriators in the upper reaches thereof have been served. In the distribution of water to appropriators, the Water Commissioner shall give due consideration to the growing season in different localities, the supply of water available in each season, the beneficial use thereof, the climatic conditions prevailing along the river in each irrigation season, the matter of transmission loss, evaporation and seepage and of the time required for the transportation of water from the upper to the lower sections of the stream system.

d. That paragraph 2 on page 244 of said Findings of Fact, Conclusions of Law and Decree, beginning with the words "IT IS FURTHER ORDERED, ADJUDGED AND DECREED," in the first line of said paragraph, and in line 9 on said page 244, and continuing down to and including the words "in accordance with this Decree," being the last words in said paragraph, and appearing in line 17 on said page 244, be amended by adding the letter "s" to the word "section," and by inserting between the figures "36A" and the word "of" the words and figures "and section 36½," appearing in line 10 on page 244, so as to make said portion read as follows:

> "IT IS FURTHER ORDERED, ADJUDGED AND DECREED that, subject to section 36A and Section 36½ of the Water Code"

and continue as printed to the end of said paragraph, ending with the words "in accordance with this Decree."

e. That all that part and portion of the printed Decree appearing on page 244 thereof, beginning with the words "That the rate of flow in District No. 1," appearing in line 18, and continuing down to and including the printed words "stream system," appearing in line 26 on said page 244, same constituting paragraphs 3 and 4 of said page 244, be, and all and each portion so designated herein, hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

f. That after the words "Humboldt stream system and its tributaries in accordance with this Decree," appearing in line 17, page 244 of said Findings of Fact, Conclusions of Law and Decree, said Decree is amended, changed and corrected by adding thereto the following, to wit:

The rate of flow from Palisade to the lowest user on the stream system is based upon an irrigation season of the following approximate lengths—180 days for Class A lands; 90 days for Class B lands; 45 days for Class C lands. That the rate of flow from Palisade to the users on the head waters of Humboldt River stream system is based upon an irrigation season of the following approximate lengths—120 days for Class A lands; 60 days for Class B lands; 30 days for Class C lands. The State Engineer and Water Commissioner in distributing water to the appropriators will give due consideration to the head required to distribute the water over the land and to the water which returns to the stream system.

7. *IT IS FURTHER ORDERED, ADJUDGED AND DECREED. That the clerk of the above entitled Court be, and he hereby is, directed and ordered to amend, change and correct the printed copy of the Findings of Fact, conclusions of Law and Decree, of date and filed in the above entitled Court and Matter, October 20, 1931, so as to make said Findings of Fact, Conclusions of Law and Decree conform to and with these "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree," by striking from the printed copy those portions herein ordered to be stricken, and by pasting typewritten riders in the proper places of said Findings of Fact, Conclusions of Law and Decree, as herein adjudged and ordered.

DONE in open Court this 8th day of February, 1934.

H. W. EDWARDS,
District Judge Presiding.

*The order that the clerk amend, change and correct the printed Findings of Fact, Conclusions of Law and Decree of October 20, 1931, held null and void by Judge J. M. Lockhart, page 5, sec. 4, Later Orders.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed June 14, 1934—J. W. Davey, Clerk

E. J. L. Taber, Attorney for Rufus H. Kimball

ORDER CORRECTING CLERICAL ERRORS

It appearing to the court from the motion of Rufus H. Kimball, and the affidavit of his attorney, E. J. L. Taber, in support thereof, that there are two clerical errors on page 160 of the printed Findings of Fact, Conclusions of Law and Decree, filed herein on the 20th day of October, 1931, to wit—(a) Hunter-Banks Company is named as claimant, whereas its successor in interest, Rufus H. Kimball, should be so named, and (b) the $E\frac{1}{2}$ of the $NW\frac{1}{4}$ of Section 8, Township 36 North, Range 54 East, M. D. B. & M., is incorrectly described as the $E\frac{1}{4}$ of the $NW\frac{1}{4}$ of said section in said township and range—and the interested parties having stipulated that an order be made directing the correction of said errors:

NOW, THEREFORE, IT IS ordered by the court that said corrections be made in accordance with said claimant Rufus H. Kimball's motion, and the clerk is hereby directed to make said changes on said page 160 of the printed Findings of Fact, Conclusions of Law and Decree, by changing Hunter-Banks Company to Rufus H. Kimball, and by changing "$E\frac{1}{4}NW\frac{1}{4}$" to "$E\frac{1}{2}NW\frac{1}{4}$".

Dated June 8th, 1934.

H. W. EDWARDS,
District Judge.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed June 14, 1934—J. W. Davey, Clerk

E. J. L. Taber, Attorney for Filippini Ranching Company

ORDER CORRECTING CLERICAL ERRORS

It appearing to the court from the motion of Filippini Ranching Company, a corporation, and the affidavit of its attorney, E. J. L. Taber, in support thereof, that there are two clerical errors, one on page 19 and the other on page 118, of the printed Findings of Fact, Conclusions of Law and Decree, filed herein on the 20th day of October, 1931, to wit: (a) on page 19 Proof No. 00168 is erroneously printed Proof No. "00165," and (b) on page 118, in the column of section numbers on the line which, as now printed, reads "1878 34.10 .... SW¼SE¼ 832 46 3-15—9-15 .277 102.30," being the fifty-fourth listed priority on said page 118, the figure "8" is printed by mistake and should be the figure 9. And the interested parties having stipulated that an order be made directing the correction of said errors:

NOW, THEREFORE, it is ordered by the court that said corrections be made, in accordance with said claimant Filippini Ranching Company's motion, and the clerk is hereby directed to make said changes on page 19 and page 118 respectively of said printed Findings of Fact, Conclusions of Law and Decree, by changing Proof No. "00165" to Proof No. 00168, and by changing the figure "8" to the figure 9.

Dated June 8th, 1934.

District Judge.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed October 3, 1934.—J. W. Davey, Clerk

ORDER AMENDING DECREE, BY SUBSTITUTING WILLIAMS ESTATE COMPANY, A CORPORATION, IN PLACE OF HUMBOLDT LAND AND CATTLE COMPANY, AS BEING THE OWNER OF CERTAIN LANDS AND ENTITLED TO DIVERT WATER FOR THE IRRIGATION THEREOF FROM THE HUMBOLDT RIVER.

The above-entitled matter came regularly on for hearing on February 5, 1934, pursuant to the order of the Court granting a new trial upon certain severable issues, including the substitution of the WILLIAMS ESTATE COMPANY, a corporation, as being the owner of the lands and water rights hereinafter described, instead of the HUMBOLDT LAND AND CATTLE COMPANY, and upon motion and introduction of the records of the case applicable thereto, and there being no objection, and counsel present in court consenting thereto:

IT IS ORDERED: That the decree filed herein on October 20, 1931, be and the same is hereby amended so that the following described lands, to-wit:

> All those certain lots, pieces or parcels of land situate, lying and being in the County of Eureka, State of Nevada, bounded and particularly described as follows, to-wit:
>
> Section One, Township Thirty-one North, Range forty-eight East, M. D. B. & M.: East Half of Southeast Quarter, Section thirty-six, Township Thirty-two North, Range Forty-eight East, M. D. B. & M.; Southwest Quarter, West Half of Southeast Quarter of Section Thirty-one, Township Thirty-two North, Range Forty-nine East, M. D. B. & M., containing about 956.42 acres.

Set forth and described on pages 97 and 99 of said Decree, and therein described as belonging to the said Humboldt Land and Cattle Company, with the respective priorities, diversion rights, ditch rights and water rights appurtenant and decreed thereto, be changed so as to read that said above described lands and the said priorities, diversion rights, ditch rights and water rights belong and are decreed to the said Williams Estate Company, instead of to the said Humboldt Land and Cattle Company; and be it

FURTHER ORDERED: That the Clerk of this Court be and he is hereby instructed to draw a line in red ink, through lines 1 to 20, both inclusive, on page 97 of said Decree, under the designation "Source—Humboldt River. Ditch—Beowawe No. 2" in the middle of said page 97, and insert a typewritten or printed slip on page 207 of said Decree, as follows:

Williams Estate Company. 00154

Done in Open Court this 1st day of October, 1934.

H. W. EDWARDS,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed November 24, 1934—J. W. Davey, Clerk

E. P. Carville, Attorney for Petitioner, S. A. Merkley

ORDER AND JUDGMENT CORRECTING RECORD

The petition of S. A. Merkley, of Elko, Nevada, was filed herein on the 24th day of October, 1934, praying for a correction of the records in the above entitled matter in the particulars hereinafter specifically set forth.

That thereafter and on the 31st day of October, 1934, notice was duly given to all interested parties of the filing of said petition, and that the hearing upon the same would be had before the above entitled court on the 19th day of November, 1934, at the hour of 10:00 o'clock a. m. of said day in the court room of the above entitled court in the court house at Winnemucca, Nevada; that said notice was given by mailing a copy thereof, attached to a certified copy of the petition, to all interested parties, postage prepaid, and mailed in the United States Post Office at Reno, Nevada.

That thereafter, and before the said 19th day of November, 1934, Milton B. Badt, Esquire, an attorney at law residing at Elko, Nevada, filed on behalf of certain of his clients a demurrer to said petition.

This matter came on regularly to be heard before the above entitled court on the 19th day of November, 1934, at the hour of 10:00 o'clock a. m. of said day, E. P. Carville, Esquire, appearing for the petitioner, and no other party or attorney representing any other party appearing, the court proceeded to a consideration of the questions raised by the demurrer. A motion was made by counsel for the petitioner that the demurrer be overruled upon the ground that there was no merit to the provisions set forth therein. The court granted said motion on the ground stated, and upon the further ground of the failure of the prosecution thereof, and said demurrer was ordered overruled.

The court then proceeded to hear said petition and received in evidence the oral testimony of Robert A. Allen and S. A. Merkley besides documentary evidence contained within the files and records of this case. From all of which it is made to appear to the satisfaction of the court that the evidence received herein prior to the entry of the original judgment in this case entitled the petitioner herein to the decree of this court that he is the owner of the particular water rights set forth in his present petition, and that in entering said judgment herein the court has inadvertently omitted to insert in said decree such specific water rights of said petitioner and to therein adjudge petitioner to be the owner thereof.

The original records under Proofs Nos. 00358 and 00361 show, among other things, testimony of witnesses to the effect that in 1868 the Merkley and Young lands set forth in said petition were irrigated from McCutcheon Creek, and that in the year 1871 a portion of said lands was irrigated from Smith Creek.

Included in, and as a part of said original record, is the following statement by Deputy State Engineer B. G. McBride:

> "The witnesses state it is impossible to determine the amount of water that is used from McCutcheon Creek and Smith Creek on the land between the two creeks: This will, therefore, have to be considered as both creeks jointly."

Said original records further show, among other things, that the priorities contained in the order of determination heretofore filed in this action were arrived at and agreed upon by the Elko County Water Users Association.

WHEREFORE, and by reason of the premises, and for the purpose of correcting a mistake inadvertently made by this court in omitting from the original judgment entered and filed herein on the 20th day of October, A. D. 1931, and for the purpose of amending and correcting the records and said original judgment, it is ORDERED, ADJUDGED and DECREED that said petition be granted;

And it is accordingly ORDERED, ADJUDGED and DECREED that the judgment herein entered on October 20, 1931, be, and the same hereby is corrected nunc pro tunc as of the 20th day of October, A. D. 1931, as follows: Fixing the date of priority of the use of waters from McCutcheon Creek in Elko County, Nevada, on the lands hereafter described, as of the year 1868, and fixing the date of priority of the use of the water rights of Smith Creek in said Elko County, Nevada, on the lands hereafter described, as of the year 1871;

That petitioner and S. S. Young are adjudged to be the owners of the particular water rights as set forth in the present petition and as applied to the streams and lands herein designated;

That the lands which have been irrigated, are now being irrigated, and to be irrigated from said McCutcheon Creek, and jointly from said McCutcheon Creek and said Smith Creek, and to which this order applies, are described as follows, to wit:

SE¼ of NE¼, Section 36, Township 30 N., R. 56 East,
NW¼ of NE¼, Section 36, Township 30 N., R. 56 East,
NE¼ of NW¼, Section 36, Township 30 N., R. 56 East,
SW¼ of NE¼, Section 36, Township 30 N., R. 56 East,
SE¼ of NW¼, Section 36, Township 30 N., R. 56 East,
NW¼ of SE¼, Section 36, Township 30 N., R. 56 East,
SE¼ of SW¼, Section 36, Township 30 N., R. 56 East,
NE¼ of SW¼, Section 36, Township 30 N., R. 56 East,
NW¼ of SW¼, Section 36, Township 30 N., R. 56 East,
SW¼ of SW¼, Section 36, Township 30 N., R. 56 East,
SE¼ of SE¼, Section 35, Township 30 N., R. 56 East,
NW¼ of NE¼, Section 2, Township 29 N., R. 56 East,
NE¼ of NE¼, Section 2, Township 29 N., R. 56 East,
SE¼ of NE¼, Section 2, Township 29 N., R. 56 East,
SW¼ of NE¼, Section 2, Township 29 N., R. 56 East,

That this order is intended to correct, and does correct, an error contained in the records of the above entitled case, and shall be construed to have no effect upon the priority, acreage, classification or amount of water allotted to any other water user under the terms of the aforesaid judgment made and filed herein on October 20, 1931.

