**FINDINGS OF FACT, CONCLUSIONS  
OF LAW, JUDGMENT AND DECREE**

16 **INTRODUCTION**

17 On August 10, 1989, a certified copy of the State Engineer's Order of Determination was  
18 filed with this Court in the above entitled matter along with documentation that the State Engineer  
19 had complied with each of the statutory steps required in the adjudication process.

20 Three parties, the State of Nevada Division of State Parks (hereinafter "State Parks"), the  
21 Panaca Irrigation Company and Kenneth D. Lee, filed timely exceptions to the Order of  
22 Determination.

23 The matter was heard on November 21, 1989, before the Honorable Merlyn H. Hoyt.

24 The Court received evidence and heard argument on the exception filed by State Parks. On  
25 December 29, 1989, the Court entered an order affirming the State Engineer's Order of  
26 Determination as to State Parks' vested water rights.

27 Pursuant to NRS 533.180, the Court entered an order referring the exceptions filed by Panaca  
28 Irrigation Company and Kenneth D. Lee involving Panaca Big Spring to the State Engineer. These  
exceptions included complex factual allegations that the State Engineer had not had the opportunity to

1 evaluate because the parties failed to object to the State Engineer's Preliminary Order of  
2 Determination.

3 On March 21, 1990, the State Engineer held a hearing to take further evidence relating to the  
4 exceptions of Panaca Irrigation Company and Kenneth D. Lee. Based on further evidence, the State  
5 Engineer prepared a Supplemental Order of Determination which excluded Claim Nos. 01516 and  
6 04351. On October 11, 1990, a certified copy of the Supplemental Order of Determination was filed  
7 with this Court along with exhibits documenting the statutorily required process.

8 A hearing on the Supplemental Order of Determination was set for January 17, 1993, and all  
9 claimants in the Panaca Big Spring area were notified by certified mail of the hearing. No parties  
10 filed exceptions to the Supplemental Order of Determination or submitted any additional evidence at  
11 the hearing. The Court affirmed the Supplemental Order of Determination and issued an order to the  
12 State Engineer to prepare Findings of Fact, Conclusions of Law and Decree consistent with the  
13 Order of Determination as modified by the Supplemental Order of Determination.

14 I.

15 **FINDINGS OF FACT**

16 A. On November 4, 1919, Chas Dimmick, Lyman L. Woods, and Lamond C. Woods  
17 petitioned the State Engineer to determine the relative rights of claimants to the waters of Clover  
18 Valley Creek and tributaries in Lincoln County, Nevada.

19 B. On September 30, 1975, water users in the Eagle Valley Irrigation Company  
20 petitioned the State Engineer to proceed with the determination of relative rights of the various users  
21 of Eagle Valley Creek and tributaries in Lincoln County, Nevada.

22 C. On March 3, 1976, Wayne Pearson, representing Eagle Valley Irrigation Company,  
23 by and through his attorney, Ray Free petitioned the State Engineer to commence the statutory  
24 adjudication procedure of the relative rights of Camp Valley Creek and its tributaries in Lincoln  
25 County, Nevada.

26 D. As a result of the State Engineer's field investigations held on August 11 and 12, 1976,  
27 it was found that the facts and conditions justified such determinations and on September 3, 1976,  
28 separate orders granting said petitions for Eagle Valley Creek and Camp Valley Creek were entered.

1 E. On January 27, 1984, the State Engineer entered an order initiating and combining  
2 into one proceeding, adjudications of portions of the Meadow Valley Wash Creek stream systems  
3 with those portions of the Meadow Valley Wash and tributaries not subject to any other adjudication  
4 proceeding. The adjudication was now comprised of Camp Valley Creek, Eagle Valley Creek,  
5 Panaca Big Spring, Clover Valley Wash and Meadow Valley Wash hereafter "the stream system" or  
6 "Meadow Valley Wash stream system".

7 F. The State Engineer received and filed in the records of the Division of Water  
8 Resources, maps, statements of claims and supporting documents to the use of water from said  
9 stream system required under the provisions of Chapter 533 of the Nevada Revised Statutes.

