

IN THE OFFICE OF THE STATE ENGINEER
OF THE STATE OF NEVADA

IN THE MATTER OF APPLICATIONS 56065)
THROUGH 56117, INCLUSIVE; FILED TO)
APPROPRIATE THE PUBLIC WATERS OF)
VARIOUS SPRINGS WITHIN THE NORTH)
FORK AREA HYDROGRAPHIC BASIN (044),)
ELKO COUNTY, NEVADA.)

RULING

4719

GENERAL

I.

Applications 56065 through 56117, inclusive; were filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, each to appropriate 0.0156 cubic feet per second of water from springs located within the North Fork Area Groundwater Basin for stockwatering purposes within respective places of use identified in Attachment A.¹

II.

Applications 56065 through 56068, inclusive; 56070 and 56071; 56075 and 56076; 56078 through 56091, inclusive; 56093 and 56106, inclusive; and 56108 through 56116, inclusive are all located upon land which is currently controlled by the federal government more specifically the Department of Agriculture, Forest Service, and the remainder of the subject applications are located upon land removed from the federal domain.²

¹ See Attachment A for summary of Applications 56065 through 56117, inclusive; official records in the office of the State Engineer.

² Humboldt National Forest, Mountain City, Jarbidge Ranger District 1"=5280' map, 1977.

III.

Applications 56065 through 56117, inclusive, were timely protested by United States Forest Service, Mountain City Ranger District on the following grounds:¹

The Applications are within the Humboldt River Basin which is closed to new applications pursuant to the Bartlett Decree dated October 20, 1931. All of the applicant's vested rights were determined and set out at Page 206 of said decree.

The Applicant does not have a permit to graze livestock on National Forest land and consequently cannot place the water to beneficial use.

The United States is successor in interest to all vested rights to water diverted and used on National Forest land. The United States was not a party to the Humboldt River Adjudication and thus its vested rights remain undetermined.

The Applicant's proposed domestic use is confusing as there is no residence, camp, or other facility at the identified place of use.

FINDINGS OF FACT

I.

By letter dated April 11, 1991, the State Engineer's office requested information from the U.S. Department of Agriculture, Forest Service, Humboldt National Forest, regarding the permittee or current range user within the place of use described under Applications 56065 through 56117, inclusive. On April 25, 1991, the State Engineer's office received a letter from the USFS stating that A. Greer Edwards, Jr. d.b.a. Saval Ranching Company is not a permittee on the East Independence allotment.

A second letter received on January 25, 1999, by the U.S. Department of Agriculture, Forest Service Humboldt-Toiyabe National Forests stated that A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, does not hold a Forest Service Term Grazing permit in the Mountain City Ranger District. The State Engineer

finds that the applicant under Applications 56065 through 56068, inclusive; 56070 and 56071; 56075 and 56076; 56078 through 56091, inclusive; 56093 through 56106, inclusive; 56108 through 56116, inclusive is not an authorized range permittee for the place of use described under said applications.

The State Engineer further finds that all 53 springs filed on by Applications 56065 through 56117, inclusive; are tributary to the Humboldt River system which was declared fully appropriated by The Bartlett Decree, Humboldt River Adjudication.³

CONCLUSIONS

I.

The State Engineer has jurisdiction over the parties and the subject matter of this action and determination.⁴

II.

The State Engineer is prohibited by law from granting a permit under an application to appropriate the public waters where:⁵

- A. there is no unappropriated water at the proposed source;
- B. the proposed use conflicts with existing rights; or
- C. the proposed use threatens to prove detrimental to the public interest.

³ The Bartlett Decree (44), Humboldt River Adjudication in the Sixth Judicial District Court of the State of Nevada, In and for the County of Humboldt

⁴ NRS Chapter 533.

⁵ NRS § 533.370.

III.

Under the provisions of NRS § 533.503, the State Engineer shall not issue a permit to appropriate water for the purpose of watering livestock on public land unless the applicant for the permit is legally entitled to place the livestock on the public lands for which the permit is sought. Information supplied by the proper federal regulatory agency indicates that A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, is not legally entitled to graze livestock upon the lands described within the place of use of applications 56065 through 56068, inclusive; 56070 and 56071; 56075 and 56076; 56078 through 56091, inclusive; 56093 through 56106, inclusive; 56108 through 56116, inclusive. The State Engineer concludes that it would not be in the public interest to approve an application to appropriate water for stockwatering purposes upon federal lands to an applicant who is not the current federal range permittee.

