Each of you is a water user on the White River Stream System and its Tributaries.

This water system was adjudicated pursuant to the laws of the State of Nevada in the Seventh Judicial District Court of the State of Nevada, in and for White Pine County.

The adjudication determined the limit and extent of all the relative rights of all claimants and appropriators of the waters of the White River System.

The rights of all users were set out in the Decree of the above entitled court entered on December 4, 1922.

On page 5 of said Decree in paragraph No. 5, the Court ordered, adjudged and decreed; "That each water user shall install and maintain substantial headgates, works of control and weirs in his ditch or ditches of such construction as will be approved by the State Engineer."

To insure that each of you, as a water user of the White River System, get your decreed water, YOU AND EACH OF YOU ARE HEREBY ORDERED as follows:

1. To install a substantial headgate as designated by the State Engineer. This headgate must be adequate to enable regulation of water to an open or closed position and must be able to be secured and locked.
2. To install a measuring device or weir as designated by the State Engineer. This measuring device must be adequate to measure water easily in order to facilitate water distribution.
3. To have the above described headgate and weir installed and in operable condition by June 1, 1989.

  
Peter G. Morros  
State Engineer

Dated at Carson City, Nevada,  
this 11th day of APRIL 1989.