10 G. The claimants upon said stream system are as set forth herein.

11 H. In accordance with the provisions of Chapter 533 of Nevada Revised Statutes, the  
12 State Engineer prepared and filed his Preliminary Order of Determination defining the rights of the  
13 claimants to the waters of the Meadow Valley Wash stream system.

14 I. Due to objections to the Preliminary Order of Determination filed by Eldon Hafen,  
15 Kenneth D. Lee, U.S. Department of the Interior, Bureau of Land Management, Rachael Ballow,  
16 Gordon and Betty Lytle, Lewis Wendell Mathews and Yvonne Mathews, Eagle Valley Irrigation  
17 Company, a hearing was held on December 3 and 4, 1987, on the objections.

18 J. As a result of the record and all evidence and testimony presented at the hearing to the  
19 Preliminary Order of Determination held on December 3 and 4, 1987, the Order of Determination  
20 and all other orders, proceedings and notices provided under NRS Chapter 533 were duly entered as  
21 required by law and that the matters contained in the record were accomplished in strict compliance  
22 with the statutes.

23 K. Due to exceptions to the Order of Determination filed by Panaca Irrigation Company  
24 and Kenneth D. Lee, the matter of Panaca Big Spring was remanded by Court Order to the State  
25 Engineer to take further evidence.

26 L. A hearing was conducted by the State Engineer on March 21, 1990, on the exceptions  
27 pursuant to the Court Order.

28

1 M. As a result of the evidence in the record and all additional evidence and testimony  
2 presented at the State Engineer's supplemental proceeding, a Supplemental Order of Determination  
3 was duly entered. Wherein, the claims filed under Proofs 01516 and 04351 were declared  
4 abandoned.

5 N. In accordance with NRS 533.090 through NRS 533.265, this Court has jurisdiction to  
6 hear and determine this matter.

7 O. Camp Valley Creek, Eagle Valley Creek, Panaca Big Springs, Clover Valley Wash,  
8 Meadow Valley Wash and their tributaries, all the subject of these proceedings, are situated wholly  
9 within Lincoln and Clark Counties, Nevada.

10 P. The names of the claimants and appropriators of the waters of Camp Valley Creek,  
11 Eagle Valley Creek, Panaca Big Spring, Clover Valley Wash, Meadow Valley Wash and their  
12 tributaries, the sources of the water supply, the period of use, the duty of water, the diversion of  
13 water, measurement of water, the method of use;

- 14 1. irrigation
- 15 2. stockwatering
- 16 3. domestic
- 17 4. railroad transportation
- 18 5. commercial

19 changes of place of use and rights of appropriation of the water, all as set forth in the Order of  
20 Determination and Supplemental Order of Determination under consideration herein, are true and  
21 proper and should be approved and confirmed.

22 Q. The vested claims to the waters of Camp Valley Creek, Eagle Valley Creek, Panaca  
23 Big Spring, Clover Valley Wash, and Meadow Valley Wash as hereinafter identified were placed to  
24 beneficial use prior to 1905, and have been and are being placed to beneficial use since that time.  
25 Deeds of record in the State Engineer's office show that the claimants and appropriators set forth  
26 herein are the successors in interest to the herein determined and adjudged vested and appropriated  
27 rights to the waters of Camp Valley Creek, Eagle Valley Creek, Panaca Big Spring, Clover Valley  
28 Wash and Meadow Valley Wash.

1 R. The headwaters of the system are from Camp Valley Creek located on the east slope of  
2 the Wilson Range between Rosencrans Mountain and Mount Wilson at an elevation in excess of  
3 8,000 feet. The watershed is situated within Lincoln and Clark Counties and terminates at Glendale,  
4 Nevada. Perennial springs and early snow melt contribute to the flow of the drainage which sinks  
5 below the stream bed and resurfaces according to the underlying strata and tributary flows.

