IN THE SIXTH JUDICIAL DISTRICT COURT OF THE STATE
OF NEVADA IN AND FOR THE COUNTY OF HUMBOLDT

- - - - oOo - - - -

IN THE MATTER OF THE DETERMINATION OF THE
RELATIVE RIGHTS IN AND TO THE WATERS OF
SOLDIER OR MUD MEADOW CREEK AND ITS TRIBUTARIES
IN HUMBOLDT COUNTY, NEVADA

} No. 5843
} Filed July 19, 1960
} Grace W. Bell
} Clerk

FINDINGS OF FACT, CONCLUSIONS OF LAW,

JUDGMENT AND DECREE

This matter came on regularly for hearing on the 15th day of June, 1960, before Honorable Merwyn H. Brown, District Judge of the above-entitled Court presiding, the entire stream system being within Humboldt County, State of Nevada, and he being the Judge designated by NRS 533.165 to hear and having jurisdiction to hear the above-entitled matter, upon the State Engineer's final determination of the relative rights of the petitioners and claimants to the use of the waters of the stream system of Soldier or Mud Meadow Creek and its Tributaries, which Final Order of Determination had been duly filed by the State Engineer. There being no exceptions to the Final Order of Determination filed or otherwise submitted to the Court by the claimants or petitioners or any other person or persons, the matter was submitted to the Court for its decision.

William Paul, Esq., Deputy Attorney General of the State of Nevada, and Elmo J. DeRocco, Assistant State Engineer of the Office of the State Engineer, State of Nevada, appeared in the hearings and proceedings on behalf of the State of Nevada and the Office of the State Engineer. Lloyd V. Smith, Esq., appeared on behalf of claimants Stanley L. Van Vleck and Gordon K. Van Vleck.

1 report of the facts and conditions disclosed that a determination
2 of the relative rights was justified, and the State Engineer made
3 and entered his order on February 11, 1952, granting the petition
4 for the determination of such relative rights in and to the waters
5 of Soldier or Mud Meadow Creek and its Tributaries.

6 That petitioners, all claimants and appropriators, being
7 less than ten in number, in conformity with NRS 533.215, waived
8 in writing the provisions of the above-mentioned act with
9 reference to Notices and the Service and Publication thereof.

10 That as a result of the State Engineer's investigation
11 report, it was found that the waters of Soldier or Mud Meadow
12 Creek and its Tributaries were being placed to beneficial use by
13 Vern R. Parman, Ralph G. Parman and C. W. Fick, and by Grover C.
14 and Andrew Jackson. The Proofs of Appropriation filed indicate
15 the present claimants and appropriators are the successors in
16 interest to vested rights initiated by their predecessors with
17 the exception of Grover C. and Andrew Jackson who have acquired
18 a water right by application to the State Engineer. Since the
19 date of investigation the rights of Vern R. Parman, Ralph G.
20 Parman and C. W. Fick have been assigned and the owners of record
21 on the date of the Final Order of Determination are Stanley L.
22 Van Vleck and Gordon K. Van Vleck.

23 That on the 1st day of June, 1953, the State Engineer did
24 publish a Notice of Order and Proceedings to Determine Water
25 Rights in and to the waters of Soldier or Mud Meadow Creek and
26 its Tributaries in Humboldt County, State of Nevada. That there
27 was filed in the office of the State Engineer an affidavit of
28 the publisher of The Humboldt Star exemplifying the proof of
29 publication of Notice of Order and Proceedings.

30 That the State Engineer, in accordance with NRS 533.140,
31 did enter and file in the records of his office, on the 22nd day
32 of January, 1960, a Preliminary Order of Determination and that

1 notice thereof was duly given to all claimants. That no
2 objections or exceptions were filed to said Preliminary Order of
3 Determination and the State Engineer, in accordance with NRS
4 533.160, entered in the records of his office, on the 2nd day of
5 May, 1960, a Final Order of Determination defining the rights to
6 the waters of Soldier or Mud Meadow Creek and its Tributaries.

7 That upon the filing of the Final Order of Determination
8 with the Clerk of the Court of Humboldt County, State of Nevada,
9 the Court made and entered an order on the 9th day of May, 1960,
10 setting a time for the hearing of any exceptions to the Final
11 Order of Determination, on Wednesday, the 15th day of June, 1960,
12 at 10:00 in the forenoon, at the County Court House at Winnemucca,
13 Nevada.

14 That the claimants acting by and through their attorney,
15 Lloyd V. Smith, Esq., waived in writing the provisions of NRS
16 533.165, respecting notice to claimants of service of a certified
17 copy of the Order setting time for hearing.

18 The Court finds that all and singular the proceedings,
19 orders and notices required by Chapter 533 of NRS were duly had,
20 made and given as required by law, and that all and singular the
21 matters and things contained in the record were done, performed,
22 given and made in strict compliance with the statute, and that
23 this Court had and has jurisdiction to hear and determine this
24 matter.

