General:

A protest to the granting of Application 19744 was filed June 20, 1961, by the City of Yerington on the grounds that granting of the application would cause a shortage of water for City use.

A field investigation was made during the summer of 1961, and weekly measurements made of the City wells while the Lommori well was pumped. The measurements indicate that there was no drawdown in the City wells that could be blamed directly to the pumping of the Lommori well.

RULING

The protest to the granting of Application 19744 is herewith overruled on the grounds that its granting will not be detrimental to the public welfare. Permits will be issued under said application on receipt of the statutory permit fee.