6 S. Nine claims of reserved rights submitted by the U.S. Department of Interior, Bureau  
7 of Land Management were recognized as viable claims in this general adjudication under the  
8 following guidelines:

- 9 1. The federal reserve right created by Public Water Reserve (PWR) 107 has a priority  
10 date of April 17, 1926, the date of the Executive Order, unless the subject spring or  
11 waterhole came into existence after that date but before October 21, 1976, in which  
12 case the claim assumes the date of discovery.
- 13 2. PWR 107 claims cannot divest or displace a water right vested under Nevada law prior  
14 to April 17, 1926.
- 15 3. PWR 107 claims do not pertain to artificially developed water sources and are limited  
16 only to human and animal consumption.
- 17 4. The quantity of water reserved from a particular source is the minimum quantity  
18 required to prevent monopolization of the land and water source and meet the primary  
19 purpose of the reservation. In the absence of federal direction, that minimum amount  
20 of water has been established by the State Engineer to be 1800 gallons per day. Any  
21 source not capable of producing at least 1800 gallons per day does not operate as a  
22 PWR 107 source.

23 T. The Meadow Valley Wash adjudication includes waters both surface and underground  
24 in the area comprising the Meadow Valley Wash stream system. The following Claims of Public  
25 Water Reserves were not considered since they are not directly tributary to Meadow Valley Wash  
26 Creek or any of its tributaries. The claims are listed by the basin within which they occur and claim  
27 number as follows: Dry Valley, Hydrographic Basin 198, R-04306, R-04460; Eagle Valley,  
28 Hydrographic Basin 200, R-04408, R-04411, R-04456, R-04457, R-04458, R-04459; Spring Valley,

1 Hydrographic Basin 201, R-04555, R-04556, R-04557, R-04405, R-04406, R-04407, R-04409, R-  
2 04413, R-04414, R-04415, R-04416, R-04417, R-4419, R-04420, R-04421, R-04422, R-04423, R-  
3 04424, R-04425, R-04426, R-04427, R-04428, R-04429, R-04430, R-04431, R-04433, R-04434, R-  
4 04435, R-04437, R-04438, R-04439, R-04440, R-04441, R-04442, R-04443, R-04444, R-04445, R-  
5 04447, R-04450, R-04451, R-04452, R-04453, R-04454, R-04455; Panaca Valley, Hydrographic  
6 Basin 203, R-05990, R-05991, R-4301, R-04302, R-04303, R-04304, R-04316, R-04317; Clover  
7 Valley, Hydrographic Basin 204, R-04283, R-04286, R-04288, R-04290, R-04298, R-04299, R-  
8 4300, R-04336, R-04404; Lower Meadow Valley Wash, Hydrographic Basin 205, R-04287, R-  
9 04289, R-04294, R-04295, R-04296, R-04297, R-04309, R-04311, R-04312, R-04313, R-04314, R-  
10 04315, R-04318, R-04319, R-04320, R-04321, R-04322, R-04323, R-04324, R-04325, R-04326, R-  
11 04327, R-04328, R-04329, R-04330, R-04331, R-04332, R-04333, R-04334, R-04335, R-04337, R-  
12 04338, R-04341, R-04342.

## 13 II.

### 14 PERIOD OF USE

15 The period of use shall begin on January 1st and extend through December 31st of each year  
16 with the exceptions of Proof 02010; Proof 04352; Permit 2873, Certificate 237; Permit 3072,  
17 Certificate 824; Permit 3353, Certificate 1273; Permit 3941, Certificate 7937; Permit 4337,  
18 Certificate 1568; Permit 4460, Certificate 1912; Permit 4974, Certificate 631; Permit 5119,  
19 Certificate 3251; Permit 5664, Certificate 1202; Permit 6683, Certificate 1850; Permit 7005,  
20 Certificate 2106; Permit 9196, Certificate 2345; Permit 9857, Certificate 2342 and Permit 9935,  
21 Certificate 2483, where the period of use is fixed in the proof or on the certificate by virtue of the  
22 permit and certification process described in NRS Chapter 533.

