IN THE MATTER OF APPLICATION NO. }
17082, FILED BY THE PACIFIC ENGI- }
NEERING AND PRODUCTION CO. TO }
APPROPRIATE WATER FROM AN UNDER- }
GROUND SOURCE IN CLARK COUNTY, }
NEVADA. }

RULING

Description of Application:

Application No. 17082 was filed on October 29, 1956 to appropriate 8.0 c.f.s. of water from an existing, abandoned well within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, T. 22 S., R. 62 E., M.B.D.&M., for industrial and domestic purposes from January 1st to December 31st of each year.

A protest to the granting of this application was filed on February 18, 1957 by Arthur G. Klinger, on grounds that he owns the land on which the well is located and has a deed to the casing in the well.

General:

From records in this office, the well was drilled to a depth of 180 feet in February, 1943, by Roy Cram under Permit No. 10785. The permit was cancelled on February 28, 1950 because of the failure of the applicant to comply with the provisions of the permit. All surveys of record in this office locate the well in approximately the same position within the SW $\frac{1}{4}$ SE $\frac{1}{4}$ Section 9, T. 22 S., R. 62 E., M.D.B.&M.

Opinion:

It is the opinion of this office that the water applied for is unappropriated and subject to appropriation but that the granting of a permit under Application No. 17082 will not grant the permittee right-of-way privileges or use of the existing appurtenances on the well.

RULING

The protest to the granting of Application No. 17082 is herewith overruled and a permit will be issued under the application on receipt of the statutory permit fee, subject to the following provision: The amount of water under this permit is limited to the amount that can be developed from the well at its present depth.

Respectfully submitted,

Edmund A. Muth
EDMUND A. MUTH
State Engineer.