DONE IN OPEN COURT, this 19th day of November, 1934.

H. W. EDWARDS,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed February 11, 1935—J. W. Davey, Clerk

ORDER CORRECTING TYPOGRAPHICAL ERRORS IN DECREE

The Notice of Motion and Motion of Charles S. Aldous was filed herein on the 21st day of January, 1935, for an order correcting typographical errors appearing in page 115 of the Judgment and Decree entered and filed in the above cause on the 20th day of October, 1931, in the particulars hereinafter specifically set forth.

Thereafter and on the same date, to-wit: the 21st day of January, 1935, notice was duly given to all interested parties of the filing of said Notice of Motion and Motion, and that the hearing upon the same would be had before the above-entitled Court on the 6th day of February, 1935, at the hour of ten o'clock, A. M., in the courtroom of the above-entitled court, in the Court House at Winnemucca, Nevada, or as soon thereafter as the matter could be heard; that said Notice of Motion was given by mailing a copy thereof attached to a copy of the Motion and Affidavit of Charles S. Aldous, to all interested parties, postage fully prepaid, and mailed in the United States Post Office at Reno, Nevada, as appears by the affidavit of mailing thereof on file herein; that thereafter the above-entitled Court entered its order continuing the hearing of said matter to the hour of 10 o'clock, A. M., on February 11, 1935.

The matter came on regularly to be heard before the above-entitled Court on said February 11, 1935 at 10 o'clock, A. M. of said day; Roy W. Stoddard, Esq. appearing for the movant and no other party or attorney representing any other party appearing, the Court proceeded with the hearing of said motion. The Motion was presented by counsel and oral and documentary testimony was taken in support thereof;

And it appearing that the movant, Charles S. Aldous is the successor in interest to Land Development Company and is now the owner of the lands described at page 115 of said Judgment and Decree entered in the above cause on October 20, 1931 under the name of said Land Development Company, and that the said Land Development Company filed its claims and proof of claims to the water rights set forth in said Decree, and that the abstract of claims, the cultural maps or plats of said lands, the Preliminary Order of Determination and the Final Order of Determination of the State Engineer of the State of Nevada,—all of which appear of record in the above-entitled matter, designate and describe the lands listed at said page 115 of said Decree under the titles

"Claimant—Land Development Company
Source—Humboldt River
Ditch—Layton"
and
"Source—Humboldt River
Ditch—Rocky Point"

as being in "Range 45" in each line and specific description under said titles, except the description in line number 10 under said title "Claimant—Land Development Company, etc.," which reads "Section 1, Township 32, Range 44"; and it appearing that at page 115 of said Decree, through mistake and inadvertence, typographical errors appear in the last five lines in the description of said lands in the Column "R" under the title

"Claimant—Land Development Company
Source—Humboldt River
Ditch—Layton"

and similarly in each of the twelve lines under the title

"Source—Humboldt River
Ditch—Rocky Point"

the Range number being erroneously designated, is given as "44" instead of "45," and that said errors are typographical occurring in said designated lines through mistake and inadvertence.

Therefore, it is

ORDERED, ADJUDGED AND DECREED: That the said Judgment and Decree entered and filed herein on October 20, 1931, be and the same is hereby amended and corrected so that at page 115 thereof under the titles

"Claimant—Land Development Company
Source—Humboldt River
Ditch—Layton"
and
"Source—Humboldt River
Ditch—Rocky Point"

the location of the lands described shall appear in each instance as being in Range 45, instead of Range 44 as now designated and described under said titles at page 115 in said Decree, excepting that under the title "Claimant—Land Development Company, etc.," on said page 115, the description and location of the land appearing on line 10 shall remain unaltered in said Decree, which description reads "Section 1, Township 32, Range 44"; and it is further

ORDERED, ADJUDGED AND DECREED: That the Clerk of this court shall with pen and ink, in each of the last five lines under the said title

"Claimant—Land Development Company
Source—Humboldt River
Ditch—Layton"

and likewise in each of the twelve lines under the title

"Source—Humboldt River
Ditch—Rocky Point"

strike the figures 44 where they appear under the column indicating Range as "R," and in each of said descriptions and each of said lines under said column "R" insert in pen and ink the figures "45" in lieu of the stricken figures "44."

Done in Open Court this 11th day of February, 1935.

L. O. HAWKINS,
District Judge.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

Filed March 11, 1935—J. W. Davey, Clerk

Stoddard and Jurgenson, Attorneys for Movant

ORDER CORRECTING CLERICAL ERRORS IN DECREE

The Notice of Motion and Motion of Zabulon Silve was filed herein on February 25, 1935, for an Order correcting typographical errors appearing on pages 99 and 100 of the Decree entered and filed in the above cause on October 20, 1931, in the particulars hereinafter specifically set forth.

Thereafter and on the same date, to-wit: February 25, 1935, notice was duly given to all interested parties of the filing of said Notice of Motion and Motion, and that the hearing upon the same would be had before the above-entitled Court on the 11th day of March, 1935, at the hour of ten o'clock, A. M., in the courtroom of the above-entitled court, in the Court House at Winnemucca, Nevada, or as soon thereafter as the matter could be heard; that said Notice of Motion was given by mailing a copy thereof, attached to a copy of the Motion and Affidavit of Roy W. Stoddard, to all interested parties, postage fully prepaid, and mailed in the United States Post Office at Winnemucca, Nevada, as appears by the affidavit of mailing thereof on file herein.

The matter came on regularly to be heard before the above-entitled Court on said March 11, 1935, at 10 o'clock, A. M., of said day; Roy W. Stoddard and John A. Jurgenson, Esqrs. appearing for the movant and no other party or attorney representing any other party appearing, the Court proceeded with the hearing of said motion. The Motion was presented by counsel and oral and documentary testimony was taken in support thereof;

And it appearing that the movant, Zabulon Silve, sometimes known as Zeb Silve and sometimes known as Z. Silve, is the successor in interest of E. A. Duvivier, and is now the owner of the lands described at pages 99 and 100 of said Judgment and Decree entered in the above cause on October 20, 1931, under the name of Golconda Cattle Co.; that Proofs of Claim No. 00156 filed in the above cause by the Golconda Cattle Co. disclose upon their face that E. A. Duvivier was in fact the owner of said lands and water rights and that likewise the Abstract of Claims, the Preliminary Order and the Final Order of the State Engineer discloses that said lands and water rights should have been decreed to said E. A. Duvivier instead of Golconda Cattle Co. and that the testimony taken before Assistant State Engineer, Ira MacFarland, on October 20, 1931, discloses that said lands and water rights should have been decreed to E. A. Duvivier, and that through a typographical and clerical error in the preparation of said Decree of October 20, 1931, the said name Golconda Cattle Co. was used instead of the correct name of E. A. Duvivier;

Therefore, it is

ORDERED, ADJUDGED AND DECREED: That the said Judgment and Decree entered and filed herein on October 20, 1931 be and the same is hereby amended and corrected so that commencing with the last paragraph on page 99 thereof under the title:

"Claimant—Golconda Cattle Co.
Source—Humboldt River
Ditch—Aemes Dam"

and continuing on page 100 of said Decree under the same title, and also under the title:

"Source—Humboldt River
Ditch—Aemes Dam (Land of Duvivier)"

and also under the title:

"Source—Humboldt River
Ditch—Henderson"

and also under the title:

"Source—Humboldt River
Ditch—Outside Slough"

shall read:

"Claimant—E. A. Duvivier
Source—Humboldt River
Ditch—Aemes Dam"

and continuing on page 100 of said Decree, said Decree shall read:

"E. A. Duvivier—Continued."; and it is

further

ORDERED, ADJUDGED AND DECREED: That the Clerk of this court shall with pen and ink, strike the words "Golconda Cattle Co.," where they appear on said page 99, and insert with pen and ink, in lieu thereof, the words "E. A. Duvivier"; and the said Clerk shall with pen and ink, strike the words "Golconda Cattle Co.," where they appear on said page 100, and insert with pen and ink, in lieu thereof, the words "E. A. Duvivier."

Done in Open Court this 11th day of March, 1935.

L. O. HAWKINS,
District Judge.

SECTION NO. 3

FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE OF JUDGE H. W. EDWARDS, KNOWN AS THE EDWARDS DECREE

No. 2804

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT

In the Matter of the Determination of the Relative Rights of Claimants and Appropriators of the Waters of the Humboldt River Stream System and Its Tributaries.

FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE

H. W. EDWARDS,
Former Judge Presiding.

Filed this 8th day of October, 1935
J. W. DAVEY, *Clerk.*

THE EDWARDS DECREE

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

FINDINGS OF FACT, AND DECREE IN CALLAHAN ESTATE, DUNPHY ESTATE, FILLIPINI RANCHING CO., AND APPLICATION OF DOCTRINE OF RELATION TO NONCONTESTANTS.

JUDGMENT AND DECREE

IT IS ORDERED, ADJUDGED AND DECREED that the claim of J. A. Callahan Estate, and its successors in interest, proof No. 00104, for 200 cubic feet of water per second for the operation of a power plant-quartz mill with a priority of 1876, as awarded in the Final Order of Determination, on page 40, made and filed in the above-entitled Court on January 17, 1923, be and the same is hereby disallowed and denied, and the rights of this claimant are no other or different from priorities set forth in the Findings of Fact, Conclusions of Law and Decree of October 20, 1931.

JUDGMENT AND DECREE

WHEREFORE, IT IS ORDERED, ADJUDGED AND DECREED that the claim of said Filippini Ranching Company for an 1862 or 1863 priority for Pickett Island Ranch and for a priority of 1869 for Argenta Ranch is disallowed and denied, and the rights of this claimant are no other or different from the priorities set forth and contained in the Findings of Fact, Conclusions of Law, and Decree of October 20, 1931.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

CORRECTED FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE UPON NEW TRIAL RE WM. DUNPHY ESTATE, ITS SUCCESSORS, T. S. CATTLE COMPANY AND X. RODWELL MEYER.

BE IT REMEMBERED that the above-entitled matter came regularly on to be and was further heard and tried by the above-entitled Court on February the 8th and 9th, 1934, pursuant to, and in accordance with, the order of Court filed March 18, 1932, granting new trials upon several separable issues, including new trial re claim of Wm. Dunphy Estate, its successors, T. S. Cattle Company and X. Rodwell Meyer, the issues involved in said new trial being confined and limited to

> the question of claimant's right to the increases in priorities, acreage and changed classification as awarded in the Findings and Decree.

Gray Mashburn, Attorney-General of the State of Nevada, appeared on behalf of the State of Nevada, the State Engineer, and all other claimants and appropriators who had filed no exceptions to the Order of Determination, filed herein January 17, 1923. Other exceptors, being claimants to some of the waters of said Humboldt River stream system, appeared by their respective attorneys, Prince A. Hawkins, Roy W. Stoddard, John A. Jurgenson, J. D. Skeen, E. J. L. Taber, Morley Griswold, and Milton B. Badt.

All questions of fact, presented by the record and the evidence herein, and all principles of law applicable to or concerning the claim of William Dunphy Estate, its successors, T. S. Cattle Company and X. Rodwell Meyer, "limited to the question of claimant's right to the increases in priorities, acreage and changed classification as awarded in the Findings and Decree," as set forth in the order granting the new trial re claim of Wm. Dunphy Estate, its successors, T. S. Cattle Company and X. Rodwell Meyer, as above stated, were argued and submitted to the Court for decision.

The Court, having duly considered the entire record, the evidence offered and received, the arguments of counsel, and being fully advised in the premises, finds, concludes and decides as follows:

That the claim of claimant, Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X. Rodwell Meyer, for increased acreage, or increased acre feet of water, or changed classification, or changed water duty, or changed priorities, other or different from those matters as set forth in the Final Order

of Determination, filed in the above-entitled matter January 17, 1923, are not, neither are any of said matters, established by the record and the evidence in the above-entitled matter.

