I, Harry H. Hughes, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 11th day of Oct., 1958; that it truly and correctly represents the location and extent of the works used to divert water from an underground source, in Nye County, by Alex E. Bettles, for irrigation purposes under application No. 1405. That the point of diversion, the location, size and grades of the diverting channel, location and description of all measuring devices, the location and extent of lands owned or controlled by the applicant upon which water applied for under application No. 1405 is used, together with the area and kind of culture in each 40-acre subdivision, and the location and names of all other works or streams which are crossed by said works (or connected with) are fully and correctly designated thereon.
