I, Richard W. Forman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision and direction between the 1st day of July, and the 3rd day of July, 1974 that it truly and correctly represents the location and extent of the works used to divert water from Underground Sources in White Pine County, by John Dean Baker, William Mau & W.D. McHenry for irrigation and domestic purposes under Application No. 27079. That the point of diversion, the location and size of the diverting channel location and description of all measuring devices, the location and extent of all lands owned or controlled by the applicant upon which the water applied for under Application No. 27079 is used, together with the area and kind of culture in each 40-acre subdivision and the location and names of all other works or streams which are crossed or connected with said works are fully and correctly designated hereon.