25 II.

26 The Court Further Finds: That Soldier or Mud Meadow Creek
27 and its Tributaries are situated wholly within Humboldt County,
28 State of Nevada.

29 The Court Further Finds: That the names of the claimants
30 and appropriators, the duty of water, the measurement of water,
31 the length of the irrigation season, stockwatering and domestic
32 use of the water, the change of place of use, and the rights of

1 appropriation, all as set forth in the Final Order of Determina-
2 tion, are true, proper and correct, and all and singular the same
3 should be approved and confirmed.

4 I. PREFACE

5 On August 13, 1951, Vern Parman, Ralph Parman, and George
6 Schadler, water users on Soldier or Mud Meadow Creek, submitted a
7 petition to the State Engineer requesting a determination of the
8 relative rights of claimants in and to the waters of said stream
9 system. On November 6th, 7th and 8th of 1951, an investigation
10 was made by Robert S. Leighton, Assistant State Engineer, and
11 E. J. DeRioco, Field Engineer, which disclosed that facts and
12 conditions justified the granting of said petition. On February
13 11, 1952, the State Engineer entered an order granting the
14 petition and made proper arrangements to proceed with the determi-
15 nation in accordance with Chapter 533 of NRS.

16 All claimants and appropriators, being less than ten in
17 number, in conformity with NRS 533.215, waived in writing the
18 provisions of the above-mentioned act with reference to notices
19 and the service of publication thereof.

20 II. CLAIMANTS

21 The investigation above referred to disclosed that the
22 waters of Soldier or Mud Meadow Creek and its Tributaries were
23 being placed to beneficial use by Vern R. Parman, Ralph G.
24 Parman, and C. W. Fick, and by Grover C. and Andrew Jackson.
25 The Proofs of Appropriation filed in the office of the State
26 Engineer indicate and claim that the present claimants and
27 appropriators are the successors in interest to vested rights
28 initiated by their predecessors with the exception of Grover C.
29 and Andrew Jackson who have acquired a water right by applica-
30 tion to the State Engineer.

31 Since the investigation the rights of Vern R. Parman,
32 Ralph G. Parman and C. W. Fick have been assigned and the owners

1 of record on the date of the Order of Determination are Stanley
2 L. Van Vleck and Gordon K. Van Vleck.

3 III. SOURCE

4 Soldier or Mud Meadow Creek, located in the southwestern
5 portion of Humboldt County, heads in the Black Rock Range
6 approximately 5 miles south of Summit Lake. It flows in a
7 southerly direction through Soldier Meadows and Mud Meadows
8 where it collects numerous tributary streams and springs and
9 then dissipates itself into the northern portion of the Black
10 Rock Desert.

11 The Soldier or Mud Meadow Creek stream system drains a
12 large water shed, which, for the most part, is located at high
13 elevations. During years of normal precipitation the stream is
14 characterized by unusually high spring run-offs. After the
15 run-off period, many of the tributary streams and portions of the
16 main stream channel itself cease to flow. Cultivated lands are
17 served by numerous tributary springs and small streams.

18 IV. DUTY OF WATER

19 The duty of water herein fixed is as follows:

20 Class A---Harvest Crops-----3.0 acre-feet per acre
21 Class B---Meadow Pasture-----1.5 acre-feet per acre
22 Class C---Diversified Pasture----0.75 acre-feet per acre

23 V. MANNER OF USE

24 The maximum allowable diversion herein fixed is 2.0 c.f.s.
25 for each 100 acres irrigated.

26 Due to the characteristics of the stream flow, the
27 claimants named herein or their successors in interest shall be
28 allowed to increase the rate of direct flow diversions to the
29 maximum herein allowed so as to satisfy any immediate needs of
30 the growing crops and they may at their own option rotate the
31 allotted water between the various fields having a decreed water
32 right at such times and in such quantities as is necessary to
place the water to the greatest beneficial use.

1 sections, townships, ranges and the duty of water, are all as
2 listed, stated and set forth.

3 CONCLUSIONS OF LAW

4 From the evidence presented and received in this matter,
5 and from the foregoing FINDINGS OF FACT, the Court makes the
6 following Conclusions of Law:

7 I.

8 That the State Engineer had the right, authority and
9 jurisdiction pursuant to Chapter 533 of NRS, to make the investi-
10 gations made by him, conduct the hearings had by him, receive the
11 proofs and maps, hear the evidence presented to him, and prepare,
12 make, enter and file in his office the original Final Order of
13 Determination and file a certified copy thereof to this Court,
14 and to determine the Final Order of Determination, the relative
15 rights of claimants and appropriators in and to the waters of
16 Soldier or Mud Meadow Creek and its Tributaries in Humboldt
17 County, State of Nevada; that the State Engineer duly made all
18 orders necessary and proper in connection therewith and entered
19 the same in his office as required by Chapter 533 of NRS; that
20 each and every notice required by law to be given herein to the
21 claimants and appropriators was duly served by the State Engineer
22 in the manner and within the time required by statute, and that
23 the notices contained all of the statements required by law, and
24 that the claimants and appropriators of the waters of the above-
25 named stream system and its tributaries duly received the infor-
26 mation and notices required by law herein.

