

STATE OF NEVADA }
 COUNTY OF PERSHING }

I, Robert S. Leighton, being first duly sworn, depose and say, that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 15th day of July, 1939; That it correctly represents the location and extent of proposed works used to divert water from Spring Gulch Creek, in Pershing County by the Standard Cyaniding Co. for milling and domestic purposes. That the proposed point of diversion, the location of the mill, the approximate size of the diverting conduit, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated hereon.

Robert S. Leighton
 STATE WATER RIGHT SURVEYOR

Subscribed and sworn before me on this 21st day of July 1939.

John A. Jurgensen
 Notary Public in and for Pershing County, Nevada
