This application was considered at the Las Vegas Valley Ground Water Board meeting on February 2, 1965. Action was withheld at the request of George Perkins, the applicant's representative. At the March 2, 1965, meeting of said Board, the Chairman announced that Mr. George Perkins no longer represented the applicant and asked if any one else was present to represent the application. Action was postponed until April 6, due to lack of representation. No one was present to represent this application on April 6, therefore, the Board recommended denial on grounds of lack of representation and interest. A request for an expression of interest in the application was forwarded by certified mail to Mr. Ray Walters on April 30, 1965. No reply to this request has been received.

RULING

Application 22289 is denied on grounds that the applicant failed to submit additional information requested and that approval without such information would be detrimental to the public welfare.

Respectfully submitted,

GEORGE W. HENNEN
State Engineer