## 23 III.

### 24 DUTY OF WATER

25 A. The seasonal duty of water on lands irrigated from Camp Creek, Eagle Valley Creek,  
26 Clover Wash Creek, Panaca Big Spring, Meadow Valley Wash and their tributaries is herein fixed  
27 and shall not exceed:

28 All Classes - 5.0 acre-feet/acre/season

1  
2  
3  
4  
5  
6  
7  
8  
9  
10

23  
24  
25  
26  
27  
28

IV.

**DIVERSION OF WATER AND METHOD OF USE**

A. The claimants shall have the right to divert 2.5 cubic feet per second of water per 100 acres of land irrigated, but not to exceed the seasonal duty as established in Article III.

B. The claimants or their successors in interest will not be required to take or use the amount of water allotted to them in a continuous flow but may accumulate the same or any part thereof in rotation or periodic turn within the seasonal limits with the approval of the water commissioner and subject to the control and direction of the State Engineer.

V.

**MEASUREMENT OF WATER**

A. All measurements of water diverted are to be made at a point where the main ditch enters or becomes adjacent to the land to be irrigated or as near thereto as practicable. The location, if not selected by the State Engineer, is to be approved by him. The claimants shall install and maintain, at their own expense, substantial and easily operated regulating headgates and measuring devices in the ditch or ditches or channel. Due allowance for losses in ditches will be made by the State Engineer in the event it becomes necessary.

B. Priorities are fixed by years and where the years are the same, the priorities are equal.

VI.

**STOCKWATERING, DOMESTIC, RAILROAD TRANSPORTATION AND COMMERCIAL**

A. The right to the diversion and use of water for stockwatering, domestic, railroad transportation and commercial purposes shall be continued by the claimants named herein or their successors in interest at any time during the year except as otherwise specified herein and such diversions shall be according to the dates of priority for surface water users and dates of priority for groundwater users and limited to the quantity of water reasonably necessary for such use.

B. The amount of water diverted for irrigation purposes shall not be increased by any amount to be used for stockwatering and domestic purposes but the quantity allowed and diverted for irrigation during the irrigation season shall include water for these uses.

1 C. The amount of water diverted and used for stockwatering purposes shall not exceed 4  
2 gallons per day, 0.00000625 c.f.s., per head of sheep or 20 gallons per day, 0.00003125 c.f.s., per  
3 head of cattle or horses, said quantity being delivered to the place of use when necessary.

4 VII.

5 CONCLUSIONS OF LAW

6 From the record on review and the evidence and testimony presented and received in this  
7 matter and from the foregoing Findings of Fact, the Court makes the following Conclusions of Law:

8 A. That the State Engineer had the right, authority and jurisdiction pursuant to Chapter  
9 533 of the Nevada Revised Statutes to make the investigations made by him, receive the proofs and  
10 maps, enter and file in his office the Order of Determination and Supplemental Order of  
11 Determination, and file a certified copy thereof in this Court, and to determine the relative rights of  
12 the claimants and appropriators in and to the waters of the Meadow Valley Wash stream system in  
13 Lincoln and Clark Counties, State of Nevada; that the State Engineer duly made all orders necessary  
14 and proper in connection therewith and entered same in his office as required by Chapter 533 of the  
15 Nevada Revised Statutes.

16 B. That each and every notice required by law to be given herein to the claimants and  
17 appropriators was duly served by the State Engineer in the manner and within the time required by  
18 statute and that the notices contained all the information required by law and that the claimants and  
19 appropriators of the waters of the above named stream system and its tributaries duly received the  
20 information and notices as required by law.

21 C. That the Seventh Judicial District Court of the State of Nevada in and for the County  
22 of Lincoln has jurisdiction to hear and try this matter and has jurisdiction to make and enter the  
23 foregoing Findings of Fact and these Conclusions of Law and further enters its Decree set forth  
24 hereinafter.

