**FINDING OF ALLEGED  
VIOLATION  
ORDER NO. 1217**

**LEGAL**

**I.**

The State Engineer, under the authority of Nevada Revised Statute (NRS) Chapters 532, 533 and 534, has the power and duty to enforce the provisions of NRS Chapters 533 and 534.

**II.**

Nevada Revised Statute § 534.193 provides that in addition to any other penalty provided by law, the State Engineer may, after notice and opportunity for a hearing, require a person who violates any provision of NRS Chapter 534 or any permit, certificate, order or decision of the State Engineer to:

- (a) pay an administrative fine not to exceed \$10,000 per day for each violation as determined by the State Engineer and/or;
- (b) in the case of an unauthorized use or willful waste of water in violation of NRS § 534.070, or any other violation of this chapter that, as determined by the State Engineer, results in an unlawful use, waste or diversion of water, replace not more than 200 percent of the water used, wasted or diverted.

**FACTS**

**I.**

Permit 41080 was issued for 0.0222 cubic feet per second (cfs), but not to exceed 0.365 million gallons annually (mga), equivalent to 1.12 acre-feet annually (afa). Proof of Application of Water to Beneficial Use was filed by the permittee and Certificate 10678 was issued for 0.0222 cfs, but not to exceed 0.075 mga, equivalent to 0.023 afa.<sup>1</sup>

<sup>1</sup> File No. 41080, official records in the Office of the State Engineer.

## II.

On April 21, 1993, the owner of record of Permit 41080, Certificate 10678 was updated in the records of the Office of the State Engineer. Phillip G. Jensen and Janet L. Jensen (Respondent) are the current owners of record of Permit 41080, Certificate 10678.<sup>1</sup>

## III.

The Office of the State Engineer, Division of Water Resources (Division) conducts annual groundwater pumpage inventories in the Pahrump Valley Hydrographic Basin (162). The meter readings in the records of the Office of the State Engineer demonstrate that in 2009 the well authorized for use under Permit 41080, Certificate 10678 was pumped for 4.81 acre-feet<sup>2</sup> and that in 2010 said well was pumped for 3.52 acre-feet.<sup>3</sup> The duty authorized under Permit 41080, Certificate 10678 is 0.23 afa, so the well was over-pumped by 4.58 acre-feet, or 1,991%, in 2009 and by 3.29 acre-feet, or 1,430%, in 2010.

## IV.

Per the Nevada Administrative Code (NAC) 532, on July 29, 2011, the Division sent a certified letter to the Respondent setting forth the alleged violation and the possible actions to correct the violation. The alleged violation was described as exceeding the duty authorized under Permit 41080, Certificate 10678 by 4.58 acre-feet, or 1,991%, in 2009 and by 3.29 acre-feet, or 1,430%, in 2010. The options presented for correcting the alleged violation was described as taking the actions necessary to curtail water use to the authorized duty, acquire additional water rights or a combination thereof. The warning letter established a 30 day timeframe in which to file an approvable plan for correcting the alleged violation with the State Engineer and a one year timeframe in which to take the corrective actions set forth in the plan and warned that failing to take such actions could result in additional enforcement actions as provided for under NAC 532. The certified mail receipt was signed by Phillip Jensen on August 2, 2011. The signed certified mail receipt was received in the Office of the State Engineer on August 3, 2011.<sup>1</sup>

<sup>3</sup> *Groundwater Pumpage Inventory Pahrump Valley 2010, No. 162*, official records in the Office of the State Engineer.

V.

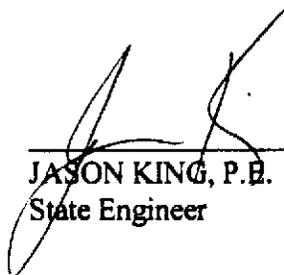

An approvable plan for correcting the alleged violation was not received in the Office of the State Engineer within the timeframe established in the July 29, 2011, warning letter.<sup>1</sup>

VI.

A search of the records of the State Engineer confirms that there is no other water right at the point of diversion of Permit 41080, Certificate 10678.<sup>4,5</sup>

**FINDING**

The State Engineer finds that the Respondent has exceeded the annual duty for diverting water under Permit 41080, Certificate 10678 in violation of the terms of the permit for the years 2009 and 2010 and that the Respondent failed to file an approvable plan for taking the corrective actions necessary for compliance as required by the warning letter dated July 29, 2011.

**VIOLATION ORDER**

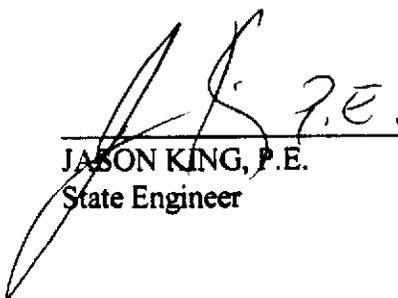

**WHEREAS**, on the basis of the attached Finding of Alleged Violation, which is hereby made a part of this Violation Order, the State Engineer has determined that Phillip G. Jensen and Janet L. Jensen (Respondent) is in violation of the terms of Permit 41080, Certificate 10678 and subject to the provisions of Nevada Revised Statutes (NRS) § 533.481 and 533.193.

**WHEREAS**, under NRS § 534.193 and Nevada Administrative Code (NAC) Chapter 532, a person found to be in violation of any provisions of NRS Chapters 533 and 534 or any permit, certificate, order or decision of the State Engineer is to be provided notice and opportunity for a hearing.

**NOW, THEREFORE, IT IS HEREBY ORDERED** that the Respondent must:

1. **Within one week of the date of this order**, inform the Division of Water Resources (Division) of the Respondent's intent to comply with this order.
2. **Within 30 days of the date of this order**, submit to the Division an approvable mitigation plan which sets forth the circumstances under which the Respondent will comply with the requirements set forth in the Finding of Alleged Violation.
3. **By July 29, 2012**, comply with the requirements set forth in the Finding of Alleged Violation.

4. At a time and location to be determined, appear at a hearing with the Division for the purpose of determining the manner in which the Finding of Alleged Violation and this Order have been acted upon and to show cause why injunctive relief should not be sought and why penalties should not be incurred.
