I, Richard W. Forman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 25th day of Sept., 1979, and the 26th day of Sept., 1979, that it truly and correctly represents the location and extent of the works used to divert water from Underground Sources in Churchill Co., by Mary R. Goeringer for Irrigation & Domestic purposes under Application No. 26934. That the point of diversion, the location and size of the diverting channel, the location and description of all measuring devices, the location and extent of all lands owned or controlled by the applicant upon which water applied for under Application No. 26934 is used, together with the area and kind of culture in each 40-acre subdivision and the location and names of all other works or streams which are crossed or connected with said works are fully and correctly designated hereon.
