DECREE )

R U L I N G

104

GENERAL:

Application 28350 was filed May 29, 1974 in the name of Theodore H. and Patricia M. Stokes as joint tenants to change the point of diversion and place of use of 4.0 acre feet annually of water heretofore appropriated under the above described decree.

The proposed point of diversion is within the NW $\frac{1}{4}$  NE $\frac{1}{4}$  Section 23, T.15N., R.19E. and the water is to be used for the irrigation of planted areas around a single family residence and for fire protection within the same subdivision as the point of diversion.

A protest to the granting of Application 28350 was filed on July 3, 1974 by Mr. D. A. Andersen. The grounds of the protest state "that an obstruction has been placed in the channel -- no method of measurement has been constructed". Protestant further prays that the application be granted subject to the grounds of the protest.

A field investigation in the matter of 28350 was conducted by personnel of the Division of Water Resources on September 19, 1974.

RULING:

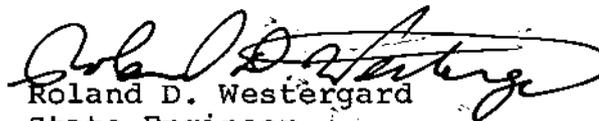

The protest to the granting of Application 28350 is hereby upheld and a permit will be granted under this application subject to the following conditions:

1. Issue subject to all existing rights on the source with the understanding that the diversion will be regulated according to William H. Long's period of use under the present accepted rotation schedule on the stream system and further that the diversion will be subject to any changes in that rotation schedule.

Ruling  
Application 28352  
Page 2

2. That the works of diversion will not impede or restrict the flow of the channel in any manner.
3. That totalizing meters be installed on the diversion works with monthly reports submitted to the Division of Water Resources on actual amounts of diversion.
4. That the total annual amount of water diverted shall not exceed 4.0 acre-feet.

Respectfully submitted

  
Roland D. Westergard  
State Engineer
