I, Peter F. Anker, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 22 day of July 1945; that it truly and correctly represents the location and extent of the works used to divert water from the Humboldt River, in Pershing County, by Fred Ringle for irrigation purpose under Application No. 9827. That the point of diversion, the location, size and grades of the diverting channel, location and description of all measuring devices, the location and extent of lands owned or controlled by applicant upon which water is applied for under Application No. 9827 is used, together with the area and kind of culture in each 40 acre subdivision, and the location and names of all other works or streams which are crossed or connected with said works are fully and correctly designated thereon.
