A field investigation of illegal pumping was conducted by the State Engineer's office on July 5, 1988. Wells drilled under cancelled Permit Nos. 19901 and 19978 were observed to be pumping. The well under cancelled Permit No. 19900 was not pumping but was equipped with the necessary control panel and motor to be fully operational.

There are no valid water rights for these wells for irrigation or any other purposes. This irrigation is in clear violation of NRS 534.020, section 1, which states "[A]ll underground water within the state belongs to the public, and...are subject to appropriation for beneficial use only under the laws of this state relating to the appropriation and use of water and not otherwise." (Emphasis added)

YOU ARE HEREBY ORDERED to cease and desist the diversion of water from said wells immediately and are ordered to plug said wells in accordance with part 14 of the Regulations for Drilling Water Wells within 30 days of the date of this Order.

Peter G. Morros
State Engineer