25 D. That all measurements of water diverted are to be made at a point where the main  
26 ditch enters or becomes adjacent to the land to be irrigated or as near thereto as is practicable, that  
27 the location, if not selected by the State Engineer, to be approved by him. The claimants shall install  
28 and maintain at their own expense substantial and easily operated regulatory headgates and measuring

1 devices in the ditch or ditches or channels and reservoirs. That due allowance for losses in ditches  
2 will be made by the State Engineer in the event it becomes necessary.

3 E. That priorities are fixed by years and where years are the same, the priorities are  
4 equal.

5 F. That the right to the diversion and use of water for stockwatering and domestic  
6 purposes shall be continued by the claimants named herein or their successors in interest at any time  
7 during the year that stock are grazing on the range and such diversion shall be according to the dates  
8 of priorities of such users and limited to the quantity of water reasonably necessary for such use.

9 G. That the amount of water diverted for irrigation purposes shall not be increased by any  
10 amount to be used for stockwatering and domestic purposes but the quantity allowed and diverted for  
11 irrigation during the irrigation season shall include water for stockwatering and domestic purposes.

12 H. That all water allotted under this decree shall be appurtenant to the place of use  
13 designated herein. Any water user desiring to change the point of diversion, manner of use or place  
14 of use of the waters allotted herein must make application to the State Engineer for permission to  
15 make the change pursuant to NRS 533.345.

16 I. The following tabulation lists the final determination of the relative rights so  
17 determined in this proceeding:

8 **PROOF NO.:** 04352  
 9 **CLAIMANT:** Landon and Wanda G. Frei  
 10 **SOURCE:** Panaca Big Spring and Meadow Valley Wash  
 11 **USE:** Irrigation and Stockwater  
 12 **MEANS OF DIVERSION:** Spreader Ditches  
 13 **PERIOD OF USE:** October 1 to April 1  
 14 **POINT OF DIVERSION:** The water used to irrigate the listed acreage are "winter waters" which are available  
 15 after the conclusion of the regular growing season. They flow naturally down the  
 16 valley and are spread across the valley prior to reaching this property. The water  
 is spread further with spreader ditches after entering the property.

8 SOURCE: Big Spring

9 USE: Railroad and Domestic

10 MEANS OF DIVERSION: Pipeline

11 POINT OF DIVERSION: SE¼ NW¼ Section 11, T.5S., R.68E., M.D.B.&M., or at a point from which the E¼  
12 corner of said Section 11 bears S. 89° 06' 10" E., a distance of 2,905.42 feet.

13 PRIORITY: 1889

14 AMOUNT OF  
15 APPROPRIATION: 2.0 c.f.s.

16 DESCRIPTION OF WORKS OF DIVERSION AND PLACE OF USE:

17 Water is diverted from a spring into a pipeline for use within the N½ Section 11, T.5S., R.68E., M.D.B.&M.

18 PROOF NO.: 04361

19 CLAIMANT: Los Angeles and Salt Lake Railroad Co.  
Lessee - Union Pacific Railroad Co.

20 SOURCE: Underground (Caliente Well No. 5)

21 USE: Railroad and Domestic

22 MEANS OF DIVERSION: Well

23 POINT OF DIVERSION: SE¼ NW¼ Section 8, T.4S., R.67E., M.D.B.&M., or at a point from which the SW  
24 corner of said Section 8 bears S. 41° 32' 03" W., a distance of 4,000.13 feet.

25 PRIORITY: 1911

26 AMOUNT OF  
27 APPROPRIATION: 0.67 c.f.s.

28

1 PROOF NO.: 04361  
(Continued)

2 **DESCRIPTION OF WORKS OF DIVERSION AND PLACE OF USE:**

3 Water is pumped from a well measuring 12 inches in diameter and 117 feet deep for use within Sections 7  
4 and 8, T.4S., R.67E., M.D.B.&M.

---

5 PROOF NO.: 04362

6 CLAIMANT: Los Angeles and Salt Lake Railroad Co.  
7 Lessee - Union Pacific Railroad Co.

8 SOURCE: Underground (Caliente Well No. 6)

9 USE: Railroad and Domestic

10 MEANS OF DIVERSION: Well

11 POINT OF DIVERSION: SW $\frac{1}{4}$  NE $\frac{1}{4}$  Section 8, T.4S., R.67E., M.D.B.&M., or at a point from which the SW  
12 corner of said Section 8 bears S. 38° 58' 52" W., a distance of 4,388.69 feet.