That the Dunphy Estate maps, originally made by Engineer Tilden, were checked in detail by J. A. Miller, and rechecked by J. V. Mueller, both Deputy State Engineers, and a report made showing the discrepancies appearing in the said Dunphy Estate maps, was offered and admitted in evidence and became a part of the record in the above-entitled matter. That the said original Tilden maps were not accepted by the State Engineer as being "substantially correct," and the said Tilden maps, as changed, corrected and modified by various reports and examinations, were offered and admitted in evidence; that during the hearing of the above-entitled matter, prior to the "Opinion and Decision," filed herein January 2, 1931, upon exceptions to the State Engineer's determination of the acreage, culture and water rights of the Dunphy Estate, instead of contending that the rights of the Dunphy Estate should be granted as shown by the original Tilden maps, the Dunphy Estate interests sought to uphold the award made to said claimant in the "Order of Determination."

That the year of priority, culture, acres, location, length of season, and the duty of water in the above-entitled matter of said Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X. Rodwell Meyer, are as hereinafter set forth, and as appear in said "Order of Determination," at pp. 124–143, at pp. 154–167, and at pp. 189–195.

THEREFORE, the Court concludes: That the record and evidence, including the testimony offered upon the hearing upon the new trial, does not warrant, and furnishes no basis, for any increase in acreage, or in acre feet of water, or any change in classification or culture of the lands, or the water duty, or the priorities, from that as fixed in said Order of Determination; and, since the issues to be considered upon the new trial re Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X. Rodwell Meyer, were "limited to the question of claimant's right to the increases in priorities, acreage and changed classification, as awarded in the Findings and Decree," claimant's claims for increased acreage, or increased acre feet, or increased water duty, or changed classification, or culture, or changed priorities, should be denied; that claimant's rights in said matters are no other or different than those as set forth in said Order of Determination.

IT IS THEREFORE ORDERED, ADJUGED AND DECREED by the Court:

That the claims of claimant, Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X Rodwell Meyer, for increased acreage, and increased acre feet of water, or increased water duty, or changed classification or culture, or changed priorities, be, and the same hereby are, and each is, denied.

That all that portion of said Findings of Fact, Conclusions of Law and Decree, filed in the above-entitled Court and matter October 20, 1931, being the eight pages of typewritten matter inserted facing page 130, and taking the place of said page for T. S. Cattle Co. and the pages continuing thereafter to and inclusive of page 136, down to and ending with the last entries of X. Rodwell Meyer on said page 136, be, and the same hereby is, stricken from said Findings of Fact, Conclusions of Law and Decree.

That the year of priority, culture, classification, acres, location, length of season and duty of water of claimant, Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X. Rodwell Meyer, be, and the same hereby are, as follows:

EIKO Co.

Taylor Field

That in lieu of, and as taking the place of said eight pages of typewritten matter, hereinabove designated and ordered stricken from said Findings of Fact, Conclusions of Law and Decree, and in lieu of, and as taking the place of the matter printed under the heading "Claimant—T. S. Cattle Co.," beginning on page 130 of the printed Findings of Fact, Conclusions of Law and Decree, and continuing down to and including all that portion of the printed page 136, ending with the last entries for X. Rodwell Meyer on said page 136, the hereinabove adjudicated rights of claimant, Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X Rodwell Meyer, be, and they are hereby, inserted facing page 130 in said printed Findings of Fact, Conclusions of Law and Decree, and shall take the place of said page for claimant, T. S. Cattle Co., and the pages continuing thereafter to and inclusive of page 136, down to and ending with the last entries for X. Rodwell Meyer on said page 136 of said printed Findings of Fact, Conclusions of Law and Decree, as the, and as the only, adjudicated rights of claimant, Wm. Dunphy Estate, its successors, T. S. Cattle Co. and X. Rodwell Meyer, showing year of priority, culture, classification, acres, location, length of season and duty of water.

*IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the Clerk of the above-entitled Court be, and he hereby is, directed and ordered to amend, change and correct the printed copy of the Findings of Fact, Conclusions of Law and Decree, of date and filed in the above-entitled Court and matter October 20, 1931, so as to make said Findings of Fact, Conclusions of Law and Decree conform to and with these "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree," by striking from the printed copy those portions thereof herein ordered to be stricken, and by pasting typewritten or printed pages in the proper place of said Findings of Fact, Conclusions of Law and Decree, as herein adjudged and ordered.

*The order that the Clerk amend, change, and correct the printed Findings of Fact, Conclusions of Law and Decree of October 20, 1931, held null and void by Judge J. M. Lockhart, see Decision of Judge Lockhart, page 5, post.

FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE UPON NEW TRIAL IN RE APPLICATION OF DOCTRINE OF RELATION TO CLAIMANTS ON PAGE 31 OF THE FINDINGS OF FACT OF OCTOBER 20, 1931, BEGINNING WITH THE WORD "L. N. CARPENTER" AND ENDING ON PAGE 46 THEREOF WITH THE FIGURES "1905."

The above-entitled matter came regularly on to be, and was further, heard and tried by the Court on the 9th and 10th days of February, 1934, pursuant to, and in accordance with, the Order of this Court filed March 18, 1932, granting new trials upon separable issues, including a new trial upon the question of the application of the doctrine of relation to the claimants named on pages 31 to 46 of the Findings of Fact, Conclusions of Law and Decree of October 20, 1931, the issues involved in said new trial being limited to:

1. The authority of the Court to direct the Attorney-General to prepare Findings and apply the doctrine of relation to noncontest cases; and

2. Does the application of the doctrine of relation to the noncontest cases exceed that demanded in the complaint?

Gray Mashburn, Attorney-General of the State of Nevada, appeared on behalf of the State of Nevada, the State Engineer, and all claimants and appropriators who had filed no exceptions to the Order of Determination, filed herein January 17, 1923, and said claimants and appropriators appearing also by their attorneys Morley Griswold, Milton B. Badt and E. J. L. Taber, and exceptors, being claimants to some of the waters of said Humboldt stream system, appeared by their respective attorneys, Prince A. Hawkins, Roy W. Stoddard and John A. Jurgenson.

All questions of fact, presented by the record and the evidence therein, and all principles of law applicable to, or concerning the application of the doctrine of relation to the claimants named on pages 31–46 of the Findings of Fact, Conclusions of Law and Decree of October 20, 1931, being limited to "the authority of the Court to direct the Attorney-General to prepare findings and apply the doctrine of relation to noncontest cases" and whether "the application of the doctrine of relation to the noncontest cases exceeded that demanded in the complaint," as set forth in the order granting a new trial in relation to said application of the doctrine of relation, as above stated, were argued and submitted to the Court for decision.

The Court, having duly considered the entire record, the evidence offered and received, the arguments of counsel, and being fully advised in the premises, finds, concludes, and decides as follows:

That the award of increased or changed priorities to the persons or claimants named on page 31 of the Findings of Fact, Conclusions of Law and Decree, beginning with the word "L. N. Carpenter" and ending with the figures "1905" on page 46, or appearing elsewhere in said Decree, other or different from those set forth in the Final Order of Determination, filed in the above-entitled matter January 17, 1923, are not and neither is any of said increases or changes in priorities established by the record and the evidence in the above-entitled matter.

That no exceptions or objections were made or filed to the said Order of Determination within the time provided by law or at all; that, at the hearing upon the Final Order of Determination before the Court for the settlement and adjudication of said claims, no change was made or proof submitted to the Court to authorize or justify said increases or changes in priorities, but that said

claimants represented to the Court that said Final Order of Determination in respect thereto should be sustained and upheld.

THEREFORE, THE COURT CONCLUDES that the record and evidence submitted upon the new trial does not warrant, and furnishes no basis for, such increases or changes in priorities to the persons or claimants named on pages 31–46, or where such increases or changes appear elsewhere in said Findings of Fact, Conclusions of Law and Decree, from that as fixed in said Final Order of Determination; that the Court was without authority to direct the Attorney-General to prepare Findings and apply the doctrine of relation to said-named claimants; that the application of the doctrine of relation to said claimants was without authority of law and void, and that claimants' claims to the increased or changed priorities should be denied; that their, and each of their, rights in said matters are no other or different than those as set forth in said Final Order of Determination.

IT IS THEREFORE ORDERED, ADJUDGED AND DECREED that the claims of the persons and claimants named on page 31 of the Findings of Fact, Conclusions of Law and Decree of October 20, 1931, beginning with the word "L. N. Carpenter" and ending on page 46 with the figures "1905," or where such increases or changes in priorities appear elsewhere in said decree, be, and the same are, and each is, denied.

That all that portion of said Findings of Fact, Conclusions of Law and Decree, beginning on page 31 thereof with the word "L. N. Carpenter" down to and including the figures "1905" on page 46, and where said increases or changes appear elsewhere therein other or different than awarded in the Final Order of Determination, be, and the same hereby are, stricken from said Findings of Fact, Conclusions of Law and Decree.

AND IT IS FURTHER ORDERED, ADJUDGED AND DECREED by the Court that the priorities of the persons and claimants named on page 31 of the Findings of Fact, Conclusions of Law and Decree, beginning with the word "L. N. Carpenter" and ending with the figures "1905" on page 46 thereof, or where the same appear elsewhere in said Decree, be and the same are as follows:

(*)That certain agreement signed by T. F. Brennen and J. Hennen in regard to the division of the waters of Young Creek, as recorded in Elko County, Book 4 of Miscl. Records, pages 186 and 187, is binding as between parties to the agreement. The "miner's inch" referred to shall be defined as being the amount of water that will flow through an opening of one square inch and under a six-inch head. The parties to this agreement are to construct and maintain a device in Young Creek in the NW¼NW¼, Sec. 14, T 32 N, R. 57 E, that will automatically divide the stream according to the said agreement, the plans for said device to be approved by the State Engineer.

Reference is made to stipulation between Huntington and Diamond Valley Land and Stock Co. and J. J. Hylton, Merkley & Young and Frank Odiaga, regarding the use of waters of Huntington Creek. See Appendix A.

These lands were included in the suit H. H. Porch vs. U. Lani et al., No. 1644 Elko County Records. After listing dates and areas they were pooled and then listed in accordance with the decree.

That certain agreement signed by T. F. Brennen and J. Hennen in regard to the division of the waters of Young Creek, as recorded in Elko County, Book 4 of Miscl. Records, pages 186 and 187, is binding as between the parties to agreement. The "miner's inch" referred to shall be defined as being the amount of water that will flow through an opening of one square inch and under a six-inch head.

The parties to this agreement are to construct and maintain a device in Young Creek in the NW¼NW¼, Sec. 14, T. 32 N, R. 57 E, that will automatically divide the stream according to the said agreement, the plans for said device to be approved by the State Engineer.

Before irrigating more land from Spring Creek than the 65 acres dated 1880, claimant is to have 3/5 c. f. s. flowing over a weir in Spring Creek between the water hole on Elko-Lamoille road and the bridge where the Pleasant Valley road cross Spring Creek, up to August 15 of each year. After August 15 there must be 4/5 c. f. s. flowing over said weir before irrigation of any more land from Spring Creek other than the 65 acres. These restrictions are in accordance with judgment and decree No. 1621—Yowell v. Bellinger, Elko County Records. Said judgment and decree are binding as between parties to the suit.

As far as possible claimant is to use the waters of Smiley Creek, Dry Gulch, and Little Hall Canyon Creek before taking any water from Herder Creek; the balance of the water required for irrigation to be taken from Herder Creek.

NOTE—In addition to irrigation rights claimant has a vested right from Herder Creek for domestic and stock watering purposes in NE corner of Sec. 33 with a date of 1902. Claimant not to divert water from Herder Creek to the NE corner of Sec. 33 as long as there is sufficient water from other sources for domestic and stock watering purposes in said section.

*In order to comply with the decree in the case of H. H. Porch and H. F. Porch v. Antone Sestenovich, No. 1548, 80 acres of land now belonging to J. J. Hylton, Claim No. 00655, and being in sections 1, 2, 11 and 12 in T. 28 N., R. 55 E., with dates as follows: 40 acres in 1899, 34.36 acres in 1900, 5.64 acres in 1901, are to be supplied with water from Brown, Pearl, and Frost Canyon Creeks before any water is allowed to flow into Huntington Creek from these streams for the irrigation of land now belonging to Odiaga with a prior date of 1889 from Huntington Creek. Decrees mentioned are of Elko District Court.

