Records in the office of the State Engineer indicate that you are the owners of a well located in the SW $\frac{1}{4}$  SW $\frac{1}{4}$  Section 32, T.19S., R.61E., M.D.B.&M., Clark County, Nevada, as further described under Permit No. 39164. This permit was issued on August 5, 1980, for quasi-municipal purposes (3-single family homes) with a diversion rate and annual duty not to exceed 0.5 cubic feet per second and 1.095 million gallons respectively. A field inspection conducted by the State Engineer's office on March 2, 1989, reveals that groundwater withdrawals from this well exceed 2 million gallons for the past year and that the use of this well includes a commercial dog kennel business.

The use of this well is not in accordance with the use applied for and terms and conditions of the permit, therefore you and each of you are ordered, on authority under 533.030(1), 533.325, 533.330, 534.013 and 534.120 of the Nevada Revised Statutes, to reduce immediately the withdrawal of water from the well to the permitted amount and to limit the manner of use of the well to use authorized under Permit 39164.

  
Peter G. Morros  
State Engineer

Dated at Carson City, Nevada,  
this 27th day of MARCH, 1989.
