R U L I N G #669

General

207
Protests to the granting of Application 20761 were filed by Gordon R. and Lois M. Glenn on March 12, 1963, John E. Gurley on March 14, 1963, and Nevada Fish and Game Commission on April 1 1963. Grounds for the protests are that the proposed appropriation would jeopardize and damage the existing rights of the protestants.

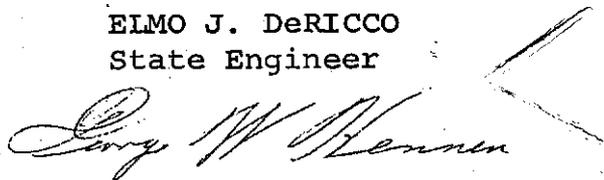

Results of a field investigation of this matter made on August 15, 1963, a review of Water Resources Bulletin No. 8, a consideration of the proposed well location in reference to existing rights, indicate that there is unappropriated water in the proposed source of supply, and that the proposed appropriation would not tend to impair the value of existing rights.

RULING

The protests to the granting of Application 20761 are here-with overruled on the grounds that the proposed appropriation will not tend to impair the value of existing rights or be otherwise detrimental to the public welfare. Permit will be issued, subject to existing rights upon receipt of the statutory permit fee.

Respectfully submitted,