NOTE—"It is agreed between Merkley & Young and J. J. Hylton that sufficient water will be allowed to run down Lindsay Creek and Twin Creek at all times for stock watering purposes in the following-described lands: Sec. 35, T. 28 N., R. 55 E.; Sec. 2, T. 27 N., R. 55 E.; Secs. 6 and 7, T. 27 N., R. 56 E., and Secs. 1 and 12, T. 27 N., R. 55 E., and such agreement is binding upon parties to agreement."

These lands were included in the suit H. H. Porch v. U. Lani et al., No. 1644, Elko County Records. After listing dates and areas they were pooled and then listed in accordance with the decree.

APPENDIX A

Stipulation Between Huntington and Diamond Valley Land and Stock Company and J. J. Hylton, Merkley & Young, and Frank Odiaga, Regarding the Use of Waters of Huntington Creek.

"It is stipulated between claimant and J. J. Hylton, S. A. Merkley and S. S. Young and Merkley & Young, a copartnership, and Frank Odiaga, that in order to settle the existing claims to the flood waters of Huntington Creek, they agree as follows: That said Hylton, Merkley, Young, Merkley & Young, and Frank Odiaga claim no right to any of the springs located upon or rising upon the lands of said corporation for irrigating purposes, or for any waters that may be developed by the development of any or all of these springs, and that said waters, if developed, may be used upon any of the lands of said corporation;

"That they do not claim for irrigation purposes any of the waters of Huntington Creek or its tributaries within the lands of the corporation after the flood season, which ends during each year within the period from about March 15 to April 1, and they do not claim any right whatsoever to any of said waters during the irrigating season of each year after said flood season;

"And it is agreed by said corporation that it will, during each year, allow flood waters to run in their natural courses as they are wont to flow from the place where said flood waters enter the head of the channel to a point in the NW¼NE¼ of 15, 26–55, to the end of said flood season for the use of the other parties to this stipulation below the northern extremity of the lands of said corporation, it being understood that nothing herein contained shall be construed to prevent the said corporation from using said flood waters for the purpose of irrigating lands below the NW¼NE¼ of 15, 26–55, at any time in accordance with their priorities on the stream, and in and to said waters and upon the land shown on map as meadow and pasture to the north of said point;

"And it is understood and agreed that nothing herein contained shall interfere with the turning of sufficient waters by said corporation into the natural watercourses and ditches to provide stock water for the parties immediately adjacent to said lands of said corporation;

"And it is further stipulated, in order to adjust existing claims upon the stream that said corporation will after the hay has been cut and stacked each year, and during and after the dry season, and after supplying its existing and necessary demands for stock watering purposes, shall prior to distributing any water for irrigation purposes, to wit, on the 1st day of September of each year, turn into the channel water for stock watering purposes for the use of the other parties to this stipulation, in a quantity sufficient to cause it to flow in its natural channel a distance of one-half mile below the northerly boundary fence on the land of said corporation. This water to be used for stock watering only, and not for irrigation."

APPENDIX B

Co-Op Ditch

The Co-Op Ditch was constructed in 1893, and carries water from Ackler Creek into Herder Creek.

No water is to be turned into said Co-Op Ditch until all rights on Ackler Creek prior to 1893 have been satisfied.

The following claimants have a vested right from Ackler Creek through the Co-Op Ditch into Herder Creek:

Lands of: C. H. Black, S. M. Davis, John Riddell, Wm. Goodale, Hylton &

Mentz, W. W. Weathers, James O'Brien, Wilbur Smiley, E. A. Hylton (Lane Estate), John Crossen, W. J. Smiley, E. C. Riddell, Geo. Byers (Priority—1893).

*IT IS FURTHER ORDERED, ADJUDGED AND DECREED that the Clerk of the above-entitled Court be, and he hereby is, directed and ordered to amend, change and correct the printed copy of the Findings of Fact, Conclusions of Law and Decree of date, and filed in the above-entitled Court and matter, October 20, 1931, so as to make said Findings of Fact, Conclusions of Law and Decree, conform to and with these "amended, changed and corrected Findings of Fact, Conclusions of Law and Decree" by striking from the printed copy all that portion of page 31 beginning with the word "L. N. Carpenter" and down to and including the figures "1905" on page 46 thereof, and by striking all other matters of a similar nature appearing in the Decree proper where those persons' rights have been set forth, so as to make the Decree, when so corrected, eliminate all matter referred to in the Findings of Fact appearing at pages 31 to 46 aforesaid.

H. W. EDWARDS,
Judge Presiding.

Dated this 7th day of October, 1935.

*The order that the clerk amend, change and correct the printed copy of the Findings of Fact, Conclusions of Law and Decree of October 20, 1931, held null and void by Judge J. M. Lockhart, see Decisions of Judge Lockhart, page 5, sec. 4, Later Orders.

CORRECTION OF ERROR

NOTE—The word "Corrected" was inadvertently printed in the title reading "Corrected Findings of Fact, Conclusions of Law and Decree Upon New Trial Re Wm. Dunphy Estate, Its Successors, T. S. Cattle Company and X. Rodwell Meyer," page 5, Edwards Decree, ante. Such title should be read with the word "Corrected" deleted.

NOTE—That part of the note at bottom of page 31, Edwards Decree, ante, reading "page 5, post" should read "page 5, sec. 4, Later Orders."

SECTION NO. 4

LATER ORDERS AND DECISIONS OF JUDGE J. M. LOCKHART

NOTE—The above orders and decisions, excepting the Decision on Motion of John M. Marble and Others to Strike Parts of Amended, Changed and Corrected Findings of Fact, as Made and Entered by the Honorable H. W. Edwards December 26, 1934, and to Modify the Same, and to Substitute New Findings in Place Thereof, and for a Further Order, Striking the Said Amended, Changed and Corrected Findings of Fact from the Files, filed September 13, 1935, and the Decision on Motion of Hibernia Savings and Loan Society, filed September 13, 1935, were made and entered between the time of the filing of the Edwards Decree, October 8, 1935, and the issuance of the Writ of Prohibition by the Supreme Court of Nevada in Carpenter v. District Court, March 19, 1937.

LATER ORDERS AND DECISIONS OF JUDGE J. M. LOCKHART

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed September 13, 1935—J. W. Davey, Clerk

DECISION ON MOTION OF JOHN M. MARBLE AND OTHERS TO STRIKE PARTS OF AMENDED, CHANGED AND CORRECTED FINDINGS OF FACT, AS MADE AND ENTERED BY THE HONORABLE H. W. EDWARDS DECEMBER 26, 1934, AND TO MODIFY THE SAME, AND TO SUBSTITUTE NEW FINDINGS IN PLACE THEREOF, AND FOR A FURTHER ORDER STRIKING THE SAID AMENDED, CHANGED AND CORRECTED FINDINGS OF FACT FROM THE FILES.

This motion came on for hearing on the 22d and 23d days of July, 1935, at Winnemucca, Humboldt County, State of Nevada, and was taken under advisement by the court.

The matter was very ably argued, and the court has given a great deal of consideration to the arguments made and to the citations cited by the attorneys. The question to be decided by the court is: Whether the failure of the court to serve its findings thirty days before they shall be signed by the court invalidates the findings filed and judgment entered December 26, 1934, by the Honorable H. W. Edwards, then presiding in this matter. It is conceded by counsel for all parties that such service of findings was not made as required by Section 35 of our Water Code, but that without such service the court filed what it termed its amended, changed and corrected findings of fact, conclusions of law and decree, and the court must now decide what effect shall be given to them. Our Supreme Court has held

> "No express findings were made. In their absence the law implies findings in favor of the judgment." Wilson v. Wilson, 23 Nev. 267.
>
> "The findings of fact contemplated by the statute is the written statement of each issuable fact established by the evidence. From these determined facts the conclusion of law is deduced. The decision is the announcement by the court of its judgment, and although based upon the settled facts of the case, such facts may never be reduced to writing so as to constitute findings within the meaning of that term as used in the civil practice act. It is a matter of frequent occurrence for

courts to announce judgment, and afterwards to prepare the findings. The decision may be rendered after or before the filing of findings, or, as is frequently the case, no findings may be made. The decision is therefore distinct from the findings, and the time within which notice of intention to move for a new trial must be given begins to run from the announcement of the judgment." Elder v. Frevert, 18 Nev. 278.

In our Practice Act there is no requirement for making and filing findings of fact. The only provision is Section 8784 which provides they may be waived, and that "In all cases where the court directs a party to prepare findings a copy of said proposed findings shall be served upon all parties who have appeared in the action at least five days before findings shall be signed by the court, and the court shall not sign any findings therein prior to the expiration of such five days."

That applies only when the court shall direct a party to prepare findings, and does not apply when the court makes its own findings or does not make any findings.

We find many cases where the trial court files a written decision and makes such statements as to the facts proved in the case as to make findings only a repetition of the decision and of no value, and consequently findings are dispensed with.

The court may and often does file a written decision which includes a judgment and decree so that no further action is necessary except the entry of the judgment and decree by the clerk.

The decisions are in conflict as to whether or not the provision in our code as to the service and signing of the findings of fact are mandatory or merely directory, but the court does not feel that in the present action this question is of any importance.

The matter of the determination of the relative rights of the claimants and appropriators of a stream system under the laws of this state is a special proceeding and governed by the statute which gives the court jurisdiction to hear the matter in its own peculiar form.

"It must be conceded that it is the province of the legislature to establish within constitutional limits the rules, not only of procedure, but for the determination of rights, by which the courts shall be governed. * * *

"The proceeding is a special proceeding applicable to a specified subject-matter and suitable to the end which the state seeks to accomplish, namely, to protect all the collective users of water, secure a just distribution, and perpetuate water rights in a public record under such safeguards for the protection of individual rights as the settled maxims of the law permit and sanction.

"* * * The declaration that the order of determination, the statements or claims of claimants, and exceptions made to the order of determination shall constitute the only pleadings in the cause demonstrates that the procedure is not to be measured by the standard of ordinary judicial proceedings." Humboldt L. & C. Co. v. District Court, 47 Nev. 396.

Anyone at all familiar with the Humboldt River Determination knows that the procedure outlined in our Water Code has been held constitutional in every respect in numerous decisions.

"The water law is a special statutory proceeding brought into effectual existence after much travail to meet a great public need. The law meets every demand for a full, fair and just determination of the rights of every water user. It safeguards the rights of every water user by giving him the benefit of a stay of the order of determination until the final decree and every advantage of a full, judicial hearing and determination in the district court. Though these rights are secured to him, he must avail himself of them by proceeding in the manner outlined in the water law. The law is constitutional, and there is no contention to the contrary. * * *

"This being a special statutory proceeding, no right to appeal exists unless it is expressly conferred by the statute. Coffin v. Coffin, 40 Nev. 345, 163 P. 731." In Re Water Rights, 49 Nev. 357, pages 363–4.

Coming now to a consideration of Section 35 of the Water Code as it relates to the findings of fact and judgment and decree.

It reads in part: "If no exceptions shall have been filed with the clerk of the court as aforesaid, then on the day set for hearing the court may take further testimony if deemed proper, and shall then enter its findings of facts and judgment and decree. On the day set for hearing, all parties in interest who have filed notices of exceptions as aforesaid shall appear in person or by counsel, and it shall be the duty of the court to hear the same or set the time for hearing, until such exceptions are disposed of, and all proceedings thereunder including the taking of testimony shall be as nearly as may be in accordance with the rules governing civil actions; provided, however, that the provisions of the civil practice act shall not apply respecting the service of proposed findings of fact and decree or service and filing of a cost bill, but that such service shall be made in the following manner. All claimants who have filed exceptions or objections to the final order of determination shall be served with a copy of the proposed findings of fact and decree by serving the attorney who appeared for such claimants in said proceedings. All claimants or water users who shall not have filed exceptions or objections to the final order of determination shall be served with a copy of the proposed findings of fact and decree by serving a copy thereof on the attorney-general of the State of Nevada. Such service, in each instance, shall be made at least thirty (30) days before the findings and decree shall be signed by the court, and the court shall not sign any findings therein prior to the expiration of such thirty days."

Therein we have the entire procedure laid down for the district court to follow.

The court does not feel that it is necessary in this case to quote authorities as to statutory construction as you are all of too many years' experience as lawyers to need such citations. All that is needed is to apply fundamental rules of statutory construction to this question. There is no need to give a "strained" construction to any part of it.

As Justice Coleman said in the case In Re Water Rights, supra, this section of the Water Code, the same as all the other sections, was "brought into existence after much travail to meet a great public need."

No one can doubt for a moment that when the legislature enacted this law,

the Humboldt River Stream System was one of the few systems deemed to need just such a law as was enacted and that the law was drafted to meet conditions on this stream system; it probably was held more in mind than any other system in the state.

