Dear Mr. Wilson:

Under the provisions of NRS 535.010 and 535.050 the State Engineer has the authority to order the removal of dams or obstructions that have been placed in any stream channel, or water course when such dams or obstructions have not been legally established.

You have placed a dam in the NW $\frac{1}{4}$  of Section 22, T.31N., R.56E., with no right to construct such a dam, and which obstructs a water course which is known as Long Canyon, which is a tributary to the South Fork of the Humboldt River.

You are hereby ordered and given notice that you are required to proceed immediately to remove such dam.

  
Roland D. Westergard  
State Engineer
