R U L I N G #643

General:

207
Application 21145 was filed in support of Desert Land Application Nevada - 059795. On July 2, 1963, we were notified by the U. S. Bureau of Land Management, Reno, Nevada, that the entry has been rejected because the applied-for land is not suitable for agricultural development and closed on the Land Office records as of June 14, 1963. As of the date of this ruling, the applicant does not have control of the land on which he plans to place the water to beneficial use.

RULING

Application 21145 is hereby denied on the grounds that the applicant does not have control of the land on which he plans to place the water to beneficial use, and that its granting would be detrimental to the public welfare.

Respectfully submitted,