IV.

As a result of the Humboldt River Adjudication proceedings, the Humboldt River stream system was declared to be fully appropriated.³ The State Engineer concludes that there is no unappropriated water at the proposed sources.

RULING

Applications 56065 through 56117, inclusive, are hereby denied on the grounds that there is no unappropriated water. Applications 56065 through 56068, inclusive; 56070 and 56071; 56075 and 56076; 56078 through 56091, inclusive; 56093 through 56106, inclusive; 56108 through 56116, inclusive; are hereby

Ruling

Page 5

denied on the grounds that to approve applications for stockwatering use on a source where the applicant cannot demonstrate the ability to place the water to beneficial use would not be in the public interest.

Respectfully submitted,

R. MICHAEL TURNIPSEED, P.E.

State Engineer

RMT/SJB/cl

Dated this 31st day of
March, 1999.

ATTACHMENT A

Application 56065 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of East California Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 12, Section 1, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being Lot 12, Section 1, T.40N., R.53E., M.D.B.&M.

Application 56066 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of West California Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 12, Section 1, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being Lot 12, Section 1, T.40N., R.53E., M.D.B.&M.

Application 56067 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle California Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 36, T.41N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 36, T.41N., R.53E., M.D.B.&M.

Application 56068 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of North Stump Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, T.40N., R.54E., M.D.B.&M.

Application 56069 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Mahoney Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 5, Section 5, T.40N.,

R.54E., M.D.B.&M. The proposed place of use is described as being Lot 5, Section 5, T.40N., R.54E., M.D.B.&M.

Application 56070 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Jean Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, T.41N., R.54E., M.D.B.&M. The proposed place of use is described as being the NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, T.41N., R.54E., M.D.B.&M.

Application 56071 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 14, T.40N., R.53E., M.D.B.&M.

Application 56072 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 11, T.40N., R.53E., M.D.B.&M.

Application 56073 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #3 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 12, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 12, T.40N., R.53E., M.D.B.&M.

Application 56074 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #4 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 12,

T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW¼ SW¼ of Section 12, T.40N., R.53E., M.D.B.&M.

Application 56075 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #5 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M.

Application 56076 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #6 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M.

Application 56077 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Stump Spring #7 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE¼ NW¼ of Section 12, T.40N., R.53E., M.D.B.&M.

Application 56078 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Sheep Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ SE¼ of Section 7, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SW¼ SE¼ of Section 7, T.40N., R.54E., M.D.B.&M.

Application 56079 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Lower Sheep Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of

diversion is described as being located within the SW¼ SW¼ of Section 8, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SW¼ SW¼ of Section 8, T.40N., R.54E., M.D.B.&M.

Application 56080 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of South Sheep Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NW¼ of Section 17, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SW¼ NW¼ of Section 17, T.40N., R.54E., M.D.B.&M.

Application 56081 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Mahala Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NE¼ of Section 23, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ NE¼ of Section 23, T.40N., R.53E., M.D.B.&M.

Application 56082 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Mahala Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE¼ NE¼ of Section 23, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE¼ NE¼ of Section 23, T.40N., R.53E., M.D.B.&M.

Application 56083 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Mahala Spring #3 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ NW¼ of Section 24, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE¼ NW¼ of Section 24, T.40N., R.53E., M.D.B.&M.

Application 56084 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Mahala Spring #4 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ SE¼ of Section 14, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ SE¼ of Section 14, T.40N., R.53E., M.D.B.&M.

Application 56085 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Mahala Spring #5 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE¼ SE¼ of Section 14, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE¼ SE¼ of Section 14, T.40N., R.53E., M.D.B.&M.

Application 56086 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE¼ NW¼ of Section 13, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE¼ NW¼ of Section 13, T.40N., R.53E., M.D.B.&M.

Application 56087 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ NW¼ of Section 13, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE¼ NW¼ of Section 13, T.40N., R.53E., M.D.B.&M.

Application 56088 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #3 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of

diversion is described as being located within the SW¼ SE¼ of Section 13, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ SE¼ of Section 13, T.40N., R.53E., M.D.B.&M.