13 PRIORITY: 1929

14 AMOUNT OF APPROPRIATION: 1.23 c.f.s.

15 **DESCRIPTION OF WORKS OF DIVERSION AND PLACE OF USE:**

16 Water is pumped from a well measuring 14 inches in diameter and 150 feet deep for use within Sections 7  
17 and 8, T.4S., R.67E., M.D.B.&M.

---

18 PROOF NO.: 04363

19 CLAIMANT: Los Angeles and Salt Lake Railroad Co.

**DECREE**

1  
2  
3 **IT IS HEREBY ORDERED, ADJUDGED AND DECREED** that the relative rights of the users in and to  
4 the waters of the Meadow Valley Wash stream system be, and the same hereby are determined as stated  
5 hereinabove.

6 **IT IS FURTHER ORDERED, ADJUDGED AND DECREED** that each and every water user and claimant  
7 to the waters of the Meadow Valley Wash stream system and each of their agents, attorneys, servants and  
8 employees and their successors in interest and every person or persons acting in aid or assistance of the said  
9 parties or either of or any of them be, and that each of them is hereby perpetually enjoined and restrained as  
10 follows:

- 11 a) From at any time diverting or using any of the water of the Meadow Valley Wash stream system  
12 hereinabove mentioned except to the extent and amount and in the manner and at the time or  
13 times set by this decree to such respective party hereto allotted, allowed, prescribed and  
14 determined or allowed by permits which have been or may hereafter be granted by the State  
15 Engineer of the State of Nevada.
- 16 b) From diverting from the natural channel and from using any of the said water for irrigation or for  
17 any other purposes in excess of the specific allotment under permits granted or that may  
18 hereafter be granted by the State Engineer.
- 19 c) From diverting from the natural channel and from using any of the said water in any other manner  
20 or for any other purpose or purposes or upon any other land or lands than as provided and  
21 prescribed by the terms of this decree or by a permit granted or that may hereafter be granted by  
22 the State Engineer.
- 23 d) From diverting from the natural channel and from using any of the said water at any other time or  
24 times than as specified and provided by the terms of this decree or by permits granted or that  
25 may hereafter be granted by the State Engineer of the State of Nevada.

Case No. 5706

**RECEIVED**

JUN 19 1999

OFFICE OF ATTORNEY GENERAL  
CITY ATTORNEY GENERAL

**IN THE SEVENTH JUDICIAL DISTRICT COURT OF THE STATE OF NEVADA  
IN AND FOR THE COUNTY OF LINCOLN**

IN THE MATTER OF THE DETERMINATION )  
OF THE RELATIVE RIGHTS IN AND TO THE )  
WATERS OF CAMP VALLEY CREEK, EAGLE )  
VALLEY CREEK PANACA BIG SPRING, )  
CLOVER VALLEY WASH, MEADOW VALLEY )  
WASH AND THEIR TRIBUTARIES IN )  
LINCOLN AND CLARK COUNTIES, NEVADA )

**NOTICE OF CORRECTION TO  
FINDINGS OF FACT, CONCLUSIONS  
OF LAW, JUDGMENT AND DECREE**

The State Engineer has prepared the Findings of Fact, Conclusions of Law, Judgment and Decree as Ordered by Honorable Judge M. Hoyt. During the preparation of the subject document the State Engineer identified typographical and numerical errors in the Order of Determination. Those errors were corrected in the Finding of Fact, Conclusions of Law, Judgment and Decree that is filed herewith. The State Engineer has determined that said corrections have no adverse affect or bearing on the claims and appropriations listed in the Order of Determination and the Supplemental Order of Determination

Dated this 5<sup>th</sup> day of April, 1999.

FRANKIE SUE DEL PAPA  
Attorney General