The statute as to this section is clear and unambiguous and interpretation would be out of place, and each word therein should be given its usual and customary meaning.

It provides that when the order of determination has been filed and no exceptions are taken thereto, "the Court * * * shall then enter its findings of facts and judgment and decree."

Where exceptions are filed there shall be hearings thereon until all exceptions are disposed of, and "shall be as nearly as may be in accordance with the rules governing civil actions," except as to "the service of proposed findings of fact and decree or service and filing of a cost bill, but such service shall be in the following manner": Upon the attorneys for contestants and upon the attorney-general for noncontestants. This section further provides "such service, in each instance, shall be made at least thirty (30) days before the findings and decree shall be signed by the Court" and then follows a positive prohibition "and the court shall not sign any findings therein prior to the expiration of such thirty days."

Often the court renders its decision as stated before and findings and decree follow later, and the decision is final as to the district court and the findings and decree must then follow the decision.

But this section provides for an entirely different manner and provides that the decision, signing the findings of fact and decree shall be at one time, in other words the decision shall not be made until proposed findings of fact have been served for a period of thirty days.

Having in mind the nature of this proceeding, the vast number of persons and interests involved, the great labor required to set forth such interests, the great amount of detail involved, all making for likelihood of error and mistakes, the legislature very wisely provided that an opportunity and ample time should be given for the correction of such errors and a chance given counsel in the case to call the court's attention to those matters in which the court may have been in error. The statute provides that it is not the findings which shall be served but that the "proposed" findings shall be served.

The word "shall" is used followed by words of absolute prohibition.

The word "shall" is sometimes construed to mean "may" when to otherwise construe it might lead to hardship and inconvenience. Dangberg v. Commissioners, 27 Nev. 469.

To construe it in this Humboldt River Matter as "may" and only directory leads and has lead to hardship and inconvenience, and of a certainty not as intended by the legislature.

We must at all times seek the legislative intent in construing a statute, and we must in this case see clearly that it was intended by this section to give an opportunity to the parties to the action to be further heard before final action be taken and the matter concluded in the district court.

Every court shall be guided by the statute in all procedural matters and carry out the plain meaning thereof and it is clear to this court that the legislature clearly provided for an interval of thirty days between the service of the findings and the signing of them thereby making the decision of the questions litigated and then pending before the court follow the findings and a full determination be had of the findings prior to the final entry of the judgment and decree.

Our Supreme Court has said:

> "In the case of State v. Ruhe, 24 Nev. 251, 52 P. 274, this court has held that the object of the interpretation of a statute is to ascertain and enforce the intention of the legislature. No sentence, clause, or word should be construed as unmeaning and surplusage if a construction can be found legitimately which will give force and preserve all of the words of the statute. It is a canon of construction that, if it is possible, effect must be given to every word of an act." Seaborn v. District Court, 55 Nev. 206, page 219.

On December 31, 1930, the Hon. Geo. A. Bartlett, the judge then presiding, filed his opinion and decision in this matter, and ordered that findings be prepared and judgment be entered in accordance with his opinion and decision thus filed. In a few days he retired from office.

The legislature which convened shortly thereafter passed two acts which were duly approved, and which were clearly enacted in view of the Humboldt River situation; one amended Section 547 of our Civil Practice Act (Sec. 9036 N. C. L.) and enlarged the power of a retiring judge as to the findings of fact, conclusions of law and judgments and decrees in matters in which he made decisions when about to retire from office. 1931 Statutes of Nevada, 28.

The other was an amendment of Section 36 of our Water Code which, among other things, provided for such retired judge to hold hearings for the settlement of written findings of fact and conclusions of law and judgment and decree appertaining to such written decision so filed. 1931 Statutes of Nevada, 413.

On December 26, 1934, the Hon. H. W. Edwards, the judge then presiding in this proceeding and who was then about to retire from office, filed his written "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree" with the clerk of the court and this is the decision required by the amended Section 547 of our Civil Practice Act and the decision provided for in Section 36 of the Water Code.

Thereafter on January 16, 1935, various claimants filed motions for new trials as to their rights, and motions to strike parts of the "amended, changed and corrected findings of fact" so filed by the district judge, and a motion was made by interested parties to strike parts of said "amended, changed and corrected findings" of Judge Edwards, and to strike all of said findings and to substitute the Findings of Fact, Conclusions of Law and Decree made by Judge Bartlett filed October 20, 1931.

The requirements made by Judge Edwards for the clerk of the court to modify and change the original findings of fact, conclusions of law and decree of Judge Bartlett filed and entered in this proceeding will be ignored as the same is null and void from every point of view.

At this time the court wishes it distinctly understood that we fully realize that the order of determination is the complaint in this action and that as to noncontestants when a change is made in priorities from those set forth in the order of determination, they are thereby affected and should be given a right to be heard further in the proceeding, as every change made in such priorities changes the rights of all those in the class to which the priority has been changed as well as all subsequent priorities. They may well be understood to have accepted the order of determination as to their rights but not willing to accept any change therefrom adversely affecting their rights.

The court can find no right by which it can reinstate any findings of Judge Bartlett. New trials were ordered by Judge Edwards and we can only be concerned with his proceedings since that time.

The records of the clerk of this court show that no entry in the minutes of the court was made of the amended, changed and corrected findings of fact, conclusions of law and decree filed by Judge Edwards on December 26, 1934, in accordance with Section 547 of the Civil Practice Act as amended, but it does amount to a "decision" but is invalid as findings of fact and a decree. The judgment and decree must follow the findings of fact and conclusions of law where such findings of fact are required and in this proceeding such findings of fact are clearly required to support a valid judgment and decree.

It is the order of this court that the motion of John M. Marble and Robert E. Marble, and others, for an order striking the said findings of fact from the files be, and the same hereby is, granted, and that part of the motion to substitute and insert in lieu thereof the findings of fact, conclusions of law and decree of Judge Bartlett be, and the same hereby is, denied.

Dated at Ely, Nevada, this 12th day of September, 1935.

J. M. LOCKHART,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed September 13, 1935—J. W. Davey, Clerk

DECISION ON MOTION OF HIBERNIA SAVINGS & LOAN SOCIETY

On January 16, 1935, the Hibernia Savings and Loan Society filed its motion in this court to strike parts of the "Amended, Changed and Corrected Findings of Fact," as made and entered by the Hon. H. W. Edwards, December 26, 1934, and to modify the same and to substitute new findings in place thereof.

On July 22d and 23d, 1935, the said motion was argued and by the court taken under advisement.

The court has this day made its order on the motion of John M. Marble and others upon a state of facts almost identical with the state of facts as to this motion.

For the reasons set forth in such last mentioned order that part of the motion made by the movant as to striking from the files the "amended, changed and corrected findings of fact and conclusions of law" be, and the same hereby is, granted, and that part of the motion to substitute the findings of fact, conclusions of law and decree of Judge Bartlett be, and the same hereby is, denied.

Dated at Ely, Nevada, this 12th day of September, 1935.

J. M. LOCKHART,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804.

Filed December 5, 1936—J. W. Davey, Clerk

DECISION ON MOTION TO STRIKE PURPORTED AMENDED, CHANGED AND CORRECTED FINDINGS OF FACT, CONCLUSIONS OF LAW AND DECREE.

On October 28, 1935, John M. Marble and Robert E. Marble and others filed their motion to strike from the files in this matter, and declare null and void and of no effect, that certain instrument or document, entitled "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree" filed in this matter with the clerk of this court on the 8th day of October, 1935, and signed by H. W. Edwards, as Former Judge Presiding, on the grounds:

1. That they are not authorized by and are contrary to and in contravention of the statutes and laws of the State of Nevada.

2. That they were not signed by any person holding any judicial position or by any person authorized by law to sign the same.

3. That the same were signed by one H. W. Edwards, who was not the presiding judge at that time and for many months prior thereto had not been such presiding judge and was not clothed with any judicial or any authority to act in such matter at that time or for many months prior thereto.

4. That said action and said cause had been theretofore duly assigned to District Judge J. M. Lockhart, who was the presiding judge at the time the said H. W. Edwards signed the same.

5. That under the laws of the State of Nevada and the rules of the District Court, only one judge could preside in said cause at said time.

6. That the signing of the same was in violation of rules XLI, XLII and XLIII of the District Court.

7. That by the signing by the said H. W. Edwards of the "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree" filed December 24, 1934, he exhausted his powers and no further power existed in him except as to any matters that might have been properly brought before him during his term of office on due notice in the manner provided by law.

8. That if the act of 1931 purported to give the said H. W. Edwards, former presiding judge, authority to sign amended findings, etc., on October 8th, 1935, after having purported to have signed amended findings, etc., on the 26th day of December, 1934, after ceasing to be a district judge, and after said cause had been assigned duly, regularly and lawfully to another district judge, such statute would to such extent be unconstitutional and void.

9. That such signing and filing of the said amended findings, etc., on October 8, 1935, constituted a judicial act, and at that time the said H. W. Edwards was not clothed with any judicial powers.

10. That said findings, etc., constitutes in a form a cloud upon the title to

lands and water rights of the movants and is an interference with an obstruction to the orderly determination of the relative rights of the users of the waters of the Humboldt River system.

11. That the said findings, etc., are illegal, unlawful and contrary to the criminal statutes of Nevada, and void in that they direct the clerk to mutilate, change, modify and alter an original document and record in said cause.

12. That said amended findings, etc., are not and do not constitute findings of fact upon the issues involved, sufficient upon which to base conclusions of law and/or a final judgment or decree in the cause.

13. That said purported amended findings, etc., are not complete in themselves and are unintelligible.

14. That a final decree could not be predicated upon them without further judicial proceedings.

15. That they are so indefinite, uncertain, incomplete and fragmentary as to be incapable of enforcement or as the basis of conclusions of law, judgment and decree.

16. That said amended findings, etc., are immaterial and surplusage, and comprise a fugitive document.

17. Chapter 25, Statutes of 1931, page 28, governing the signing and filing of findings of fact in adjudication suits is null and void and unconstitutional.

The record of this matter shows that on the 26th day of December, 1934, just a short time before his retirement from office as a district judge, the Hon. H. W. Edwards signed and filed in this court a document designated as "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree."

Thereafter the writer hereof, as District Judge Presiding in this matter, ordered the Findings of Fact, as set out in said document, stricken from the files.

In August, 1935, the said Former Judge served or had served other proposed findings of fact, and thereafter no exceptions or requests being made for a modification of said findings, filed in this court on October 8, 1935, and after more than thirty days had elapsed, a document designated as "Findings of Fact, Conclusions of Law and Decree."

This last document is exactly the same as the instrument filed December 26, 1934, mentioned above, except that pages 1 and 2, a notice of Attorney-General Mashburn, has been removed and parts of pages 5 to 12 inclusive have been crossed out, the words "Amended, Changed and Corrected" in the title on page 13, have been crossed out, and pages 40 and 49 have also been crossed out, and is signed H. W. Edwards, Former Judge Presiding, and dated October 7th, 1935.

It is exactly the same as the instrument served in August, 1935, except the word "Proposed" is used in designating the several Findings of Fact, etc., in the various titles.

Thereafter the above motion was filed as set forth above.

The court is confronted with a very serious situation, one which has so many serious complications that it feels the need of using extreme caution in making its decision.

The procedure followed by Former Judge Edwards closely follows what was done by Former Judge Bartlett, resulting in his decree of October, 1931.

It is contended that when the findings of fact of Former Judge Edwards was stricken out, he lost all right to do anything further in the matter.

The court must hold that his document filed December 26, 1934, was a decision as required of a retiring judge before going out of office; that when

the findings of fact were stricken out, his conclusions of law and decree likewise fell as not supported by any findings of fact as required by Section 35 of the water law. This left it open for him to file proposed findings, conclusions of law and decree as provided by the 1931 statute so familiar to all of us. This he did, and no exceptions having been filed to them except protests that he had no authority at that time to make and sign such findings, etc., he followed it up by signing and filing such findings of fact, conclusions of law and decree, and they are now records of this court.

The court can not feel that any new decision has been made by Former Judge Edwards or any judicial act performed by him, as all matters found in the decree of October, 1935, are found in his decision of December, 1934, not a change has been made affecting the right of any party to this adjudication; the October, 1935, decree is wholly within the "four corners" of the December, 1934, decision.

The court has continuously held that this is a special proceeding and its entire procedure is to be governed by the authority given it under the law providing for such proceedings.

