

IN THE OFFICE OF THE STATE ENGINEER  
OF THE STATE OF NEVADA

\*\*\*\*\*

ORDER

City of North Las Vegas  
2200 Civic Center Drive  
P.O. Box 4086  
North Las Vegas, Nevada 89030

Gentlemen:

Under the authority provided by NRS 534.120, approved March 24, 1955, the State Engineer is empowered to issue temporary permits to appropriate water from an underground source subject to revocation.

Temporary permits have been granted to, or acquired by, the City of North Las Vegas pursuant to the above cited statutory authority, subject to the conditions set out therein.

On October 29, 1971, the Administrator of the Colorado River Commission gave notice that the Southern Nevada Water Supply Project would be substantially completed November 1, 1971, and that water would be available for delivery under the terms of the Contract for Delivery of Water between the Colorado River Commission and the City of North Las Vegas beginning 12:01 o'clock a.m., November 1, 1971.

Therefore, in accordance with the above cited statutory authority and with due notice of the availability of water from the Colorado River under the Southern Nevada Water Supply Project, those temporary permits tabulated below and held in the name of the City of North Las Vegas are hereby revoked as of July 1, 1986.

20003	20848	24697
20418	21746	24735
20475	21747	25547
20542	21759	25576
20543	22501	47958

Actual operation and distribution of water from Project and ground water sources by the City of North Las Vegas will be required to determine wells to be continued in operation. Pending this determination, this order does not preclude pumping of wells under revoked permits provided that the total draft of underground water does not exceed that allowable under existing non-revocable rights, held by the City of North Las Vegas and further provided that the City of North Las Vegas initiate action and proceed with diligence to accomplish necessary changes to secure water rights on all wells to be continued in operation.

The City of North Las Vegas may request a public hearing before the State Engineer within 60 days of the date of this order for the purpose of providing any additional evidence concerning the matter set forth herein.

  
PETER G. MORROS  
State Engineer

Dated this 6th day of  
January, 1986.
