

IN THE OFFICE OF THE STATE ENGINEER
OF THE STATE OF NEVADA

O R D E R

Mr. Elmer L. White
Owyhee, Nevada

Dear Sir:

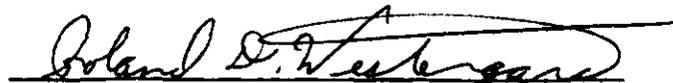

The Division of Water Resources was advised by letter of July 26, 1967 from Mr. A. O. Large, a well driller licensed in the State of Nevada, that a driller who is not licensed was drilling wells in the vicinity of Owyhee, Nevada.

An investigation held on August 4, 1967 by a representative of the Division of Water Resources confirmed that you, Elmer L. White, have since approximately June 14, 1967 been engaging in the physical drilling of wells in the State of Nevada for the development of water.

Nevada Revised Statutes 534.140 provide in part, "1. Every well driller, before engaging in the physical drilling of a well in the State of Nevada for development of water, shall annually make application to the state engineer for a license to drill." Nevada Revised Statutes 534.160 provide in part, "1. No person shall drill a well for water in this state without having first obtained a well-drilling license as provided in NRS 534.140 to 534.170, inclusive. 2. Well drillers are required to comply with such rules and regulations as may be adopted by the state engineer governing the drilling of water wells."

Records in the office of the Division of Water Resources indicate that you have not complied with these provisions and are not licensed as a well driller in the State of Nevada.

You are hereby ordered to immediately cease drilling wells in the State of Nevada for the development of water and further ordered to refrain from drilling until you have complied with the statutes of the State of Nevada.

ROLAND D. WESTERGARD
STATE ENGINEER

Dated at Carson City, Nevada,

this 7th day of August, 1967.