Section 35 of the Water Code or Law provides "* * * all proceedings thereunder including the taking of testimony shall be as nearly as may be in accordance with the rules governing civil actions; provided, however, that the provisions of the civil practice act shall not apply respecting the service of proposed findings of fact and decree * * *." This section provides further as to the manner of the service of the proposed findings and decree and that the court shall not sign the proposed findings prior to thirty days after the service thereof.

It is to be noted that in only the matter of the service of the proposed findings of fact and decree and cost bill and the signing of the findings of fact and decree is a different rule or procedure applies than in the ordinary suit, and that after the filing of the order of determination and exceptions constituting all the pleadings in the case, the proceedings shall be as near as may be in accordance with the civil practice act, except as to findings and costs.

Clearly the 1931 Act applies to this matter, but not the amendment of Section 8784 N. C. L. as stated in the motion under consideration, but instead the amendment of Section 9036 N. C. L. which provides what a retiring judge may do. It just as clearly does not amend Section 35 of the Water Code but it does apply in that the proceedings shall be as near as may be in accordance with the civil practice act.

As I have said before, the amendment of Section 9036 N. C. L. by the 1931 session of the legislature was intended by the legislature to apply particularly to the Humboldt River Adjudication and such intention was well known generally throughout the state.

This amending act was approved February 20, 1931, and sub-section (b) of Section 36 of what we call the Water Code as amended by Chapter 223, statutes of 1931, approved March 30, 1931, expressly refers to said amending act of February 20, 1931, and provides compensation for such former judge when he shall hold "hearings for the settlement of written findings of fact and conclusions of law and judgment and decree appertaining to such written decision so filed."

In Nevada ever since February 19, 1867, the power has been given to district judges to perform certain acts after they have retired from office. This power has been changed from time to time by legislative action until now we have it as laid down in the act of February 20, 1931. It cannot be seriously

questioned that power may be given to such retired judge to do any act which does not involve judicial decision and that he may do any act of a ministerial nature necessary to give full force and effect to the decision which he has theretofore rendered prior to his retirement.

Rules XLI, XLII, and XLIII can have no application to this proceeding and question now under consideration, as the statute of 1931 clearly covers the question and makes the rules inapplicable.

This power of the legislature as first exercised almost seventy years ago has not been challenged and should not be now set aside except for the gravest reasons.

No one would seriously consider that the legislature under our constitution could confer upon such retired judge the right and power to exercise judicial functions especially such as rendering a decision in any matter.

It is the order of this court that the motion to strike the purported amended, changed and corrected findings of fact, conclusions of law and decree filed October 28, 1935, herein be, and the same hereby is, denied.

Dated at Ely, Nevada, this 3d day of December, 1936.

J. M. LOCKHART,
District Judge Presiding.

IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT.

IN THE MATTER OF THE DETERMINATION OF THE RELATIVE RIGHTS OF CLAIMANTS AND APPROPRIATORS OF THE WATERS OF THE HUMBOLDT RIVER STREAM SYSTEM AND ITS TRIBUTARIES. } No. 2804

Filed December 5, 1936—J. W. Davey, Clerk

DECISION ON MOTION FOR NEW TRIAL OF ISSUES DECIDED BY HON. H. W. EDWARDS, JUDGE PRESIDING, MADE BY KEARNS CORPORATION, SUCCESSOR TO ESTATE OF THOMAS KEARNS, FILED JANUARY 16, 1935.

Having decided that the motion to strike purported "Amended, Changed and Corrected Findings of Fact, Conclusions of Law and Decree," filed October 28, 1935, should be denied, it now becomes necessary to decide the motions for new trials which have been filed in this matter and of which the above is one.

The records show that Judge Bartlett in his decree applied and sought to apply the Doctrine of Relation to all water users of the Humboldt River System, including what he terms noncontest cases.

Judge Edwards has denied his right to do this.

The term "noncontest cases" designates only a class of water users, those who did not file exceptions to the order of determination as made and filed by the State Engineer.

Judge Bartlett very properly held they could not be adjudged to be in default.

A water user may be perfectly satisfied with the order of determination and perfectly willing that a final and binding decree may be made as thus set forth, but the moment a change is made and a greater right given to any user than is set forth in the order of determination which has been served upon him, he immediately becomes an actor entitled to protest and protect his right as given to him in the order of determination.

> "The very essence of any decree in such litigation (water adjudications) is the determination of the relative rights of the parties. This element of each right being relative to all others persists from the beginning to the end of the litigation, so, that the plaint of one party must affect all others in a greater or less degree." In Re Chewaucan River (Oregon), 171 Pac. 402, 175 Pac. 421.

The Doctrine of Relation is a most common sense rule of law, protecting initiated rights but must not be allowed to run to absurd results.

When a man has initiated his right, he should be entitled to a reasonable time in which to complete his right and put the water appropriated to a beneficial use.

This initiated right must rest in his intention and must be reasonable. A man may not commence to dig his ditch and put his dam in the stream and intend and claim a right to use the water upon all the land his eyes may see,

but it must be limited to what he may reasonably use and put to beneficial use within a reasonable time. Our Water Code providing for appropriation by application to the State Engineer limits this intention to the amount of water applied for and amount of land sought to be irrigated and when granted and applied to beneficial use relates back to the date of filing his application. Vested water rights must be measured as nearly as possible in a similar manner.

It is the duty of the court at all the stages of the proceedings to see that justice is done to all parties before it. Even though parties may admit certain facts to be true when in fact it is shown to the court by other evidence that such admission is not a fact, the court should not consider such admission but decide according to the facts proven.

This rule applies even though the admission of the party would bar a decision in his favor.

Judge Bartlett in his decree made many changes in the order of determination and he found as a fact that in many cases the doctrine of relation had not been applied while it had been applied in other cases. To protect the rights of those who were not in court as contestants, he made his order to the Attorney-General to apply it in all cases as shown by the record.

He expressed many times his desire to apply the same yard-stick to all claimants and users, and no just decree should be permitted by the court to stand unless this is done. The *final decree* will not be for a day but for all time.

This movant is included in the list of claimants named on page 31 of the Findings of Fact, Conclusions of Law and Decree of October 20, 1931, beginning with the words "L. N. Carpenter" and ending on page 46 with the figures "1905" and who were denied the increases and changes made by Judge Bartlett and attempted by Judge Edwards to make their rights only as set forth in the Order of Determination.

Judge Edwards limits the new trials to be held by him to two questions:

(1) The authority of Judge Bartlett to direct the Attorney-General to apply the Doctrine of Relation to noncontest cases; and

(2) Does the application of the Doctrine of Relation exceed in those cases that demanded in the complaint.

Judge Edwards does not seem to have answered these questions except that it may be inferred from his statement on page 50 of his findings, etc., "That no exceptions or objections were made or filed to the Order of Determination within the time provided by law or at all; that, at the hearing upon the Final Order of Determination before the court for the settlement and adjudication of said claims, no change was made or proof submitted to the court to authorize or justify said increases or changes in priorities, but that said claimants represented to the court that said Final Order of Determination in respect thereto should be sustained and upheld."

This does not answer the first question. The second question seems to be answered by his statement that no exceptions or objections were made or filed to the Order of Determination within the time provided by law or at all.

From this statement it appears that Judge Edwards held that such objections and exceptions must have been filed within the time provided for in Section 35 of the Water Code.

He refused to permit testimony to be introduced to show that the Doctrine of Relation had been applied to some and denied to others.

This court believes this was clearly an error of law occurring at the trial to the prejudice of the movant.

It is therefore ordered that the motion of Kearns Corporation for a new trial be, and the same hereby is, granted.

Dated at Ely, Nevada, this 3d day of December, 1936.

SECTION NO. 5

ALTERNATIVE WRIT OF PROHIBITION ISSUED BY THE SUPREME COURT OF NEVADA IN THE CASE OF CARPENTER v. DISTRICT COURT

OPINION AND DECISION OF THE SUPREME COURT IN CARPENTER v. DISTRICT COURT GRANTING A PERMANENT WRIT OF PROHIBITION PUTTING AN END TO THE ADJUDICATION. As Reported in 59 Nevada Supreme Court Reports at page 42.

IN THE SUPREME COURT OF THE STATE OF NEVADA

W. W. CARPENTER, JOHN FANT, and ANDREW JAHN,
Plaintiffs and Relators,

v.

SIXTH JUDICIAL DISTRICT COURT OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT AND J. M. LOCKHART AS PRESIDING JUDGE THEREOF,
Defendant and Respondent.

No. 3195

Filed March 31, 1937. George Brodigan, Clerk of Supreme Court. Jane Ward, Deputy.

John A. Jurgenson, Myron R. Adams, and Roy W. Stoddard, Attorneys for Plaintiffs and Relators.

ALTERNATIVE WRIT OF PROHIBITION

The plaintiffs and relators in the above entitled matter having made and filed their petition herein praying for a writ of prohibition against the defendant upon the grounds that the defendant was without and exceeded its jurisdiction in granting the new trials hereinafter mentioned, and good cause appearing therefore,

IT IS ORDERED that the defendant, J. M. Lockhart, as the Presiding Judge of the Sixth Judicial District Court of the State of Nevada, in and for the County of Humboldt in case No. 2804 thereof hereinafter mentioned, be, and appear before this court on the 28th day of April, 1937, at the hour of 10 o'clock A. M. of said date, at the court room thereof at Carson City, Nevada, and show cause, if any he has, why he should not be prohibited, enjoined and restrained from proceeding with the new trials granted by him as such Presiding District Judge pursuant to orders granting the same dated December 3, 1936, and filed December 5, 1936, in the cause entitled:

"No. 2804.

IN THE DISTRICT COURT OF THE SIXTH JUDICIAL DISTRICT OF THE STATE OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT

In the Matter of the Determination of the Relative Rights of Claimants and Appropriators of the Waters of the Humboldt River Stream System and its Tributaries."

and in the meantime and until said matter can be heard, the said J. M. Lockhart is hereby prohibited, enjoined and restrained from doing any of the things hereinabove specified.

DATED: This 19th day of March, 1937.

B. W. COLEMAN,
(Chief) Justice of the Supreme Court of Nevada.
EDW. A. DUCKER,
Justice of the Supreme Court of Nevada.

IN THE SUPREME COURT OF THE STATE OF NEVADA

W. W. CARPENTER, JOHN FANT AND ANDREW JAHN, PETITIONERS, *v.* SIXTH JUDICIAL DISTRICT COURT OF NEVADA, IN AND FOR THE COUNTY OF HUMBOLDT, AND J. M. LOCKHART, AS PRESIDING JUDGE THEREOF, RESPONDENTS.

No. 3195

December 7, 1937. 73 P.(2d) 1310.

1. WATERS AND WATER COURSES.
Exceptions to state engineer's determination of rights of water claimants may not be dispensed with, and questions to be decided in adjudication proceedings are limited to issues raised thereby (Comp. Laws, sec. 7922).

2. WATERS AND WATER COURSES.
The court had no jurisdiction, in adjudication proceedings, to award earlier and better priorities to water claimants who filed no exceptions to state engineer's order of determination, and hence court had no jurisdiction to grant new trial with view of restoring such priorities after they had been set aside by another judge (Comp. Laws, sec. 7922).

3. WATERS AND WATER COURSES.
Where water claimants obtained order setting aside adjudication decree on ground that doctrine of relation was improperly applied to give other claimants earlier and better priorities than were fixed by state engineer's order of determination, no other claimant could enlarge scope of proposition presented thereby so as to raise other questions (Comp. Laws, sec. 7922).

4. PROHIBITION.
Where adjudication decree, without jurisdiction, awarded earlier and better priorities than those fixed by state engineer's order of determination to water claimants who had not filed exceptions to order of determination, other claimants, who obtained order setting aside that portion of adjudication decree, were entitled to writ of prohibition against new trials that were subsequently ordered with view of reinstating original decree (Comp. Laws, sec. 7922).

ORIGINAL PROCEEDING in prohibition by W. W. Carpenter and others against the Sixth Judicial District Court of Nevada, in and for the County of Humboldt, and J. M. Lockhart, as Presiding Judge thereof. **Writ of prohibition granted.**

John R. Jurgenson, Myron R. Adams and *Roy W. Stoddard,* for Petitioners:

A new trial cannot be granted a claimant upon an issue that is not raised by the filing of exceptions to the state engineer's order of determination except in cases where the trial court, after submission and decision of the case, changes, modifies and alters the rights of noncontestants as specified and set forth in the state engineer's order of determination.

It was not within the power of Presiding Judge Lockhart to grant the new trials to the noncontestants when it appeared upon the face of the record that Presiding Judge Edwards reached the only conclusion which he could properly have reached on the record, that is that Judge Bartlett's findings and decree as to said noncontestants' priorities was void, there being no exceptions filed as provided by the water code.

