GENERAL:

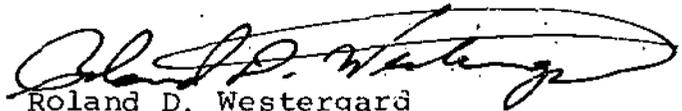

Application 30328 was filed on June 14, 1976 by Nick Vecchiarelli and Lee Vecchiarelli to appropriate 0.5 c.f.s. of the water of an underground source, to be diverted within the NW $\frac{1}{4}$  SE $\frac{1}{4}$  Section 4, T.16N., R.22E., M.D.B. & M., to be used for the irrigation of 10 acres of land within the NW $\frac{1}{4}$  NW $\frac{1}{4}$  SE $\frac{1}{4}$ , said Section 4, and domestic purposes.

This area was designated January 22, 1973 by Order of the State Engineer. Present information available indicates that the estimated perennial yield of the Dayton Valley Ground Water Basin is 7,900 acre feet. Existing approved appropriations within the Dayton Valley Ground Water Basin exceed the estimate of perennial yield.

RULING:

Application 30328 is hereby denied on the grounds that the granting of this application for additional withdrawal of water from the area of the Dayton Valley Ground Water Basin would adversely affect and tend to impair the value of existing water rights.

Respectfully submitted,

Roland D. Westergard  
State Engineer
