

POINT OF DIVERSION Consists of 16 inch diam. cased well 200 feet deep with bowls set at 140 feet; and Byron Jackson 10 inch pump powered by 205 HP MacK diesel engine. Water delivered from pump to an irrigation ditch running east. Ditch delivers water to planted furrows running from south to north. It was stated to T.M. Cahill on December 2, 1967 by Thomas E. Defoor that the entire South 1/2 of Sec. 32 was seeded as indicated below. Seeding was done in November 1967. Water flow was measured on December 2, 1967 by T.M. Cahill of P.O. Bullis, Gabbs, Nevada. Water flowed at 1800 gpm. or 4.0 second feet at a point 100 feet east of the well. Point of diversion is located N40°00'E a distance of 122.0 feet from the SW corner of Section 32.

STATE OF NEVADA } 55
COUNTY OF NYE.....

I, T.M. Cahill, being first duly sworn depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between the 2 day of December and the 3 day of December 1967, and field checked on the 10 day of December 1967, that it truly and correctly represents the location and extent of the works used to divert water from underground source in Lander County by Pauline R. Defoor for Irrigation and Domestic purposes under permit No. 19081; That the point of diversion, the location and size, and grades of the diverting channel, location and description of all measuring devices, the location and extent of lands owned or controlled by the applicant upon which water applied for under Permit No. 19081 is used, together with the area and kind of culture in each 40 acre subdivision, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated thereon.

J. M. Cahill
STATE WATER RIGHT SURVEYOR

Subscribed and sworn to before me this 12 day of January 1968.

NOTARY PUBLIC IN AND FOR NYE COUNTY, NEVADA.