Gray Mashburn, Attorney-General, *W. T. Mathews* and *W. Howard Gray,* Deputy Attorneys-General, for Respondents; *M. A. Diskin, Morley Griswold, McNamara & Robbins,* and *Milton B. Badt,* for Sundry Claimants:

The position of counsel for petitioners as to lack of jurisdiction of Judge Bartlett is not tenable for the following reasons:

1. Because, from the very nature of the proceedings, all of the claimants of water rights to the Humboldt river stream system were before the court in a "determination of the relative rights."

2. Your claimants herein filed exceptions, as shown by exhibits attached to the claimants' answer on file in the above-mentioned matter.

3. In adjudication cases it is not necessary that any exceptions or objections be filed in order to vest jurisdiction and to permit and authorize the trial court to enter a final judgment in accordance with law and facts. In re Water Rights in Silview River (Ore.), 237 P. 322; In re Rights to Use of Waters of Owyhee River (Ore.), 23. P.(2d) 206; sec. 35 of water code, being sec. 7922, N. C. L.

Certainly, the application of the doctrine of relation, a judicial theory, is such a phase of the adjudication as affects the entire stream system. Its application must be general along the entire stream. Section 35 of the water code certainly gives the court power to do equity as between the relative rights. Plain City Irr. Co. v. Hooper Irr. Co. (Utah), 51 P.(2d) 1069.

OPINION

By the Court, HATTON, District Judge:

This is an original proceeding in prohibition to restrain the Honorable J. M. Lockhart, as presiding judge of the Sixth judicial district court of the State of Nevada, in and for the county of Humboldt, or any other district judge who may hereafter preside in said cause, from proceeding with the new trials granted by the said district judge in the cause entitled: "In the Matter of the Determination of the Relative Rights of Claimants and Appropriators of the Waters of the Humboldt River Stream System and its Tributaries."

The order of determination of the state engineer, determining water rights on the Humboldt river system, was filed with the clerk of the Sixth judicial district court, in and for Humboldt County, on January 17, 1923. A number of claimants on the stream system filed their exceptions to the said order. Hearings on these exceptions were had before the Honorable George A. Bartlett, presiding district judge, whose findings and decree were subsequently filed and entered. In the said findings and decree, some 191 claimants, who had not filed exceptions in that regard, were awarded earlier and better priorities with respect to their water rights than had been allotted to them in the order of determination of the state engineer; such earlier and better priorities being based upon the application of the doctrine of relation in determining the dates of such priorities. The petitioners herein moved for and obtained an order, made by the Honorable H. W. Edwards, presiding district judge, setting aside the said Bartlett findings and decree, in part, and granting a new trial with respect to the application of the doctrine of relation to the 191 noncontest claimants above referred to. Upon such new trial, Judge Edwards made findings of facts and conclusions of law reciting that the application of the doctrine of relation to the said noncontest claimants by Judge Bartlett was without authority of law and void, and entered his decision and decree with respect thereto. To the latter decision motions for new trial were interposed, and were granted by Judge Lockhart. The claimants who sought and were granted new trials by Judge Lockhart took the position that all of the claimants on the river system should have the benefit of an investigation of the facts bearing on the application of the doctrine of relation. With approval of the movants' attitude, Presiding Judge Lockhart granted new trials, the scope of which would open to consideration and

adjudication the claims of all claimants on the river system which might now be presented, based on the doctrine of relation. The petitioners now seek to restrain the respondent court from proceeding with the new trials so granted by Judge Lockhart.

The petitioners contend that, because of the absence of exceptions to the order of determination of the state engineer on the ground of failure to apply the doctrine of relation, there are no issues on that subject presented in the pleadings upon which a new trial could be based. In answer to this, the respondents maintain that such issues may be raised, or may be deemed to be raised in the absence of such exceptions. Section 35 of the water law (section 7922 N. C. L.) provides as follows: "At least five days prior to the date set for hearing, all parties in interest who are aggrieved or dissatisfied with the order of determination of the state engineer shall file with the clerk of said court notice of exceptions to the order of determination of the state engineer, which notice shall state briefly the exceptions taken, and the prayer for relief, and a copy thereof shall be served upon or transmitted to the state engineer by registered mail. The order of determination by the state engineer and the statements or claims of claimants and exceptions made to the order of determination shall constitute the pleadings, and there shall be no other pleadings in the cause."

1. The exceptions, duly filed, perform functions of such importance that the necessity of filing them should not be dispensed with. It is the filed exception that gives notice to all other claimants as to the objections and demands of the exceptor. The purpose of the law is to limit the questions to be decided in the adjudication proceedings to issues raised by exceptions duly filed. In Humboldt Land & Cattle Company v. Sixth Judicial District Court, 47 Nev. 396, 224 P. 612, 614, this court said: "The section * * * requires all those aggrieved or dissatisfied to file notice of their exceptions with the clerk setting forth the grounds and prayer for relief, thus affording all parties in interest who are satisfied with the order of determination an opportunity to appear before the court and oppose any alteration or modification of the order as proposed by those excepting."

In the case of In re Water Rights in Humboldt River Stream System, 49 Nev. 357, 246 P. 692, 694, this court further said: "The water law is a special statutory proceeding brought into effectual existence after much travail to meet a great public need. The law meets every demand for a full, fair, and just determination of the rights of every water user. * * * Though these rights are secured to him, he must avail himself of them by proceeding in the manner outlined in the water law."

See, also, Ruddell v. Sixth Judicial District Court, 54 Nev. 363, 17 P.(2d) 693.

This court has held that a judgment which adjudges matters outside the issues raised by the pleadings is so far void. Schultz v. Mexican Dam & Ditch Company, 47 Nev. 453, 224 P. 804; Douglas M. & P. Co. v. Rickey, 47 Nev. 148, 217 P. 590.

2. As we view this matter, there was no jurisdiction as the basis for Judge Bartlett's order awarding the 191 noncontesting claimants an earlier and better priority than that fixed by the order of determination. If this is true, we fail to see how Judge Lockhart could have jurisdiction to grant a new trial with a view of restoring to these noncontesting claimants, or any of them, priorities which Judge Bartlett awarded, or any priorities other than those fixed in the order of determination.

3. The proceedings sought to be reviewed grew out of and are limited

solely to the attack on Judge Bartlett's decree as to the 191 noncontesting claimants, made by petitioners. No other claimant on the Humboldt river stream system attacked the Bartlett decree in this respect, so far as appears, and no other claimant, as a result of the motion on which Judge Edwards based his ruling, could enlarge the scope of the proposition presented by petitioners' application, upon which he acted, so as to extend to and raise questions other than was originally raised by the motion for a new trial.

4. It is argued on behalf of respondents that the record brought up by the petitioners is lacking in essential elements. Upon considering the objections in that regard, we find no essential element to be lacking.

For the reasons given, it is hereby ordered that the demurrers to the petition for writ of prohibition, and the motions to quash the alternative writ, are overruled, and that said Presiding Judge, J. M. Lockhart, or any other district judge who may hereafter preside in said cause, is prohibited, enjoined, and restrained from proceeding with the new trials granted by said presiding district judge in said court and cause by orders dated December 3, 1936, and filed therein on December 5, 1936.

The petitioners are allowed their costs in this proceeding.

NOTE—TABER, J., having disqualified himself, the Governor designated HON. WM. D. HATTON, Judge of the Fifth Judicial District, to sit in his stead.

ON PETITION FOR REHEARING

April 25, 1938.

Per Curiam:

Good cause appearing therefor, it is ordered that the various petitions for rehearing filed herein be and they are hereby granted.

It is further ordered that the case be set down for argument on Wednesday, May 25, 1938, at 10 a. m.

ON REHEARING

November 26, 1938. 84 P.(2d) 489.

1. WATERS AND WATER COURSES.
   Purpose of statute relative to proceeding for determining rights of appropriators of water, in providing that order of determination by state engineer, statements or claims of claimants, and exceptions made to order, should constitute pleadings, was to limit pleadings to those stated in statute. Comp. Laws, sec. 7922.
2. PLEADING.
   Purpose of pleadings is to define issues involved.
3. WATERS AND WATER COURSES.
   Purpose of statute relative to proceeding to determine rights of appropriators of water, in providing that aggrieved party should file exceptions to order of determination of state engineer, briefly stating the exceptions taken, was to provide method whereby an issue in the cause should be raised. Comp. Laws, sec. 7922.
4. WATERS AND WATER COURSES.
   Under statute relative to proceeding to determine rights of appropriators of water, which provides that, on day set for hearing with respect to order of determination of state engineer, all who have filed notices of exceptions to order should appear, and proceedings, including the taking of testimony, should be in accordance with rules governing civil actions, where exceptions are filed by some claimants, evidence is confined to issues raised by such claimants' exceptions, notwithstanding statute provides that in cases where no exceptions are filed court may take further testimony. Comp. Laws, sec. 7922.
5. WATERS AND WATER COURSES.
   In proceeding to determine rights of appropriators of water of a river system under water law, where number of users excepted to order of determination of state engineer, propriety of subsequent proceedings was to be determined by statutory

provision relative to cases where exceptions were filed and not by statutory provision relative to cases where no exceptions were filed, notwithstanding a number of water users failed to file exceptions. Comp. Laws, sec. 7922.

6. WATERS AND WATER COURSES.
Purpose of water law is to provide method whereby unappropriated water might be appropriated or whereby relative rights of appropriators of waters of public streams might be determined without great delay and expense to such appropriators, and to enable state to supervise the distribution of waters so that greatest good might be attained therefrom for development of agricultural resources. Comp. Laws, sec 7922.

7. STATUTES.
In interpreting a section of a statute, every portion of section must be given effect, and all portions must be harmonized.

8. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water of a river system under water law where claimants, who had been granted new trials which were limited to application of doctrine of relation, had not filed exceptions to order of determination of state engineer on ground of failure to apply doctrine of relation, claimants were not entitled to new trials so limited. Comp. Laws, sec. 7922.

9. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law, where decision of trial court in granting a motion for a new trial dealt exclusively with application of doctrine of relation, decision limited scope of such new trial and others granted in accordance with decision, to matter of applying such doctrine to facts presented, and claimant whose predecessor's exceptions raised issues other than application of doctrine was not entitled to new trial granted in accordance with decision. Comp. Laws, sec. 7922.

10. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law, where trial court, after filing findings and decree upon which notice of decision was given, later refiled same findings and decree because originally filed findings had not been served on parties before being signed by court, a claimant, who, following the refiling of the findings and decree, more than 10 days after original notice of decision was given, gave notice of motion for new trial, was not entitled to new trial since the 10-day period for giving notice of motion began to run from date of original notice of decision. Comp. Laws, sec. 7922.

11. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law, exceptions, to order of determination of state engineer, relative to request for substitution of name of successor claimant, duty of water, length of irrigation season, and claimed prescriptive right to use of waters, did not relate to application of doctrine of relation, and claimant, whose predecessor filed such exceptions, was not entitled to a granted new trial which was limited to application of such doctrine. Comp. Laws, sec. 7922.

12. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law, claimant who filed amended exception, to order of determination of state engineer, asserting a right to earlier priorities than those found by engineer, was not entitled to a granted new trial limited to application of doctrine of relation, since exception presented no issue for new trial so limited. Comp. Laws, sec. 7922.

13. NEW TRIAL.
A "new trial" is a reexamination of an issue of fact.

14. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law, where claimant sought to have added to decree of trial court a notation that a judgment in another suit should be binding between the parties, but notation did not appear in order of determination of state engineer and no exception was filed by claimant asking that notation be made, claimant was not entitled to new trial since there was no issue presented upon which a new trial could be had. Comp. Laws, sec. 7922.

15. WATERS AND WATER COURSES.
In proceeding to determine rights of appropriators of water under water law,

claimants whose predecessor filed an exception, to order of determination of state engineer, on question of reclassification of lands, was not entitled to a granted new trial limited to application of doctrine of relation, since there was no subject matter for new trial so limited. Comp. Laws, sec. 7922.

16. PROHIBITION.

Where, in proceeding to determine rights of claimants and appropriators of water under water law, trial court granted to some claimants new trials, some of which were limited to application of doctrine of relation upon exceptions to order of determination of state engineer which did not relate to application of doctrine, and others of which were granted upon notices for new trials which were given at too late a date, other claimants were entitled to writ of prohibition against new trials. Comp. Laws, sec. 7922.

On rehearing. Former opinion affirmed.

For former opinion, see 59 Nev. 42, 73 P.(2d) 1310.

