and protests the granting

of Application Number 53989, filed on October 17th

1989

by Las Vegas water dist.

Printed or typed name of applicant

to appropriate the

waters of Dry Lake Water Basin / Ground water

Underground or name of stream, lake, spring or other source

situated in Lincon County

County, State of Nevada, for the following reasons and on the following grounds, to wit:

Displacement of water is not fair to the locals in other counties
for their own growth in the future and they would loose the quality
of the remaining water. The desert needs the water to not become a
wasteland. The recreation uses are important for us in the city.
This environment and eco-system is not a fair exchange for lake
lakes, golf courses and casino waste in the desert. Mono Lake in
California is a good example of the damage that would occure .
Our oxygen also comes from these plants.

THEREFORE the protestant requests that the application be DENIED

(Denied, issued subject to prior rights, etc., as the case may be)

and that an order be entered for such relief as the State Engineer deems just and proper.