Application 56089 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #4 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ SW¼ of Section 18, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SE¼ SW¼ of Section 18, T.40N., R.54E., M.D.B.&M.

Application 56090 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #5 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW¼ SE¼ of Section 18, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the NW¼ SE¼ of Section 18, T.40N., R.54E., M.D.B.&M.

Application 56091 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #6 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW¼ NW¼ of Section 20, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the NW¼ NW¼ of Section 20, T.40N., R.54E., M.D.B.&M.

Application 56092 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Mahala Spring #7 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NW¼ of Section 20, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SW¼ NW¼ of Section 20, T.40N., R.54E., M.D.B.&M.

Application 56093 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of South Mahala Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 3, Section 19, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being Lot 3, Section 19, T.40N., R.54E., M.D.B.&M.

Application 56094 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Ganz Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 23, T.40N., R.53E., M.D.B.&M.

Application 56095 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Ganz Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 26, T.40N., R.53E., M.D.B.&M.

Application 56096 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Ganz Spring #3 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, T.40N., R.53E., M.D.B.&M.

Application 56097 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Ganz Spring #4 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 27, T.40N., R.53E., M.D.B.&M.

Application 56098 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Ganz Spring #5 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ NE¼ of Section 27, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE¼ NE¼ of Section 27, T.40N., R.53E., M.D.B.&M.

Application 56099 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of North Road Canyon Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ SE¼ of Section 27, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ SE¼ of Section 27, T.40N., R.53E., M.D.B.&M.

Application 56100 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of North Road Canyon Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ SE¼ of Section 27, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ SE¼ of Section 27, T.40N., R.53E., M.D.B.&M.

Application 56101 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Middle Road Canyon Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NE¼ of Section 34, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ NE¼ of Section 34, T.40N., R.53E., M.D.B.&M.

Application 56102 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of South Road Canyon Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ SW¼ of

Section 34, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE¼ SW¼, Section 34, T.40N., R.53E., M.D.B.&M.

Application 56103 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of North Jim Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE¼ SW¼ of Section 24, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE¼ SW¼ of Section 24, T.40N., R.53E., M.D.B.&M.

Application 56104 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of South Jim Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW¼ NW¼ of Section 25, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW¼ NW¼ of Section 25, T.40N., R.53E., M.D.B.&M.

Application 56105 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of West Side Hill Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW¼ NW¼ of Section 25, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW¼ NW¼ of Section 25, T.40N., R.53E., M.D.B.&M.

Application 56106 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Side Hill Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NW¼ SE¼ of Section 25, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the NW¼ SE¼ of Section 25, T.40N., R.53E., M.D.B.&M.

Application 56107 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Lower Side Hill

Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T.40N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 25, T.40N., R.53E., M.D.B.&M.

Application 56108 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Bench Spring #1 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 1, Section 31, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being Lot 1, Section 31, T.40N., R.54E., M.D.B.&M.

Application 56109 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Bench Spring #2 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 4, Section 30, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being Lot 4, Section 30, T.40N., R.54E., M.D.B.&M.

Application 56110 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Bench Spring #3 within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, T.40N., R.54E., M.D.B.&M.

Application 56111 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of South Bench Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, T.40N., R.54E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 31, T.40N., R.54E., M.D.B.&M.

Application 56112 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate

0.0156 cubic feet per second of the waters of Junction Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within Lot 1, Section 2, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being Lot 1, Section 2, T.39N., R.53E., M.D.B.&M.

Application 56113 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Van Wyper Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M.

Application 56114 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of North Warm Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 3, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being the SW $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 3, T.39N., R.53E., M.D.B.&M.

Application 56115 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Warm Creek Rim Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, T.39N., R.53E., M.D.B.&M.

Application 56116 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Upper Warm Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being the SE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M.

Application 56117 was filed on March 27, 1991, by A. Greer Edwards, Jr., d.b.a. Saval Ranching Company, to appropriate 0.0156 cubic feet per second of the waters of Lower Warm Creek Spring within the North Fork Area Hydrographic Basin for stockwatering and domestic purposes. The proposed point of diversion is described as being located within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M. The proposed place of use is described as being the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 2, T.39N., R.53E., M.D.B.&M.
