

## IN THE OFFICE OF THE STATE ENGINEER

STATE OF NEVADA

ORDER

MGL Mining Corporation  
417 S. Hill Street  
Los Angeles 13, California

Certificate 2809 (Permit 11019) was issued for 0.67 c.f.s. of water from an underground source for milling and domestic purposes. The point of diversion of water from the source is described as being in the SE $\frac{1}{4}$  SW $\frac{1}{4}$  Section 8, T.25N., R.24E., M.D.B.& M.

Nevada Revised Statutes provide that failure for five successive years to use beneficially all or any part of the underground water for the purpose that such right has been acquired shall work a forfeiture to the use of such water to the extent of such nonuse. Nevada Revised Statutes also provide that a right to use underground water, whether it be vested or otherwise, may be lost by abandonment.

Records, evidence and information on file in the office of the State Engineer and evidence submitted at a hearing on December 7, 1976, indicate that there has been no beneficial use of water under the subject Certificate and Permit for a period in excess of five successive years. Evidence further indicates that the right under Certificate 2809 (Permit 11019) has been abandoned.

It is hereby ordered that Certificate 2809 (Permit 11019) is declared forfeited and abandoned in its entirety.

  
Roland D. Westergard  
State Engineer

Dated this 14th day  
of December, 1976.
