

IN THE OFFICE OF THE STATE ENGINEER
OF THE STATE OF NEVADA

* * * * *

O R D E R

Mr. Lyle Boyer
P. O. Box 361
Dayton, Nevada 89403

On April 20, 1977, a complaint was made that the well under your permit was being used for a gravel pit operation. This Permit 30003 was issued for 1.5 cfs but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated. The Permit was issued for irrigation and domestic purposes and the place of use is described as 60 acres within the E $\frac{1}{2}$ NE $\frac{1}{4}$ Section 9, T.17N., R.23E., M.D.B.&M.

Nevada Revised Statutes provide that the quantity of water to be appropriated shall be limited to such water as shall reasonably be required for the beneficial use to be served. A further requirement is that water shall remain appurtenant to the place of use unless changed pursuant to law. The limit and extent of your right under Permit 30003 is the amount required for beneficial irrigation and domestic uses on the 60 acres described but in no event to exceed 1.5 cfs and 4.0 acre feet per year per acre.

You are hereby notified and ordered to restrain the use of water under Permit 30003 in accordance of the provisions of the permit unless and until the permit is changed pursuant to law.

Roland D. Westergard
State Engineer

Dated this 26th day
of April, 1977.