27 II.

28 That the Sixth Judicial District Court of the State of
29 Nevada, in and for the County of Humboldt, had and has juris-
30 diction to hear and try this matter, and has jurisdiction to
31 find, make and enter the foregoing Findings of Fact and these
32 Conclusions of Law, and enter its Decree herein.

III.

That Stanley L. Van Vleck and Gordon K. Van Vleck, constitute the claimants and the only claimants who were and now are appropriators and users of the waters of Soldier or Mud Meadow Creek and its Tributaries on the date the Final Order of Determination was filed with the Clerk of this Court, and on the date of the trial and hearing of this matter.

IV.

That Stanley L. Van Vleck and Gordon K. Van Vleck, as claimants and appropriators of the waters of Soldier or Mud Meadow Creek and its Tributaries, by and through the means of diversion named, as successors in interest to preceding users, are claimants and appropriators of and to the waters of the above-named stream system; that Gordon K. Van Vleck and Stanley L. Van Vleck and their predecessors in interest continuously from the date of appropriation or priority, when such water was available for beneficial use, diverted all of such quantity of water from Soldier or Mud Meadow Creek and its Tributaries and applied the same to beneficial use as alleged in the Final Order of Determination.

V.

That the duty of water should be fixed in the Decree as follows:

- Class A---Harvest Crops-----3.0 acre-feet per acre per annum
- Class B---Meadow Pasture-----1.5 acre-feet per acre per annum
- Class C---Diversified Pasture---0.75 acre-feet per acre per annum

with a maximum allowable diversion of 2.0 c.f.s. for each 100 acres irrigated. This duty to be subject to change or alteration within a period of three years after entry of the Decree, as provided for in NRS 533.210.

VI.

That all waters allotted in the Decree shall be appurtenant to the place or places of use designated therein, and in the event that any water user desiring to change the place of the use of the waters allotted herein, must make application to the State Engineer for permission to make the change pursuant to law.

VII.

That except where specifically otherwise ordered herein or in the Decree, the Final Order of Determination made, filed and caused to be entered of record in this matter by the State Engineer, should be affirmed.

JUDGMENT AND DECREE

THEREFORE, BY REASON OF THE FINDINGS OF FACT AND CONCLUSIONS OF LAW HEREBEFORE SET FORTH, IT IS ORDERED, ADJUDGED AND DECREED BY THE COURT AS FOLLOWS:

I.

That the State Engineer made all necessary and proper orders herein as required by law, and that each and every notice required by law was duly given to the claimants and appropriators; that the claimants and appropriators had full opportunity to appear and be heard in objection to and file exceptions to the Final Order of Determination herein; that the claimants and appropriators are the only claimants and appropriators of the waters of Soldier or Mud Meadow Creek and its Tributaries.

That the Court has full and complete jurisdiction to hear, try and determine this matter and to make and enter herein this Decree.

II.

That the flow of water from Soldier or Mud Meadow Creek and its tributaries is being placed to beneficial use by Stanley L. Van Vleck and Gordon K. Van Vleck under a vested right and by Grover C. and Andrew Jackson under Application No. 6433,

1 Certificate No. 1790.

2 III.

3 That the duty of water is hereby adjudged, decreed and
4 fixed at:

5 Class A---Harvest Crops-----3.0 acre-feet per acre per annum
6 Class B---Meadow Pasture-----1.5 acre-feet per acre per annum
7 Class C---Diversified Pasture----0.75 acre-feet per acre per annum

8 with a maximum allowable diversion of 2.0 c.f.s. for each 100
9 acres irrigated; the duty may be changed or altered by the Court
10 within a period of three years after entry of this Decree, as
11 provided by NRS 533.210; that the claimants or their successors
12 in interest shall be allowed to increase the rate of direct flow
13 diversion to the maximum as herein allowed, to satisfy any
14 immediate needs of the growing crops and they may at their own
15 option rotate the allotted water between the various fields
16 having a decreed water right at such times and in such quanti-
17 ties as is necessary to place the water to the greatest beneficial
18 use.

19 IV.

20 That all water diverted from Soldier or Mud Meadow Creek
21 and its Tributaries for irrigation purposes shall be measured at
22 a point where the water enters or becomes adjacent to the land
23 to be irrigated or as near thereto as practicable.

24 V.

25 Substantial headgates and weirs must be installed wher-
26 ever necessary to insure and facilitate the proper measurement,
27 control and distribution of water in accordance with the rights
28 herein defined.

29 VI.

30 That water for irrigation purposes may be diverted at any
31 time throughout the year, provided that the total amount
32 diverted during any calendar year shall not exceed the duty in
acre-feet as established herein.