John A. Jurgenson, Myron R. Adams and *Roy W. Stoddard,* for Petitioners.

Gray Mashburn, Attorney-General, *W. T. Mathews* and *W. Howard Gray,* Deputy Attorneys-General, for Respondents.

M. A. Diskin, Morley Griswold, McNamara & Robbins, and *Milton B. Badt,* for Sundry Claimants.

OPINION

By the Court, HATTON, District Judge:

A rehearing was granted in this matter.

Counsel for respondents contend that we misconstrued in our former opinion section 35 of our water law (sec. 7922, N. C. L.), in that we did not give full effect to that portion thereof consisting of the amendment of 1921.

The section in question reads: "§ 35. At least five days prior to the date set for hearing, all parties in interest who are aggrieved or dissatisfied with the order of determination of the state engineer shall file with the clerk of said court notice of exceptions to the order of determination of the state engineer, which notice shall state briefly the exceptions taken, and the prayer for relief, and a copy thereof shall be served upon or transmitted to the state engineer by registered mail. The order of determination by the state engineer and the statements or claims of claimants and exceptions made to the order of determination shall constitute the pleadings, and there shall be no other pleadings in the cause. *If no exceptions shall have been filed with the clerk of the court as aforesaid, then on the day set for hearing the court may take further testimony if deemed proper, and shall then enter its findings of facts and judgment and decree.* On the day set for hearing, all parties in interest who have filed notices of exceptions as aforesaid shall appear in person or by counsel, and it shall be the duty of the court to hear the same or set the time for hearing, until such exceptions are disposed of, and all proceedings thereunder, including the taking of testimony, shall be as nearly as may be in accordance with the rules governing civil actions."

That portion of the section which is italicized is the amendment of 1921. It seems that the legislature had in mind, in incorporating the 1921 amendment into the section, that one of two situations might confront the court in the adjudication of a stream system—one in which *no* exceptions are filed to the order of determination, and one in which exceptions are filed by one or more appropriators and none filed by those who do not deem themselves aggrieved by the order. It seems clear from a reading of the above section with the amendment of 1921

deleted, that if no exceptions are filed the court has no power to do else than to enter a decree in accord with the order of determination. What was the effect of the amendment of 1921? It is the contention of respondent that its effect was to open the matter wide for the taking of testimony as to the rights of each and every water user, even though some failed to file exceptions.

1-3. We must carefully consider the entire section, so far as material, in disposing of this contention. Let us now consider the sentence reading: "The order of determination by the state engineer and the statements or claims of claimants and exceptions made to the order of determination shall constitute the pleadings and there shall be no other pleadings in the cause." The sentence clearly indicates that it was the intention of the Legislature that the pleadings should be limited. The purpose of pleadings, as we know, is to define the issues involved. The section under consideration, in the first sentence thereof, provides that all *aggrieved* shall file with the clerk of the court exceptions to the order of determination, which shall state briefly the exception taken. The sole purpose of this provision was to provide the method whereby an issue could be raised.

4. The sentence following that incorporated by the act of 1921 provides that on the day set for hearing all parties in interest *who have filed notices of exceptions,* shall appear, and it shall be the duty of the court to hear the "same" until "such exceptions" are disposed of, "and all proceedings thereunder, including the taking of testimony, shall be as nearly as may be in accordance with the rules governing civil actions." The last sentence of the section clearly limits the taking of testimony, where exceptions are filed, to the issues raised by the exceptions filed. Even the taking of testimony is limited, by the express language of this sentence, to the issues raised by the exceptions. This is indicated by the words "the taking of testimony, shall be as nearly as may be in accordance with the rules governing civil actions." This quoted language must be construed to mean that the evidence must be confined to the issues raised, for in civil actions such is the practice.

5. The amendment applies to matters in which *no* exceptions are filed. In the instant matter hundreds of water users on the Humboldt river stream system excepted to the order of determination, although many filed no exceptions; hence this is not a case in which "no exceptions" were filed. We need not say what would be the length to which the court might go if absolutely no exceptions had been filed, because no such situation is here presented.

6. The contention of respondents, which is in effect that one noncontesting water claimant in a great stream system, after years of expensive litigation, could come in and throw open the stream system to another decade of litigation, is contrary to the spirit of the water law, which, as stated by Justice COLEMAN in Vineyard Land & Stock Co. v. District Court, 42 Nev. 1, 171 P. 166, is to provide a method whereby unappropriated water might be appropriated, or whereby the relative rights of appropriators of the waters of the public streams of the state might be determined without *great* delay and expense to such appropriators, and to enable the state to supervise and administer the distribution of such waters so that the greatest good might be attained therefrom for the development of our agricultural resources. If respondents are to prevail, these objectives are as far from consummation as they were in the beginning. In the adjudication of a stream as large as the Humboldt river some inequities are liable to result to water claimants.

7. To give the 1921 amendment the construction contended for by respondents would, in effect, nullify the other portions of the section to which we have

alluded. This we cannot do without doing violence to the well-known rule that every portion of a section must be given effect. All portions of the section must be harmonized.

We will now consider the eight petitions for rehearing which have been filed in this proceeding. In addition to the petition filed on behalf of the respondent court, there were joined in one petition for rehearing, on the doctrine of relation only, the following water claimants: Samuel McIntyre Investment Company, S. N. Bond, John M. Marble, Robert N. Marble, A. G. McBride, J. H. Carter Estate, H. H. Cazier, Kearns Corporation, Charles Dressi and Henderson Banking Company Mortgage Corporation. Separate petitions were filed in behalf of Hibernia Savings and Loan Society, T. S. Cattle Company, Rufus H. Kimball, A. G. McBride, S. N. Bond, H. H. Cazier and John H. Cazier Estate, for the rehearing of issues other than the application of the doctrine of relation. All of these claimants and petitioners seek a reversal of the order of this court of December 7, 1937, enjoining the trial court from proceeding with the new trials previously ordered. Twelve orders for new trial were made by the court below. With two exceptions, hereinafter referred to, the new trials so ordered were based upon timely notices of motion made in January 1935, and were ordered for the purpose of reviewing the facts in the light of the doctrine of relation.

8. With regard to the joint petition for rehearing filed on behalf of Samuel McIntyre Investment Company and others, our decision is determined by the fact that, while the new trials ordered were limited to the application of the doctrine of relation, the fact is that no exceptions on that subject were filed by any of these claimants, and hence no issues are presented as subject matter for the new trials so limited.

Turning next to the petition of the Hibernia Savings and Loan Society, it is found that two notices of motion for new trial were given by this claimant—one in January 1935, and the other in October 1935. The timely motion made in January was granted, the new trial being limited to the application of the doctrine of relation. Counsel for the claimants urges that it was not the intention of the court to so limit the scope of the new trial, but that it was intended that the same should go to the consideration of the issues raised by exceptions filed by the claimant's predecessor on grounds other than the doctrine of relation. The order of the court, in granting the new trial, reads as follows:

"In accordance with the decision of the court this day made granting the motion for a new trial made by Kearns Corporation.

"It is ordered that the motion of Hibernia Savings and Loan Society, successor to X. Rodwell Meyer, successor to William Dunphy Estate, filed January 16, 1935, be, and the same hereby is, granted."

9, 10. The decision of the court in granting the motion of Kearns Corporation for a new trial deals exclusively with the application of the doctrine of relation, and thereby limits the scope of the new trial to the matter of applying that doctrine to the facts presented. The issues raised by the exceptions of the claimant are therefore without the scope of the new trial order. A further order for new trial, not limited to the doctrine of relation, was granted this claimant, based upon its notice of motion given in October 1935. The question arises as to whether this latter notice was timely. Ten days from date of notice of decision are allowed for filing notice of motion for new trial. The notices filed in October were evidently filed on the theory that the time for filing had been extended by reason of the fact that Judge Edwards refiled his findings and decree (Exhibit 12). The occasion for the refiling lay in the fact that the findings had not been

served on the interested parties before their first signing by the judge. Respondents argue that the refiled findings and decree "contain many matters which are in effect matters of decision," and hence constitute the filing of the decision. The refiled findings and decree are identical with those filed in December 1934, upon which notice of decision was given in January 1935. Nothing was added thereto. The ten days for giving of notice of motion for new trial ran from the latter date. Hence the notice of motion for new trial given in October 1935 came too late.

As to the petition for rehearing filed on behalf of the T. S. Cattle Company, the only notice of motion for new trial on behalf of that claimant was the joint notice with Hibernia Savings and Loan Society, given and filed in October 1935. Such notice came too late, for the reasons above given. This is also true of the order granting a new trial to John M. Marble and others, based upon their joint notice of motion filed October 28, 1935.

11. As to the petition for rehearing filed on behalf of Rufus H. Kimball, it appears that the Hunter-Banks Company, a predecessor of Kimball, filed exceptions to the order of determination. These exceptions were four in number and relate to the request for substitution of name of successor claimant, duty of water, length of irrigation season and a claimed prescriptive right to the use of waters. None of these exceptions relate to the application of the doctrine of relation. Upon the hearing of the exceptions had before Judge Bartlett, some modifications of the order of determination were made in which were included the application of the doctrine of relation. Carpenter and others, the petitioners for the writ of prohibition herein, then moved for a new trial upon the ground that the court was without jurisdiction to apply the doctrine of relation in the absence of any exception on that subject. A new trial was granted by Judge Edwards, and thereupon the application of the doctrine of relation was eliminated, and, further, certain acreages of claimant Kimball, whose priorities had been determined by the state engineer, were also eliminated. The claimant then moved, before Judge Lockhart, for a new trial. Such new trial was granted, but the scope thereof was limited to the application of the doctrine of relation. As there are no exceptions or issues on the subject referred to, there is no subject matter for the new trial so granted and limited.

12. As to the petition for rehearing filed on behalf of A. G. McBride, it appears that this claimant, by leave of court, filed an amended exception to the order of determination, by which exception the claimant asserted a right to earlier priorities than those found by the state engineer. Upon the hearing, Judge Bartlett awarded to the claimant priorities which, on the whole, were earlier than those claimed in his exception. Upon new trial granted by Judge Edwards, the latter relegated the claimant back to the awards made by the state engineer. Timely notice of motion for new trial was given by the claimant, and the motion was granted, the new trial being limited to the application of the doctrine of relation. The issues raised by the amended exception of claimant McBride, however, relate to the priorities to which the claimant's lands are entitled, without regard to the question of applying the doctrine of relation. In other words, the amended exception presents no issue for a new trial limited to the application of that doctrine. The record shows that the exception of claimant McBride purports to be an amendment of an exception previously filed by Webster Patterson in his own behalf and on behalf of other unnamed persons similarly situated. While we doubt that the exception of Patterson gave to such unnamed persons the status of exceptors, or that there was anything upon which the amendment of McBride could be based, we do not deem it necessary to pass

upon that question at this time. The same is true as to the absence of objections to the proposed findings signed by Judge Edwards.

13, 14. As to the petition for rehearing filed on behalf of claimant S. N. Bond, it appears that this claimant seeks to have added to the final decree of the lower court a notation that the judgment in suit No. 1899, Union Canal Ditch Company et al. v. Pacific Reclamation Company et al., is binding between the parties. This notation does not appear in the order of determinaton of the state engineer, and no exception was filed by claimant Bond or his predecessors asking that the notation be made. The claimant made a timely motion for new trial for the purpose of having the notation added to the decree. The motion was granted, but limited to matters relating to the application of the doctrine of relation. A new trial is a reexamination of an issue of fact. Upon this state of the record, there is no issue presented upon which a new trial could be had.

15. As to the petition for rehearing filed on behalf of H. H. Cazier and John H. Cazier Estate, it is stated in the petition that the predecessor of the petitioners did not file an exception to the order of determination other than upon a question of reclassification of lands, and it is stated in the petitioners' brief that the issue involved in the petition is substantially identical with the issue involved in the petition of Rufus H. Kimball above referred to. As with claimant Kimball, the new trial granted to H. H. Cazier, Jno. H. Cazier, and Jno. S. Cazier Estate, successors to John H. Cazier & Sons Company, was limited to the application of the doctrine of relation. As ruled with respect to claimant Kimball, there is no subject matter for the new trial so granted and limited.

16. For the reasons given, it is hereby ordered that the demurrers to the petition for writ of prohibition, and the motions to quash the alternative writ, are overruled, and that said presiding judge, J. M. Lockhart, or any other district judge who may hereafter preside in said cause, is prohibited, enjoined, and restrained from proceeding with the new trials granted by said presiding district judge in said court and cause by orders dated December 3, 1936, and filed therein on December 5, 1936.

The petitioners are allowed their costs in this proceeding.
