

**STATE OF NEVADA
CARSON CITY**

I, FRED STANIO being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from the field notes of a survey under my supervision and direction, between the 19th day of July, and the 24th day of July, 1985; that it truly and correctly represents the proposed location of the well used to divert water from an underground source in Douglas County, by the State of Nevada, acting by and through its Department of Transportation, for public highway purposes. That the proposed point of diversion, the location and size of the drilled well, and the boundary of all lands, showing by 40 acre subdivisions, the areas occupied and irrigated at the Gardnerville Maintenance Station, are fully and correctly designated thereon.
